

COVERALLS

- This measurement is specific to these coveralls only
- Measure both chest and waist. Use the larger of the two to determine coverall size
- If your chest or waist measurement falls between sizes, size up
- Measurements assume coveralls are worn over other clothing

HOW TO MEASURE

NOTE: For best results, measure over your undergarments and use a flexible measuring tape.

Chest

Measure just under your arms and across your shoulder blades, holding the tape firm and level. If your chest falls between sizes, order the next size up.

Waist

Bend side to side and find the natural bend in your body. This is your natural waist. **Note:** it may not be the smallest point.

Inseam

Measure from your crotch down to the desired length on body. You can also measure pants that you currently own and like. Lay the garment flat, and measure on the front from the crotch point along the seam to the hem for the inseam length.
