### TIPS FOR INCREASING PRODUCT LONGEVITY

Always store your blind in a cool dry place and make sure that your blind is completely dry and clean before storing in carrying bag. Never leave your blind outside for any longer than needed. This material may fade after long periods of time in direct sunlight.

**ATTENTION!! WHEN YOU SEE A "⚠ WARNING!" BE SURE TO HEED THE MESSAGE! THE INFORMATION CONTAINED IN THESE MESSAGES CAN SAVE YOUR LIFE!!**

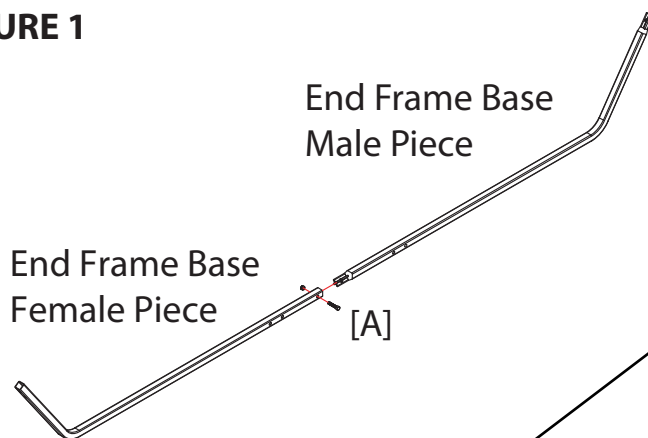

**⚠ WARNING! DO NOT** over tighten the hardware. Over tightening can lead to structural damage and may negatively affect the performance of your blind. Failure to follow these instructions may result in serious injury or death!

**NOTE:** Steps 1-12 require that you temporarily finger tighten all nuts and bolts until instructed to tighten. This will ensure proper alignment during assembly.

Most parts of this model are manufactured to be universal in use, so there may be some parts containing holes that will not be used for assembly. To minimize confusion in the assembly process, please read these instructions in entirety before beginning.
