

PRODUCT NAME: BLOCKOUT 350

MODEL #: BL350BW

Blockout Blinds are rugged. Constructed from a tightly woven 600 denier, waterproof polyester fabric to give the blind unmatched durability. The fabric is brushed to create a low sheen exterior to make it blend in. These blinds feature unique one-way high density mesh that allows you to see out of the blind without being able to see in. This unique window fabric allows you to increase your field of vision by opening more window panels, while remaining concealed in the blind and allowing for movement. All Blockout Blinds feature clip and slide windows. These windows slide up and down quietly for adjustable horizontal window configurations or can be unclipped for unrestricted shooting windows.

FEATURES

- Water-proof, tightly woven, brushed 600D fabric with a black interior coating
- One-way high density window mesh allows users to remain concealed even during critical shot adjustments
- Fully-adjustable clip and slide windows for quiet configurations
- 80" tall for standing shots
- Three large viewing windows
- Rear peek window with one-way high density mesh for additional viewing
- Brush holders for optional added concealment
- Includes backpack carry bag, ground stakes and tie down ropes
