LS-870

LASERSADDLE™

FEATURES & SPECIFICATIONS

- > Instant Activation™: Tap-On, Tap-Off
- > Master On/Off Switch
- > Battery Life & Type: RED 3 Hours | CR2032 Lithium Battery (2) GREEN 3 Hours | CR2016 Lithium Battery (4)
- > Ambidextrous Activation
- > User Adjustable Windage and Elevation
- > Fits Most Remington 12 Gauge 870 and Tac-14 Models
- > *Fit for 20 or 410 Gauge Models TBD.

The LS-870 Lasersaddle™ is a feature-packed laser sighting solution for Remington 870 and Tac-14 shotguns in 12 gauge only. Attaching seamlessly to the receiver, the LS-870 provides an ambidextrous laser activation pad for instant targeting with a powerful 5mW red or green laser. As with all Crimson Trace laser sights, the LS-870 is user-adjustable for windage and elevation. The LS-870 features a Master On/Off Switch for completely powering down the system. This model provides 3 Hours of battery life with two provided CR2032 or 4 CR2016 batteries. Does not fit 20 gauge or .410 Bore.
