	20 RDR 10 QKC 17	17	Camo	707772416465	
Prices	Wholesale: Drop Ship: Fleet: MSRP: MAP:	\$4099 Charcoal, \$4199 Camo \$4799 Charcoal, \$4899 Camo \$3859 Charcoal, \$3959 Camo \$5999 Charcoal, \$6099 Camo \$5699 Charcoal, \$5799 Camo			
Description	<p>Some of the most rugged terrain on the planet is found in the Rocky Mountains. The beauty of this place is only matched by the danger and exposure faced while enjoying the grand peaks and valleys. To conquer this terrain you need the ultimate machine.</p> <p>The all-new Fat Tire RidgeRunner is a full suspension electric mountain bike geared towards exploring the backcountry like never before. The Fire-Link suspension system is a true four-bar linkage, providing the ultimate traction and capability while 4 piston hydraulic disc brakes allow you to keep control.</p> <p>Built on a 26"x4.8" Fat-Tire platform, the RidgeRunner is designed for a wide variety of technical, off-road terrain including soft sand and snow, as well as hardpack trails and rocks.</p>				

	The Fat Tire RidgeRunner is available in 1000 Watt or 750 Watt motor options.	
Dimensions / Specs	Motor / Class Battery / Range Gears Brakes Suspension Tires Weight Load Capacity	1000W (UNCLASSIFIED) 16ah/48V, 25-50 miles 9-Speed Tektro 4-Piston Hydraulic Disc RST Air Suspension Fork RockShox Monarch RL CST Roly Poly 26" x 4.8" 80lbs 300lbs
Colors	Charcoal, Camo Decoration	
Sizes	17" S/M, 19" M/L	
Compatibility	N/A	
Product Images	https://drive.google.com/drive/folders/19-D2hFUysQq4MDEVUqDtFA9jfWvGCUqv?usp=sharing	
Product Notes	<p>The RidgeRunnerFT was designed to be the most capable bike we have ever made. The rear suspension linkage has been fine-tuned to provide maximum traction, capability and ride quality. The oversized fat bike tires and 120mm of suspension travel allow the bike to handle any terrain from sand and snow to rocks and gravel.</p> <p>The RidgeRunnerFT is ideal for the customer who needs the ultimate capability. It is compatible with all the QK trailers for hauling gear. The full suspension bikes DO NOT work with the Pannier Racks.</p>	
Shipping Dimensions	62" x 14" x 34", 90lbs

Product Name	Quantum 10					
Model # UPC #	Model #		Size	Color	UPC #	
	20 QTM 10 CHR 19		19	Charcoal	707772416557	
	20 QTM 10 CHR 17		17	Charcoal	707772416571	
Prices	Wholesale: Drop Ship: Fleet: MSRP: MAP:	\$4499 Charcoal \$5219 Charcoal \$4229 Charcoal \$6529 Charcoal \$6199 Charcoal				
Description	<p>Quantum mechanics is the body of scientific laws that describe the behavior of photons, electrons and the other particles that make up the universe. The study of Quantum physics is so advanced that most of us cannot understand it, therefore anything labeled Quantum is extremely important.</p> <p>The Quantum combines the most advanced technology and geometry available with 150mm of front and rear suspension travel. 4 piston hydraulic disc brakes allow you to keep control in the roughest terrain, and the 27.5" x 3" tires, aggressive frame geometry, and upgraded components are designed to climb the steepest hills and descend any terrain with confidence and performance.</p> <p>The Quantum includes the Funn Package, which includes Funn handlebars, grips, stem, pedals, and a remote dropper seatpost which make the Quantum the most advanced QuietKat ebike.</p> <p>The Quantum is available in 1000 Watt or 750 Watt motor options.</p>					

Dimensions / Specs	Motor / Class Battery / Range Gears Brakes Suspension Tires Weight Load Capacity	1000W (UNCLASSIFIED) 14ah/48V, 25-50 miles 9-Speed Tektro 4-Piston Hydraulic Disc RockShox Air Suspension Fork Rockshox Monarch RC Rear CST Roly Poly 26" x 4.8" 70lbs 300lbs
Colors	Charcoal	
Sizes	17" S/M, 19" M/L	
Compatibility	N/A	
Product Images	https://drive.google.com/drive/folders/1N-njoEuu43mlHYOuVgJuhl_iEV6QKWRT?usp=sharing	
Product Notes	<p>The Quantum is designed to be the most similar to a traditional E-Mountain Bike. Featuring a full-suspension Horst-Link design with 150mm of front and rear travel, the Quantum is an endure-style mountain bike with the addition of the electric motor.</p> <p>The Quantum is a great selection for the avid mountain bike rider looking for an Ebike with substantial power that still handles like an acoustic mountain bike. Also known as a self-shuttle the Quantum is ready for laps at the bike park, cross-country mountain bike expeditions, or cruising singletrack trails.</p> <p>Both trailers are compatible with the Quantum, Pannier Racks are NOT compatible.</p>

Description	<p>When you have the highest demands for quality and performance, you reach for the highest level. The summit, the peak, the top of the world, the best of the best. There is no compromise, no room for nonsense, there is only the Apex.</p> <p>QuietKat’s most popular electric fat bike has been overhauled for 2020 with the all-new integrated battery and motor system! The new 2020 Apex features updated frame geometry paired with focused weight distribution to optimize ride quality and handling.</p> <p>New for 2020, the Apex features a 12mm thru-axle on the rear and sealed bearings in both front and rear hubs for smooth operation in all weather conditions.</p> <p>The Apex features QuietKat’s top build kit, including adjustable air-suspension, 4-Piston Hydraulic Brakes, and a 9 speed drivetrain.</p> <p>Powered by a mid-drive motor paired with wide-range gearing provides maximum torque for climbing steep hills. The Apex is designed for the most rugged and advanced off-road terrain including steep mountain ascents and descents on singletrack trails.</p>				

	Available in 1500W, 1000W, and 750W motor options.	
Dimensions / Specs	Motor / Class Battery / Range Gears Brakes Suspension Tires Weight Load Capacity	1500W (Unclassified) 14.5ah/48V, 20-50 miles SRAM 9-Speed Tektro 4-Piston Hydraulic GTMRK 150mm Inverted Fork Kenda Juggernaut 26" x 4.5" 80lbs 325lbs

Compatibility	N/A	
Product Images	https://drive.google.com/drive/folders/1P4gZiVeA91JxhNaivNmN8UV-KMZlVJRM?usp=sharing	
Product Notes	<p>The Apex is the top fat bikes in the QK lineup featuring the highest level component package offered.</p> <p>The Apex is available in 4 model versions; The Apex 15, Apex 10, Apex 7.5, and the Apex SS. Each of these versions feature the same component package, except the SS which is a single-speed version (only one gear).</p> <p>The Apex 15 features a boosted 1500W motor, while the Apex 10 and Apex SS feature 1000W motors which are NOT CLASSIFIED as electric bikes in the USA. These are great options for customers who will use there QuietKat primarily on private land or unregulated areas.</p> <p>The Apex 7.5 is classified as a CLASS 2 EBike and is legal for use on any trail that allows Class 2 ebikes. To qualify for Class 1, the customer may remove the throttle.</p>

Description	<p>A Warrior is a brave, experienced soldier, a fighter for a cause. A Warrior must be tough, smart, and capable of adapting to challenges. When you are out in the woods or deep in the backcountry, you want a Warrior on your side.</p> <p>The all-new QuietKat Warrior has been overhauled for 2020 with the all-new integrated battery and motor system! The new 2020 Warrior features updated frame geometry paired with focused weight distribution to optimize ride quality and handling. Adjustable dropouts make it easy to adjust the wheelbase or run a single-speed drivetrain for simplicity</p> <p>The Warrior features QuietKat’s performance build kit that wont break the bank, including adjustable coil-suspension, mechanical disc brakes, and an 8-speed drivetrain.</p> <p>Powered by a mid-drive motor, the Warrior utilizes the full range of gears for maximum torque for climbing steep hills. The Warrior is designed for moderate to advanced off-road terrain including rolling hills and farm roads.</p>

Description	<p>One of the most important parts of human history has been efficient transportation into and around the village. Whether you were bringing your crops from the farm to market, or acquiring the necessary provisions, you must go into the village. As the central point of trade, commerce, ideas and progress, the village has been crucial to human development.</p> <p>The QuietKat Villager has been carefully designed to meet the challenges of the modern village. The step-thru frame design makes it easy to get on and off for both men and women. A 500 watt hub-drive motor paired with 203mm disc brakes have enough power to climb steep hills and enough stopping power to inspire confidence. A suspension fork and 3” plus-size street tires make for a smooth and comfortable ride.</p>

Product Notes	The Villager was designed to meet the demand for urban commuting, bike path adventures and resort rental operations in resort communities such as Vail and Steamboat in Colorado, wine country in Napa Valley, and along the beach paths and boardwalks of the east coast. These resorts require a bike that has enough power to handle the terrain, with reliable components that are easy to maintain, and be able to stand up to the rugged and use from rental and fleet operations.

Description	<p>A voyage can be an adventure, it can be a journey for supplies, or to visit interesting places. For those looking to expand their voyage beyond just the roads, the campgrounds or the docks, you need an efficient tool for transportation. Let the voyage begin!</p> <p>The Voyager is the ultimate in portability. Featuring a folding frame and steering column, the Voyager folds up small and fits in most cars and SUV's. The Voyager is powered by a 750W hub motor in the rear wheel and a 7-speed drivetrain. 20"x4" fat-tires and mechanical disc brakes keep the bike in control over any type of terrain.</p>															
Dimensions / Specs	Motor / Class Battery / Range Gears Brakes Suspension Tires Weight Load Capacity	750W (Class 2) 11.6ah/48V, 20-40 miles Shimano 7-Speed Tektro Mechanical Disc RST Coil Suspension Fork Kenda 20x4" Fat-Tire 60lbs 325lbs

2020 QuietKat Product Details

Product Name Model # UPC #	Single-Wheel Trailer 19QKCT 680666715458		
Prices	Wholesale: Drop Ship: Fleet: MSRP: MAP:	\$189 \$229 \$181 \$299 \$279	
Description	Exploring the backcountry can require traveling through tight places, along singletrack trails and between trees. The Single-Wheel BOB trailer is narrower than our handlebars, which will give you the capability to carry your gear to the most remote places. The 20"x4" Fat-Tire wheel can handle the most rugged terrain.		
Dimensions / Specs	<ul style="list-style-type: none"> • Attaches to bike using Trailer Bobbins • BOB Axles for non-QK bikes can be purchased from the Robert Axle Project • Total Length: 76" • Length of Trailer Bed: 24" • Width of trailer Bed: 14" 		
Colors	Black		
Sizes	N/A		
Compatibility	Will work with any QK bike. Full Suspension Bikes require Robert Axle Project BOB Axle.		
Product Images	https://drive.google.com/drive/folders/1kz4bkSGt-uiQl6h7mS-CS0wY8crX1nw8?usp=sharing		

Product Notes	<p>The Single-Wheel trailer has been in the QuietKat lineup for a few years. Tried and tested, the Single-Wheel trailer is perfect for carrying extra gear into the most rugged terrain where the narrow, single-wheel design is desired over a 2-wheel design. The 20" fat bike tire provides traction and shock-absorption for the load.</p> <p>The trailer uses a BOB axle connection and comes with thread-on Bobbins which work on all QK hardtail bikes. Full Suspension bikes require a BOB axle specific to the bike model.</p> <p>The trailer is rated for up to 100lbs of load for off-road terrain.</p>
Shipping Dimensions	SHIPPING DIMENSIONS

2020 QuietKat Product Details

Product Name Model # UPC #	2-Wheel Trailer 19QK2WT 707772415888		
Prices	Wholesale: Drop Ship: Fleet: MSRP: MAP:	\$229 \$279 \$219 \$359 \$339	
Description	Bring everything you need for a backcountry adventure, and haul your game back with the QuietKat 2-wheel trailer. The 2-wheel design and the 20" x 4" fat tires remain stable over rugged terrain. Tree-stand mesh covers the entire length of the trailer to keep gear in place.		
Dimensions / Specs	<ul style="list-style-type: none">• Attaches to bike using axle hitch.• Hitch available in 3/8" and 12.1mm diameter• Total Length: 80"• Length of Trailer Bed: 56"• Width of trailer Bed: 16"• Height at top adjustment: 42"		
Colors	Black		
Sizes	N/A		
Compatibility	Will work with any QK bike. Full Suspension Bikes require 12mm Hitch.		
Product Images	https://drive.google.com/drive/folders/1hUilOk54ggicbio0Cd32xK8742pCOvqF?usp=sharing		
Product Notes	<p>The Two-Wheel Trailer is designed to be stable and easy to load and unload. A simple Thru-Axle style hitch is used to attach the trailer to the bike. The hitch can be squeezed between the washer and axle nut, or, between the axle nut and an additional nut on the brake-side of the rear wheel axle.</p> <p>For RidgeRunner/Quantum or any bikes with a 12mm Thru-Axle, a 12mm hitch is available.</p>		

	<p>The hitch attaches to the trailer yoke using a simple cotter-pin. The cotter-pin allows for the trailer to be attached and removed quickly and easily without removing the hitch from the bike.</p> <p>The trailer's rear half can be adjusted to sit at 2 angles, or lay flat. The tree-stand mesh lining along the trailer bed frame make it easy to carry smaller items and avoid bag straps from dragging.</p> <p>The trailer is rated for up to 100lbs of load for off-road terrain.</p>

Product Images	https://drive.google.com/drive/folders/1Qt5zze2CClt7Kme5e wrpnpcDNfZq-6w4?usp=sharing		
Product Notes	<p>The fenders are designed to keep the rider clean and dry. Keep in mind the fenders help with this, but they will not prevent the rider from getting dirty or wet while riding in extreme weather or conditions. The plastic material is flexible, and the angle of the fenders is completely adjustable.</p> <p>The front fender installs into the steertube under the fork crown and uses a tension-bolt to expand the attachment and hold the fender in place. The rear fender attaches to the seatpost. On Full-Suspension bikes, the rear fender can impact the rear wheel under suspension travel, which is why this set is not recommended for full-suspension bikes.</p>

2020 QuietKat Product Details

Product Name Model # UPC #	Explorer 900 Light 19QKWBL-1001 680666716028		
Prices	Wholesale: Drop Ship: Fleet: MSRP: MAP:	\$55 \$65 \$52 \$95 \$89	
Description	<p>Riding at night can be fun, it can also be extremely dangerous if you cannot see the terrain in front of you. Explore more with the QuietKat Explorer light, and select between the bright white light, or the stealthy red light to sneak in without alerting wildlife.</p> <p>The Explorer 900 electric bike light features a combination of red and white lights for stealth access and visibility. Featuring a 600 lumen white light, a 300 lumen red color light, brightness selection, and a strobe function.</p>		
Dimensions / Specs	<ul style="list-style-type: none"> 900 Lumens MAX White / Red <ul style="list-style-type: none"> 600 Lumens White, 300 Lumens Red Size: 1.8" x 1"x 3.75" Material: Aviation Aluminum Modes: Red, White, Red & White, (all settings at 100 & 70% brightness options) Lamp: LED Weight: 185 		
Colors	Black/Grey		
Sizes	N/A		
Compatibility	Compatible with all QK Bikes		
Product Images	https://drive.google.com/drive/folders/1V48F9xMdn--rimeaRiDBq3DmhecqUsGm?usp=sharing		
Product Notes	<p>The Explorer light is an advanced bicycle light featuring both white and red LED lamps. Use the white light for maximum visibility, and use the red light to avoid disturbing wildlife (since most animals cannot see red light).</p>		

	The light can also be mounted on the seat-tube or pannier rack and placed in RED mode to be used as a taillight.

Product Name Model # UPC #	Dry Pack QKDRYP 707772415727		
Prices	Wholesale:	\$69	
	Drop Ship:	\$79	
	Fleet:	\$65	
	MSRP:	\$129	
	MAP:	\$119	
Description	The QuietKat DryPack is the essential accessory for any electric bike. This ultimate, water-resistant bag with a laptop sleeve is crafted from a high-frequency fabric and backed with polyurethane. The main compartment of the backpack is kept almost air-tight with the roll-top construction. Inside is an organization panel to keep smaller belongings, devices, and up to a 14" laptop secure and ready to use.		
Dimensions / Specs	<ul style="list-style-type: none"> • H 26.5" x W 13" x D 5" • Capacity: 22.9 liters • Weight: 2.0lbs • Made from ultra-sonically welded, water-resistant nylon • Matte black hardware • Water-resistant polyurethane lining • Air-mesh shoulder straps • Chest harness • Air-mesh back panel 		
Colors	Black/Grey		
Sizes	N/A		
Compatibility	Compatible with all QK Bikes, not recommended for Full Suspension models.		
Product Images	https://drive.google.com/drive/folders/1nyvtLOJi9AAhQVaQu816FSbApLHnpfLw?usp=sharing		

Product Notes	This waterproof backpack is great for longer trips out on the bike camping, exploring, or hunting. The roll-up top is used to adjust the volume of the bag, and paired with the welded seams and zippers to keep your belongings dry and clean in the most extreme weather.

2020 QuietKat Product Details

Product Name Model # UPC #	STG Tailgate Pad 19QKTP 707772415789		
Prices	Wholesale: Drop Ship: Fleet: MSRP: MAP:	\$99 \$119 \$96 \$169 \$159	
Description	<p>Carry your ebike easily and securely in your pickup-truck and protect your tailgate properly. QuietKat's STG technology is built-in to the pad, providing maximum protection for the tailgate using high-density foam, and keeps bikes in place with the built-in dividers. A Velcro window opens in front for easy handle access on most pickup trucks and the pad does not require removal to operate tailgate. Easily straps on to most pickup truck tailgates and tough straps keep the pad in place. Weatherproof materials and double stitch seams allow you to run the pad full time for easy transport of your QuietKat ebike.</p>		
Dimensions / Specs	<ul style="list-style-type: none"> • 58" Long, 32" wide (10" back, 6" top, 16" front when folded over tailgate) • STG divided slots for 5 bikes • 100lbs per bike • Velcro flap for easy tailgate handle access • Attaches to most pickup tailgates using attached straps. 		
Colors	Black/Grey		
Sizes	N/A		
Compatibility	Compatible with most Pickup truck beds. Will work with any QK bike		
Product Images	https://drive.google.com/drive/folders/1l29tRkB9de03nc2s2y4SaowB3vFAPpVp?usp=sharing		
Product Notes	<p>This tailgate pad was designed for the weight of the QuietKat ebike. Dividers keep bikes from sliding side to side. There are no straps to hold the bikes down, so for rugged off-road travel, it is recommended to strap the bikes down to the truck using a ratchet strap.</p>		

Shipping Dimensions	21" x 18" x6" 5 LBS
