2020 will be Drake's 18th year in business and it's been quite a ride. With momentum building and Drake Waterfowl finishing up a record-smashing year in 2019, we are as excited today as we've ever been about the future. Part of that excitement is attributed to delivering INNOVATIVE products each and every year, while developing fresh, creative, in-store marketing support at the point of sale. You can always rely on Drake to push the envelope in product design and marketing support so your customers will have something exciting to discover when they walk in your store.

2018 was our 9th year to sell waders. We made 4 significant improvements and set an all-time-record for Drake wader sales. What did we do in 2019? We kept pushing the envelope and totally redesigned our best-selling wader to create the new patent-pending Guardian Elite 6-Layer 4-n-1 Wader. More than twice as durable as previous models and reduced taped seams by up to 75%, these new waders are the pinnacle of wader design. Additionally, we created a removable tear-away liner maximizing the versatility and your customer's experience in the field. With these new innovations we had already booked more waders by the end of February than we sold in all of 2018. Thank you for recognizing and continuing to support Drake innovation. With 2020 approaching, we will continue our innovative streak with an aggressive expansion of our footwear and continued innovation of our fabrics with a new REFUGE 3.0 Hardshell fabric. This workhorse keeps getting better. You will also see us entering new categories as well as bringing back our old friend, the classic McAlister product line.

Make sure you take a look at Drake's entire family of brands. We work tirelessly to turn the sea of camo inside your store into focused, pursuit specific branding to enhance the experience of your customers while giving them quality recognizable choices that meets the needs of all their outdoor pursuits. Your supporting Drake's other brands will help you create traffic 12 months a year - OI' Tom and DPF in the spring, Non-Typical and Waterfowl in the fall, leaving Casual and Collegiate for all year long! Drake - ALWAYS IN SEASON®.

Thank you for your continued business and always let us know what we can do better!

Tate Wood / Bobby Windham.

Return Policy: Icon will only accept prepaid returns that have previous authorizations. When requesting authorization refer to original invoice number. No call tags will be issued.

Shortages: Shortages must be reported within 10 days and claim for shortages must be accompanied by delivery carriers freight bill on which the shortage is noted.

Returns: Merchandise may not be returned without the express permission of our Sales Department. Retailers must be issued a "Return Authorization" (RA) number prior to any returns. RA's are good for 30 days only. Merchandise must be returned prior to the 30-day deadline or a new RA number must be issued. Merchandise returned that is not authorized requires repackaging or retailer no longer wanting the product will be subject to a 15% restocking charge. Icon Outdoors may choose to refuse an unauthorized return. Return shipments must be prepaid. Collect shipments will be refused.

Orders submitted signify that you accept the terms and conditions stated herein and the prices stated on the current price list. These terms and conditions supersede any contrary provisions stated on your purchase order. These policies and terms are subject to change without notice. Icon Outdoors will make the final determination on the eligibility for any discounts.

Order Revisions: Changes or cancels to orders must be received in writing thirty (30) working days prior to the requested shipping to ensure changes can be properly effective. Any changes that occur within the thirty (30) day window will incur a fourteen (14) day delay in shipping, pending availability of product. Should cancellations become necessary, it must be in written form and subject to 15% cancellation charge.

NOTICE: Icon Outdoors reserves the right to change pricing without notice. Prices in this Workbook are **GUARANTEED UNTIL 1/31/20, with the exception of potential price increases that become necessary due to increased tariff duty taxes.**

2020 POINT OF PURCHASE MARKETING

In 2020 we will be implementing video monitors on our display racks that will better explain the innovative features that sets Drake apart from the competition. All too often our printed POP gets very wordy and often goes unnoticed by shoppers. With an innovative video presentation, we will give your shopper a quality in-store experience while better explaining the Drake product.

WE ARE ALWAYS IN SEASON®

PROUD PARTNER

CAMOS FOR FALL 2020

CUSTOM FABRICS JUST FOR YOU... HOW DO YOU HUNT?™

This is a very important question each person should ask when shopping for new gear because we all have different needs and expectations. According to a study in 2009 by the USF&W, the average duck hunter spends 11 days per season in the field. There are also professional guides who hunt nearly every single day of the season and even travel to extend their season. Both are passionate hunters but both have very different needs. With 3 different fabrics, Drake has you covered no matter how many days you spend in the field.

★★★★★

Engineered to withstand the abuse of full time guides averaging 100 days a year in the field, YEAR AFTER YEAR.

G3 is the most technologically advanced fabric Drake has ever offered. Engineered to meet the demands of professional guides who demand extreme durability, maximum protection from the worst storms AND maximum breathability as they work from daylight to dark, day after day, no matter the conditions.

★★★★★

Engineered to withstand the abuse of duckaholics averaging 45-60 days a year in the field, YEAR AFTER YEAR.

This advanced, mechanical stretch HARDSHELL is our best in class, 2-layer fabric. Built for everyday use and engineered to endure heavy rains, along with the daily abuse Duckaholics dish out each hunt. Built-in mechanical stretch fabric allows flex where you need it, no matter the movement. Delivering critical breathability where it matters, this is the fabric hard working hunters demand, hunt after hunt, year after year.

★★★

Engineered for die-hard waterfowlers that average 20-30 days per season, YEAR AFTER YEAR.

Drake Waterfowl was built on the back of this hardworking 2-layer fabric since the very beginning. This time-tested fabric continues to protect 100's of thousands of duck and goose hunters, flyway to flyway, season after season.

NEW

HELLO OLD FRIEND!

These products are old faithfuls, they've stood the test of time and have been proven hard to beat. You can't help but feel the rich tradition of waterfowl hunting when you pick them up. The traditional designs, classic good looks and quality materials will take you back to the good ol' days when your great grandfather shot a limit of mallards over handcarved decoys with a single shot 12 gauge before his shift down at the mill.

GE3

GUARDIAN ELITE
— 3 LAYER PRO —
WADER FABRIC

G3-GUARDIAN ELITE 3 LAYER PRO WADER FABRIC™ is the most technologically advanced fabric Drake has ever offered. Engineered to meet the demands of professional guides who demand extreme durability, maximum protection from the worst storms AND maximum breathability as they work from daylight to dark, day after day, no matter the conditions.

Proven functionality and rugged durability on our breathable waders, this is the ultimate fabric for all hardcore waterfowler's outerwear.

HEAVY-DUTY CAMO OUTER FABRIC WITH DWR-DURABLE WATERPROOF TREATMENT

WATERPROOF/BREATHABLE LAMINATE

HEAVY-DUTY INNER FABRIC

GE3

GUARDIAN ELITE
— 3 LAYER PRO —
WADER FABRIC

With most hunting apparel companies worrying about only answering the question of "WHAT DO YOU HUNT?", here at Drake we've taken a much more in-depth approach. By asking "HOW DO YOU HUNT?™", we've gone beyond the average hunter and straight to the "SPECIALISTS". These are the hardcore hunters who spend their waterfowl season doing EXACTLY what they know and love. Everything they own, their guns, their calls, their boats-**EVERYTHING** they own, they've modified for that specific type of hunting. And now they can get gear that has been modified for the way they hunt also!

FLOODED TIMBER HUNTERS – Whether it's a cypress slough, flooded green timber, or a buck brush brake, this jacket was designed to take your game up a notch. Cut shorter for wading, equipped with a face mask for the ride in or those extremely cold days, shell pouches and shell loops, and the patent-pending carabiner clip with adjustable tether to secure your jacket when things heat up, are just some of the features that separate this jacket from all others.

LAYOUT BLIND HUNTERS – If you enjoy getting up close and personal with ducks and geese, there's no better way than a layout blind. Laying on your back among a spread of decoys, you'll appreciate the additional back insulation and the patent-pending Tailgate Dry Seat System protecting you from the frigid ground. With limited space, the Time & Motion™ Intelli-Suite™ pocket system is a must. The shell pockets and shell loops are also perfect.

BOAT & BLIND HUNTERS – Whether you are hunting in a bay, river, green timber or the Great Lakes, there's something special about being on the water. Hunters love their boats and blinds and they will love this jacket. From the built-in face mask to the patent-pending Tailgate Dry Seat System and everything in-between, this jacket was built for hunting in a boat and blind. We even added a kill switch D-ring to give you the perfect place to clip into.

VERSATILITY – This jacket was created for the hunter that is more concerned with where the ducks are than he is with where he hunts. With some of the best features such as the built-in face mask, Tailgate Dry Seat System and carabiner clip with adjustable tether, this jacket is ready for nearly everything. And a removable liner combined with the features makes this jacket as adaptable as the hunter who wears it.

HOW DO YOU HUNT?™

With most hunting apparel companies concerned with only what you hunt, at Drake we've taken a much more in-depth approach by asking "HOW DO YOU HUNT?™". By doing so, we are catering to the specialists, those hardcore hunters who spend their waterfowl season doing exactly what they know and love. Everything they own, guns, calls, boats-**EVERYTHING** has been modified for that specific type of hunting. Now they can get gear with that same attention to detail for the way they hunt as well!

- A) Built-in face mask (\$30 value) stays attached and out of the way when not in use
- B) Time & Motion™ Intelli-Suite™ zippered Sherpa fleece-lined handwarmer pockets
- C) Time & Motion™ Intelli-Suite™ dedicated shell pockets with Magnattach™ closure
- D) Time & Motion™ Intelli-Suite™ Upper Section=2 Magnattach™ call pockets stacked on 2 zippered pockets. Lower Section=2 Time & Motion™ front-load cargo pockets below
- E) Lower back Fowl-Proof™ cargo pocket
- F) *Back-up/Just-in-case shell loops also great for separating heavy loads.
- G) *Tailgate Dry Seat System with Magnattach™ Auto Security
- H) Carabiner clip with adjustable tether in zippered reinforced storage pouch
- I) * Boat Kill Switch D-Ring

*Not found on all Guardian Elite jackets

BODY MAPPING INSULATION

With different types of hunting come different environments and different activities that generate body heat. With each specialized way of hunting, we've customized the insulation to address those specific needs. To visually understand what is going on with the insulation, we color-coded the lining of each coat.

Interior Zippers are Compatible with ALL Hybrid Liners for Additional Insulation

GREEN
DOUBLE DOWN
Synthetic Insulation
for Maximum Warmth

BROWN
LOKDOWN
Synthetic Insulation
to Minimize Bulk

Constructed to prioritize back and kidney warmth when leaning against frozen trees.

Constructed to prioritize warmth on the center of your back when lying on the frozen ground.

Constructed to prioritize warmth on your front, back, and sides to endure the coldest of boat rides.

***27" x 10"**
LOWER BACK
XXL CARGO
POCKET

*Sizes given
for XL Jacket

REMOVABLE HOOD WITH BUILT-IN FLEECE FACEMASK

The hood is removable with a zipper, NOT SNAPS. Some of us don't like a hood on our backs when it's sunny and no chance of rain. Conventional jackets have no place to store a hood and more often than not, they end up getting lost. With the Guardian Elite Series jackets, zip off the hood and zip it in to the Lower Back XXL Cargo Pocket.

GUARDIAN ELITE™ FLOODED TIMBER JACKET

Designed for the specialist who spends his days with his back against a tree. Cut shorter than the other coats in anticipation of wading, we've also equipped the lower pockets with drain holes just in case the water is a little deeper than expected getting to your hole.

MATERIALS & FEATURES:

- 100% Waterproof/Windproof/Breathable G3-Guardian Elite™ 3-Layer Pro Wader Fabric
- DWR - Durable Water Repellent Treatment
- Taped Seams
- Drake's Fowl-Proof™ YKK® Zippers
- 2 Time & Motion™ Magnattach™ Call and Whistle Pockets
- 2 Time & Motion™ Fowl-Proof™ Zippered Chest Pockets
- 2 Time & Motion™ Front-Load Fowl-Proof™ Cargo Pockets
- Lower Back XXL Fowl-Proof™ Cargo Pocket
- 2 Time & Motion™ Sherpa-Fleece Handwarmer Pockets
- 2 Time & Motion™ Dedicated Magnattach™ Shell Pouches
- Adjustable Zip-Off Hood with Built-In Face Mask
- Carabiner Clip with Adjustable Tether and Storage Pouch
- 12 Back-Up/Just-In-Case Shell Loops
- Adjustable No-Water Sealed Cuffs
- Boat Kill-Switch D-Ring
- HD3-High-Wear Reinforced Fabric
- Sherpa-Fleece Lined Hood and Collar
- Deep-Water High-Waist Cut

BODY MAPPING INSULATION

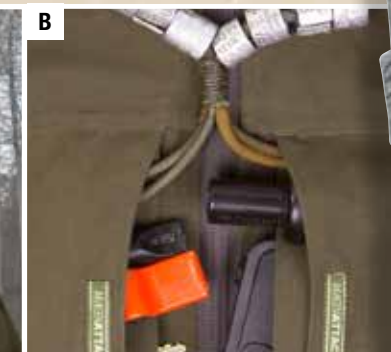

Standing in waist deep water hour after hour can be bone-chillingly cold and the only way to stay comfortable is to wear gear created for that environment. We've body mapped the insulation in the Timber Coat to keep you toasty warm with minimum bulk and maximum mobility. The entire back panel of this coat is insulated with warm, heat-trapping Double Down to give your back and kidneys additional warmth. We use our LokDown compacted weight synthetic down for the sides, front panels and in the arms to maximize warmth, while minimizing bulk, creating the perfect combination of warmth and mobility.

- F) 2 Time & Motion™ dedicated shell pockets with Magnattach™ closure
- G) Boat kill-switch D-ring
- H) Carabiner clip with adjustable tether in zippered reinforced storage pouch

GUARDIAN ELITE™ LAYOUT BLIND JACKET

Laying on the frozen ground in a blind comes with its own set of unique issues and this coat has an answer for them all. From the Double Down insulation giving the back that added warmth and protection, to the Tailgate Dry Seat System that will literally save your butt from getting cold and wet, this coat was designed to keep the layout blind hunter comfortable on the harshest days. With the easy access front load pockets, finding gear has never been more convenient.

BODY MAPPING INSULATION

It gets brutally cold during waterfowl season and laying out on the frigid ground demands a warm coat. Double Down insulation placed in the center of the back gives this coat that extra bit of insulation needed to stay comfortable. The rest of this coat is insulated with LokDown compacted weight synthetic down, including the arms. This compact down maximizes the warmth while minimizing the bulk, giving you the perfect combination of comfort and mobility.

* The shell weight version of the Layout Blind Jacket has LokDown insulation in the center of the back for added comfort.

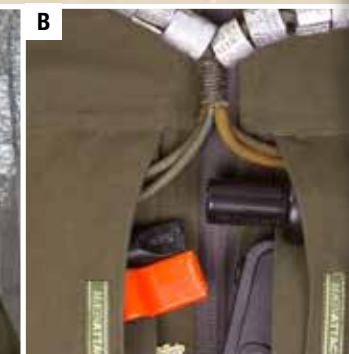

Interior Zippers are Compatible with ALL Hybrid Liners for Additional Insulation

GUARDIAN ELITE™ BOAT & BLIND JACKET

With the entire front loaded with Double Down synthetic insulation, the adjustable sealed cuffs and elastic waist band, the adjustable fleece hood with built-in fleece face mask, and the Tailgate Dry Seat System, this coat is equipped for the coldest boat ride a waterfowler can face. And once the hunting has begun, the Time & Motion chest pockets and shell pouches create the perfect combination for the ultimate Boat and Blind Jacket.

BODY MAPPING INSULATION

There's nothing to compare to an early morning boat ride before day-light in the dead of winter. It's times like these that inspire us to create the ultimate coat to combat the elements. The front, sides and back of the Boat and Blind Coat are insulated with ultra-warm synthetic Double Down for maximum warmth from the elements. Synthetic LokDown compacted insulation is used in the arms to minimize bulk and deliver optimal warmth.

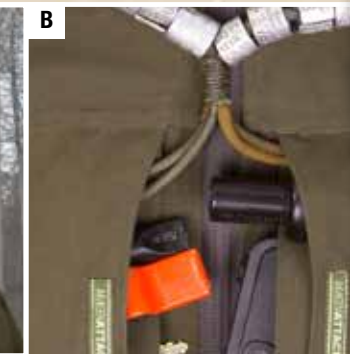

Interior Zippers are Compatible with ALL Hybrid Liners for Additional Insulation

DRAKE® EQWADER™ HYBRID SYSTEM

Our patented Eqwader™ technology (PATENT #7,318,239) revolutionized waterfowl clothing and has been a cornerstone of the Drake Waterfowl™ brand since day one. Our unique combination of waterproof/breathable fabric on the sleeves and upper body matched with ultra-breathable fleece on the lower body introduced a whole new level of comfort and performance when wearing chest waders. The moisture-wicking fleece on the lower torso is 15 times more breathable than the upper waterproof material and works to prevent the build-up of perspiration and moisture vapor. These dual zones of protection keep you dry both inside and outside your waders.

DRAKE'S INSTINCTIVE FEATURES SEPARATES DRAKE FROM THE COMPETITION

NO-BUCKLE, SHOULDER STRAPS

No aggravating interference when shouldering a gun. Easy hook and loop adjustability. Find your ideal adjustable height, cinch once, and hunt.

LARGE FRONT CARGO POUCH WITH MAGNATTACH™

Perfect for gloves, neck gaiter, face mask, snack, etc.

VERTICAL CALL POCKET WITH MAGNATTACH™

Perfect for quickly securing calls when working with decoys, dog, etc. Mesh bottom for breathability.

VERTICAL ZIPPERED LICENSE/KEY POCKET WITH WATERPROOF ZIPPER

Secure license and keys in an easily accessible, waterproof location. Also perfect for a camera or phone.

HORIZONTAL SHELL LOOPS

Now you'll have a couple rounds of shells wherever you go. Neoprene construction.

AGAINST-THE-BODY HANDWARMER™

Located on the back side of the bib, the fleece handwarmer takes advantage of your body heat.

IMPROVED REINFORCED KNEE PADS with HYDRO-FLEX

Closed cell foam encased in neoprene and HD² material for max protection and Hydro•Flex for max flexibility.

IMPROVED LIGHTWEIGHT BOOT DESIGN

Thinsulate™ boots are secured to the ankle, eliminating foot displacement by mud, snow, etc. Features the Drake™ logo on the side.

IMPROVED BUCKSHOT TREAD DESIGN

Enhanced, aggressive tread design allows for easy navigation in the most difficult terrain.

The first ever
4-IN-1 WADER

Drake is Revolutionizing the Wader Industry with the

**GUARDIAN ELITE™
6-LAYER
4-IN-1 WADER
with
“TEAR-AWAY LINER”**

**PATENT(S)
PENDING**

6-LAYER PROTECTION – The base fishing wader utilizes Drake's Guardian Elite 3-Layer Pro™ Waterproof/Breathable Wader fabric. The outer PROTECTIVE CAMO SHELL delivers 2 more layers of protection, plus our HD3™ Reinforced Fabric placed over the boots, knees and seat area extend the life of your waders, year after year.

4-in-1 SYSTEM in a wader:

1. Insulated Duck Hunting Wader
2. Uninsulated Duck Hunting Wader
3. Insulated Non-Camo Fishing Wader
4. Uninsulated Non-Camo Fishing Wader

TEAR AWAY Insulated LINER allows you to remove this less bulk, waist-down liner, while being worn inside the waders during the hunt while standing in water. The liner doesn't require you to find dry ground to take the waders off first, then remove the liner. It's coldest before dawn when you need your waders to be insulated, but late-morning/mid-day temperatures rise, now you've over-heated picking up the decoys and gear with a long way to wade out?? Just reach down inside, start tugging and remove the TEAR AWAY Liner, then stuff it in your blind bag or the rear cargo pocket on back of your Drake coat making for an easier, more comfortable hike out. This makes this the most unique value-added feature in all waterfowl waders.

Body-Mapped Insulation – we've placed compact LokDown 125-gram insulation into the front half of the liner, keeping you warm, yet mobile when walking or when bending at the knee. The backside, where you sit or lean against that tree/pit/blind is equipped with 200 grams keeping you toasty warm when and where you need it.

FEWER LEAKS - We've REDUCED NEEDLE HOLES AND SEAM TAPE BY OVER 75%. Due to rugged hunting environments and the extreme abuse hardcore waterfowl hunters put on waders, most hunting waders demand protective fabric over the boot, knee and seat areas. Our PATENT(S) PENDING Intelli-Design & PROTECTIVE COVER is where we sew these additional protective layers, not through the waterproof wader fabric. Every seam and needle hole in your hunting wader's waterproof/breathable fabric is a potential leak point. Our PROTECTIVE COVER Intelli-Design removes over 75% of these leak points found in most hunting waders. Why didn't we think of this sooner? How many needle holes and potential leak points does your wader have in them now??? You should check and see.

2-YEAR Repair or Replace “Strap to Sole Warranty” plus our “EXTENDED LIFE” USA REPAIR SERVICE FACILITY on all Guardian Elite™ Waders ONLY.

TIZIP®
say dry. mean dry.

With its robust and flexible design, the multifunctional TIZIP® MasterSeal 10 offers a pressure resistance of 500 mbar. The zipper's plastic teeth are attached to the front and back side of a durable, polyurethane-coated tape. The MasterSeal 10's waterproof and pressure-resistant properties are secured by the pressing together of the sealing lip across the interlocking elements. The TIZIP® MasterSeal 10 is opened and closed with a saltwater-resistant metal slider. The zipper's outstanding properties make it uniquely suitable for Drake's Guardian Elite Waders.

**BUCKSHOT
MUDDER BOOT**

This boot is nearly half the weight of our old neoprene boot (was 5.4lbs. now 2.6lbs.) yet, still delivers 1600 grams of insulation. The boot is also designed with a snugger ankle fit to prevent pull out when bogged down in mud. The Buckshot Mudder sole design will deliver that extra traction when you need it. With the iconic Drake logo built into the side, you're going to absolutely love these boots!

DRAKE RETRIEVE-RITE SYSTEM™

The Retrieve-Rite System™ from Drake Waterfowl is an integral part of properly training your gun dog and establishing the correct habit of carrying the bird by the body rather than the head or tail. The six stages of the system follows your dog from "puppy to pro" and delivers the training tools necessary to build good habits and proper retrieves at every stage of the dog's development. The Retrieve-Rite System is the only complete bumper training system that develops correct body carry technique and reinforces this principal at all levels of training. Tested and endorsed by professional and amateur sporting dog trainers, the Retrieve-Rite System is the official training tool of the Hunting Retriever Club® and the Super Retriever Series®.

STAGE 1

RETRIEVE-RITE PUPPY BUMPER

Dimension: 1" X 7"
1 Rope, hard plastic end caps

DW9500
