

PLANO SYNERGY™
FORGE FORWARD™

MASTER HUNTING COLLECTION **2020**

WE ARE OUTSIDERS

While others travel on the same, worn path, we look beyond boundaries. Hunting and fishing allow us to escape the ordinary and expand our perspectives. Propelling this ideal forward is our purpose. Because life is found in the field, in the forests and in the depths around us. We're always looking for fellow outsiders to join us on the journey. Are you in?

BARNETT™

— EST. 1962 —

► We pioneered the modern crossbow movement more than 60 years ago... and have never stopped. Barnett has become the world’s #1 producer of crossbows because we scrutinize every aspect of every crossbow. Focusing on precision, safety and performance — we take care of the details so you can take care of business.

The patented TriggerTech ADF (anti-dry fire) trigger allows you to squeeze off shots with a pull of just 3 pounds. Its Frictionless Release Technology™ produces an incredibly responsive touch that generates smooth and repeatable shots every time.

U.S. PATENT: 9,097,485

SAFETY FIRST

Safety and ethics are the cornerstones of hunting. Make decisions in the field that not only keep you safe, but also reflect well on the hunting community as a whole.

1. CHECK EQUIPMENT

Inspect all your gear and equipment (crossbow, string, cables, bolts, etc.) prior to each use – ensuring your crossbow is properly assembled and in good condition. Do not use a damaged crossbow or equipment.

2. HAND SAFETY

Never place fingers or thumbs on, in or near the arrow/flight track, the string and/or the cables. Placing fingers or thumbs on, in or near the arrow/flight track, the string and/or the cables may result in serious injury, including finger and/or thumb amputation.

3. TRIGGER SAFETY

Keep your finger off the trigger and the safety engaged until you're ready to shoot. Re-engage the safety if you don't end up shooting.

4. HANDLING YOUR CROSSBOW

Always point your crossbow in a safe direction (i.e. where there is not anything or anyone who might be damaged if the crossbow discharged) at all times – regardless of whether your crossbow is loaded or not.

5. DRY FIRING

Never "dry fire" (i.e., release a cocked crossbow string without a recommended arrow properly loaded into the receiver) your crossbow. Dry firing a Barnett crossbow will immediately void your warranty and result in catastrophic damage to the crossbow. Should your Barnett crossbow dry fire, it must be inspected by a qualified Barnett service representative prior to further use. Failure to follow these instructions may result in serious injury!

6. ARROW SELECTION

Only load properly spined (stiffness), sized (length) and weighted arrows with moon or half-moon nocks into your crossbow. All Barnett crossbows come equipped with compatible arrows; consult your local retailer if you need more.

7. PROPER LOADING

Check to make sure the crossbow is fully cocked and the arrow is properly loaded into your crossbow with the odd color vane down in the flight track and nock tight to the string before firing.

8. PROPER DE-COCKING

The only way to de-cock your crossbow is to shoot it into a safe target. Never attempt to de-cock your crossbow by hand or with a rope cocking device. Attempting to do so puts you at risk of personal injury.

9. WHAT TO WEAR

Always wear quality, close-toed shoes or boots while operating a crossbow. Never operate in flip flops, slippers, sandals or barefoot.

10. BASIC MAINTENANCE

Check the string and cables for any signs of fraying; replace them before further use if you see any frays. To extend the life of your string and cables, apply lube wax to these areas every 5 to 10 shots or if you see any "white fuzz" begin to appear. Failure to follow these instructions may result in a break during use, which may damage your bow or cause injury.

1 HYPERFLITE™ ARROWS

Blistering speeds paired with top-performing HyperFlite arrows will make Hyper crossbows the toughest, fastest crossbows in the woods next deer season.

2 INTEGRATED CRANK AVAILABLE

Easily remove the cheek piece and install a compatible crank cocking device.

3 METAL INJECTION MOLDED TRIGGER

MIM triggers have the tightest quality tolerance available.

4 ANTI-DRY FIRE TRIGGER (ADF)

A spring-loaded safety bar remains in place until the arrow is seated properly to protect the user from shooting the crossbow without an arrow fully loaded.

5 STEP-THROUGH RISER (STR)

By integrating the foot stirrup directly into the riser assembly, step-through riser designs lengthen the power stroke without placing the cocking string beyond arm's length.

6 TRIGGERTECH

Three pounds of zero-creep release and all stainless steel components, the nock sensor and ADF eliminate dry fires.

7 SOFT-LOK™ FLOATING BRISTLE ARROW RETAINER

U.S. PATENT: 9,395,143

8 PREMIUM ILLUMINATED SCOPE

NEW

HYPERFLITE EVO™ 420

The most lethal combination of speed, accuracy and knockdown power: meet the all-new HyperFlite™ EVO 420. This premium crossbow introduces a completely redesigned bow with riser-mounted cams. That's right: cams not on the limbs, but on the riser. This revolutionary technology eliminates cam lean and torque for hyper accuracy and ethical kills. Plus, it creates an ultra-compact body style that's fully customizable - from a multi-position pistol grip to an adjustable length-of-pull butt stock.

- + HyperFlite™ .204 Small Diameter Arrow Compatibility
- + Integrated Crank Cocking Device
- + Metal Injection Molded (MIM) Trigger
- + Soft Lok™ Floating Bristle Arrow Retainer
- + TriggerTech Frictionless Release Technology
- + Anti-Dry Fire (ADF) Trigger System
- + Adjustable Length-of-Pull Butt Stock
- + Pass-Through Forend with Multi-Position Pistol Grip
- + Fine-Adjust Butt Pad and Cheek Comb
- + Pre-Installed String Dampeners
- + 1.5-5x32mm Speed Compensating Scope
- + CNC Machined Aluminum Flight Track
- + Three Picatinny Rails
- + Fully Assembled

NEW

HYPERTAC™ 410

The most compact and devastating crossbow in its class has emerged - the HyperTac™ 410. A newly designed and ultra-compact riser assembly paired with the tactical-style adjustable butt stock renders this bow unbelievably maneuverable in tight quarters. The ultra-compact design isn't the only thing downsized on this new model, however. The bow amplifies Barnett's Hyper™ series crossbow lineup and shoots the small-diameter, extreme penetrating HyperFlite™ .204 diameter arrows.

- + HyperFlite™ .204 Small Diameter Arrow Compatibility
- + TriggerTech 3lb zero creep Frictionless Release Technology - A \$200 value
- + Adjustable Length-of-Pull Butt Stock
- + Pass-Through Forend with Multi-Position Pistol Grip
- + Anti-Dry Fire (ADF) Trigger System

HYPERFLITE™ CROSSBOW ARROW

If you thought crossbows could only shoot standard diameters - think again. Introducing the HyperFlite™ arrow: Barnett's revolutionary small diameter arrow designed specifically for use with Hyper™ series crossbows. The power and speed of a crossbow combined with the precision and penetration of a .204" arrow deliver hits unlike anything you've ever seen. All that plus a .001" straightness make the HyperFlite™ just about as close to perfect as you can get.

FEATURES

- + Designed for use with Barnett's Hyper™ crossbows
- + Small diameter arrow increases penetration by up to 62% compared to regular crossbow arrows
- + 17.9% front of center for maximum downrange accuracy (with 100 grain field point)
- + Small diameter for greater penetration

ONLY FOR USE WITH BARNETT HYPER SERIES CROSSBOWS.
DO NOT USE ON ANY OTHER CROSSBOW MODEL.

*SPEED TEST USING 380-GRAIN ARROW. CROSSBOWS SHOWN WITH OPTIONAL ACCESSORIES.

U.S. PATENTS: 9,097,485; 9,255,755; 6,901,921; 9,395,143

BLOODSPORT™
THE BLEEDING EDGE OF ARCHERY

▶ When that 10-pointer shows and you draw back... practice ends. You dial in, tense up and do everything in your power to keep it together. Bloodsport exists for this exact moment. With your pulse quickening and hands shaking, we remove all doubt that your arrow will deliver.

Bloodsport's arsenal of hand-selected arrows and precision broadheads are designed to ensure every shot is a lethal shot. Tested to the tightest tolerances and manufactured to the highest levels of accuracy, our archery products give you assurance when it matters most.

R.O.C. SYSTEM

Bloodsport's patented Reliable Outsert Component (R.O.C.) System is designed to perfect micro-diameter and small-diameter arrow performance. The R.O.C. adds valuable front-of-center and absorbs the shock of broadhead impact by transferring energy down the length of the arrow. This adds tremendous strength at the arrow/broadhead connection where other arrows typically fail.

BLOOD RING

Proof is Power. And Bloodsport's Blood Ring™ is proof you can see in an instant. The patented technology identifies which organ has been hit based on the blood type and color on the ring. These clues serve as a map to direct your pursuit for improved odds at a successful recovery.

ARROWS

EVIDENCE™

Micro-diameter arrows

Our best penetrating arrow ever. The Evidence™ is manufactured to a precise .001-inch straightness tolerance. Combined with its proprietary Rugged Wrap™ construction, it features thick walls with a micro-diameter shaft to provide unparalleled flight and penetration, even at long distances. This level of accuracy and toughness has yet to be duplicated.

BLOODHUNTER™ Standard-diameter arrows

The Bloodhunter™ is a standard diameter, mid-weight arrow with a .004” straightness that delivers the precision today’s bowhunters demand. Its high kinetic energy penetrates deep to take down any game. After the shot, survey the Blood Ring™ to identify the location of your hit and plan a successful retrieval. Rugged Wrap™ construction makes sure the Bloodhunter will stay with you hit after hit; so wipe off the blood and find your next target.

GRAVEDIGGER® EXTREME

It's the most monumental development in broadhead technology since the original Gravedigger. The Gravedigger® Extreme hybrid mechanical broadhead delivers even more devastating results than its predecessor. Hardened stainless steel blades create a deadly 2¼-inch cutting diameter. Further propelled by a 1¼-inch fixed blade, the Gravedigger Extreme penetrates the hide then deploys inside for maximum blood loss.

- + 1¼" cutting diameter main blade
- + 2¼" cutting diameter mechanical blades
- + Chisel tip and cut-on-contact options
- + 420 stainless steel blades
- + 7075 aircraft-grade aluminum ferrule
- + Patented Blade Retention System™
- + No rubber bands or O-rings
- + Guaranteed to cut no matter what
- + True field-point accuracy

BROADHEADS

NIGHT FURY®

Meet the most accurate mechanical broadhead in the business. The Night Fury® uses a patented cross-opening design to reduce the blade surface, allowing it to fly with field-point accuracy. Unlike traditional “over-the-top” mechanical broadheads, the Night Fury doesn’t require rubber bands or O-rings. This decreases the energy required to open the blades and preserves more power for superior impact penetration.

- + 1½” cross-opening curved mechanical blades
- + 416 hardened steel ferrule
- + 420 stainless steel blades
- + No rubber bands or O-rings
- + Bone-splitting chisel tip
- + True field-point accuracy

*U.S. Patent 8,684,869

DEADLINE™

Bloodsport designed the Deadline™ specifically for today's high-performance crossbows. The mechanical broadhead easily handles crossbows' top speeds, while still maintaining the lowest amount of drag for supreme down-range accuracy. On impact, the blades open with minimal energy loss to carve two-inch thick entrance holes for a swift, clean kill.

- + Designed specifically for crossbows
- + 38% less drag than competitors
- + Fully deploys on impact
- + 2” entrance holes
- + Tested to 500 fps
- + No rubber bands or O-rings
- + 0.040” blade thickness
- + Won't open in flight
- + Prevents blade shearing

NIGHT FURY® EXTREME

The blade containment system on the Night Fury® Extreme flies with deadly field-point accuracy. What you may not expect is the punishing damage this blade delivers upon impact. Two curved, cross-opening blades instantly open on contact to create a cutting diameter of 2¼ inches. And because the Night Fury Extreme doesn't require any rubber bands or O-rings, there is little energy loss – making hits all the more devastating.

- + 2¼” cutting diameter mechanical blades
- + Integrated chisel tip
- + 420 stainless steel blades
- + 7075 aircraft-grade aluminum ferrule
- + Patented Blade Retention System™
- + No rubber bands or O-rings
- + True field-point accuracy

*U.S. Patent 8,684,869

NITEFALL™

A large triangular blade flanked by two razor-sharp mechanicals folds into a hardened chisel tip ferrule for in-flight precision. The mechanical blades immediately open on impact to create a menacing cutting force that spans two inches in diameter. The innovative construction of the Nitefall™ allows the expanding blades to leave large entry holes for short blood trails.

- + Patent-pending lock holds blades in open or closed position
- + 1” fixed blade
- + 2” cutting diameter mechanical blades
- + No rubber bands or O-rings
- + 7075 aircraft-grade aluminum ferrule
- + 420 stainless steel blade
- + Guaranteed to cut no matter what

COMPONENTS

R.O.C. SYSTEM

The R.O.C. (Reliable Outsert Component) System was designed to strengthen micro-diameter and small diameter arrows for better penetration and performance upon impact. Extensive testing found these arrows excel in flight, but poorly engineered outserts add stress to arrow walls and tips, ultimately causing failures. The R.O.C. System addresses these issues with a patented shock-absorbing and energy-transferring design that maintains accuracy and maximizes impact.

► This is the home for those who know the success or failure of one shot hinges on one number. Whether you're in your backyard stand or traversing the open country out west, there's a Halo® rangefinder that can get you there.

TECH

1 ANGLE INTELLIGENCE

Shots from elevated positions have less gravitational pull since they're already traveling downward. Tree stand hunters know this often leads to overshoot targets. To solve this, Angle Intelligence accounts for slope to target to calculate the angle compensated distance.

2 AUTO ACQUISITION

Lock in multiple targets at different yardages quickly and accurately. Scan Mode delivers up to four distance readings per second. So you're free to react and adapt your plan without losing any time.

3 SCAN MODE

Press a button, and you'll have an exact range reading immediately. New Halo rangefinders continue to chip away at acquisition times – now two times faster than previous models.

4 GLASS LENSES

Found in our most premium model (XLR1500), glass lenses are 20% more efficient than standard lenses. This means max ranges and acquisition times are just about as close to perfect as you can get.

5 ERGONOMIC DESIGN

The intention behind Halo rangefinders' unique aesthetic isn't just to look good to the eye, but to feel good in the hand. The complexities of the natural grip and finger pressure points have been taken into account for ultimate comfort and enhanced performance.

6 WATER-RESISTANT

Halo rangefinders are meant to be used in the field, so dealing with the elements is inevitable. We took special care to protect the inner workings of every unit with a durable, water-resistant body that can weather the storm.

NEW

XLR2000

A sleek aesthetic and wicked max range make an unbelievable option as a rangefinder - whether it be for hunting, scouting or long range shooting. The perfectly simple button configuration gives you the exact range within plus or minus one yard, so you can be sure to hit the mark.

- + Maximum 2,000 yards to reflective target
- + 6x magnification
- + Auto Acquisition acquires exact range almost instantaneously
- + Angle Intelligence™ calculates true horizontal distance to target at any elevation
- + Scan Mode locks in multiple targets at different yardages
- + Ergonomic design with non-slip grip
- + Premium glass lenses
- + Precise to +/- 1 yard
- + Water resistant
- + 1-year warranty

XR700

The XR Series is a re-imagined evolution of one of Halo's most popular series (the XRT), with a modern look that feels at home in your pack and your hand. Whatever your list of "must haves" entails, you can't go wrong with an XR. The XR700 keeps things classic yet modern with a gray and black body. Reaching 700 yards with 6x magnification power, it will do the job and then some.

- + Maximum 700 yards to reflective target
- + 6x magnification
- + Auto Acquisition acquires exact range almost instantaneously
- + Angle Intelligence™ calculates true horizontal distance to target at any elevation
- + Scan Mode locks in multiple targets at different yardages
- + Precise to +/- 1 yard

► Organizing and analyzing trail cam photos and videos has never been easier with Wildgame Innovations' all-new app experience. Free to download on any Android or iOS device, this advanced trail camera management system sorts all media by species (deer, turkey, coyote, elk and hog), and throws out any null photos so you only get the good stuff. But that's not all – the app also analyzes and sorts data by camera and location, plus pulls in weather data. With each data point your camera provides, the WGI app sharpens its skills to predict when and where you need to make your move.

FEATURES

- + Wirelessly retrieve SD card contents without disturbing your hunting area
- + No cellular connection needed for data transfer within Bluetooth range
- + Subscribe to additional cloud storage and sync assets across multiple devices
- + Tag images with custom descriptions and search gallery contents
- + View battery life, check available storage and manage camera settings remotely via the app
- + Filter gallery contents based on date, time of day, weather, location, moon phase and more
- + Functions with external SD card readers and older cameras

CAMERA TECHNOLOGY

- **EXPOSURE CONTROL**
Three exposure settings allow you to select the perfect blend of image clarity and distance that works for you.
- **SILENT SHIELD™ TECHNOLOGY**
Every camera action has been engineered with Silent Shield™ technology. This means your camera goes unnoticed by nature and that big buck keeps coming back.
- **ZERO DETECTION**
Zero noise, zero detection. Keep camera operations completely silent so you capture natural wildlife behavior without any alert.
- **LIGHTSOUT™ TECHNOLOGY**
Lightsout™ technology uses invisible IR LEDs with an extended range to maintain concealment when capturing flash images.
- **TRU-DUAL CAM™**
Two are always better than one. Dual cameras – one optimized for day and one for night – give you digital HD photos with superior clarity.
- **ADAPTIVE ILLUMINATION**
This enhancement automatically adjusts the amount of illumination based on the camera's distance to a target ensuring a perfect exposure every time.

FEEDER TECHNOLOGY

- **VARMINT GUARD**
Protect your unit and eliminate feed waste with this rigid varmint guard that encases everything you don't want nature messing with.
- **WELDED CONSTRUCTION**
These heavy-duty designs won't wear or tear because we built them good and strong. Welded construction models are our most durable feeders yet.
- **POLY BARREL CONSTRUCTION**
Dependable and effective yet mobile: poly barrel feeders are light enough to easily move and test multiple feeding locations.
- **QUICK ASSEMBLY**
Quick assembly feeders require minimal effort and only steal 15-20 minutes of your time before they're fully operational.
- **ULTRA-STRONG SQUARE LEGS**
The square shape plus a powder-coating on tube legs is two-folds beneficial – adding both stability and strength.
- **CORN OR PELLET FEED**
Fill your feeders with plenty of corn or pellet feed without worrying about clogs or hang-ups.

ATTRACTANT TECHNOLOGY

- **AIRBORNE TECHNOLOGY™**
Airborne attractants disperse 600% more scent molecules than ordinary attractants. If you can smell the potency of these products – just think what it smells like to game.
- **PROTEIN & FAT CONTENT**
Attractants don't just train game to find your spot; they become an integral part of animals' health by feeding them ample protein and fat to bulk up to trophy status.
- **FLAVOR PROFILES**
We know what brings game to dinner. Flavor profiles of apple, persimmon, corn, chestnut, sugar beet, molasses and acorn make our attractants irresistible.

NEW

INSITE CELL

Take your favorite hunting spot with you wherever you go. The all-new Insite Cell™ trail camera pairs with your cell phone to send automatic photo and video updates anytime, anywhere. The tricked out trail camera integrates with the all-new WGI app to automatically analyze trail cam captures and help you plan your next hunt. The Insite Cell also features all our most premium upgrades, including Adaptive Illumination, invisible Lightsout™ illumination and an industry-leading 32 megapixel image clarity. Works nationwide on any network.

360° CAM

Say goodbye to the four cameras you use to cover your favorite hunting spot, because you only need one camera to get the job done now. The 360° Cam revolutionizes image capturing by turning the traditional scouting camera model on its head – or more accurately, turning it in every direction.

The unique swivel design moves the camera to wherever the action is so you get a full 360-degree view of the space. And not just close-range either; 36 high-intensity LEDs pack 80 feet of illumination range. Capture high-quality photos and videos at any time, in any direction with the 360° Cam.

SHADOW LIGHTSOUT™ MICRO CAM

The Shadow Micro Cam Lightsout™ wins every category when it comes to concealment. But its biggest trick is actually small. With a footprint of just 7.5 square centimeters, the micro cam practically disappears when mounted to a tree or fence post.

Other methods of disguise: Trubark HD™ wraps the trail camera in camouflage with a tree-like texture, Silent Shield™ quiets all camera operations, and Lightsout™ technology illuminates with an invisible flash. Undetected by big bucks and camera thieves alike, the Shadow Micro Cam Lightsout will be left alone to deliver incredible 16-megapixel images and HD 720p videos.

WRAITH™ 14 LIGHTSOUT™

There's something haunting the woods. The Wraith™ 14 Lightsout™ features an impressive 40-piece illumination system to capture images and videos up to 70 feet out. Of course, game will be none the wiser since the blacked out infrared bulbs emit an invisible flash. Also contributing to the trail camera's concealment, Silent Shield™ Technology keeps camera operation quiet. Long-lasting battery life allows the Wraith 14 Lightsout to monitor your favorite hunting spot for up to a year.

WRAITH™ 14

There's something haunting the woods. The Wraith™ 14 captures high-quality images and videos on an easy-to-use platform with improved visibility from a backlit LCD screen. Setup is equally simple, with a mounting strap that snaps into place and adjusts to fit any fence post or tree. You'll also benefit from Exposure Control, which auto-adjusts to avoid white-wash that's common in many other trail cameras.

SWITCH LIGHTSOUT™

Three buttons: that's all it takes to get the Switch™ fully operational. This dummy-proof trail camera is the easiest setup we've ever come up with. Choose a capture mode, delay setting and time zone – and you're done. The Switch captures crisp 12 megapixel images and 720p HD videos, and updates the date and time automatically (even during Daylight Savings). Spend your time hunting, not setting up cameras, with the Cam.

SD CARD READER FOR APPLE®

This pocket-sized reader simplifies game monitoring by turning your Apple® device into a photo and video viewer. Its compact, one-piece design and rubber covers make this reader field-ready so you can take it with you to check your cameras. You can even attach it to a keychain so it doesn't get lost in your pack. Simply remove the SD card from your trail camera and plug it into the reader's SD port, then plug the Lightning® connector on the other side of the reader directly into your phone or tablet.

- + Apple® approved device
- + Instantly review trail camera photos and videos in the field
- + No batteries or cell service required
- + Compatible with Apple® devices with a Lightning® connection port
- + SD card not included

TRAIL PAD TABLET

The Trail Pad Tablet looks and performs like a tablet, with HD images and videos filling the oversized 7-inch touch screen. But this isn't just any other tablet. It's a hunter's tablet – specifically designed to cater to all your game tracking needs.

The weather-resistant tablet features dual, standard size SD card ports to sift through the hundreds of images and videos that every hunting season brings. Insert an SD card from your favorite trail cam into the library port to view every deer, hog and turkey in HD quality. When you like what you see, send it over to the archive. This stores the best of the best on a second SD card so you can easily keep tabs on a single animal or the entire herd. That's right: no more endless scrolling to find that one picture you want to show your buddy. Ultimate bragging rights are within view.

- + Oversized 7-inch HD backlit TFT touch screen
- + Zooms, swipes and navigates just like other tablet devices
- + Dual SD card reader simplifies in-field file viewing and organization
- + Primary port houses SD card with full library of images and videos
- + Secondary port saves favorites to designated archive SD card
- + Built-in speaker supports audio during video playback
- + Compact, lightweight design
- + Heavy-duty, water-resistant housing
- + Holds two SD cards up to 32GB each (not included)
- + Auxiliary and micro USB ports for computer and/or TV viewing (cords not included)

VU70	UPC	6 16376 51160 8
------	-----	-----------------

TRAIL PAD SWIPE

The Trail Pad Swipe SD card reader allows you to review images and videos directly from your game cameras. Equipped with a heavy-duty, water-resistant housing and a compact, lightweight design, the Trail Pad Swipe can easily trek into the field with you. No cords are required; simply load an SD card into the Trail Pad Swipe to start viewing. You'll find files neatly organized on a bright LCD screen so you can run through all the action your cameras have seen. Instantly view photos and watch videos with a user-friendly touch screen and easy-access buttons. The touch screen even has a zoom feature so you can count every tine.

- + Handheld media viewer for in-field use
- + Compact, lightweight design
- + Heavy-duty, water-resistant housing
- + Touch screen and push-button navigation
- + Zoom in/out functionality
- + Holds up to 32 GB SD card
- + Auxiliary and USB ports for computer and/or TV viewing (cords not included)
- + Up to 32 GB SD card and 4 AAA batteries required (not included)

VU60	UPC	6 16376 50906 3
------	-----	-----------------

TROPHY TAPE™

Take the guessing out of your trophy story. Wildgame Innovations' Trophy Tape™ modernizes game scoring with an easy-to-use system that eliminates tedious math and time-consuming steps. Simply tape along the tines using the provided instructions to quickly and accurately reach your gross score. In less than five minutes, you've got a number to brag about and some jealous buddies wondering how you managed to pull it off.

Each pack contains three rolls of 200-inch tape, so you can get three healthy white-tail scores and still have tape left for blood trailing or trail marking. The bright orange stands out even in low light. Put Trophy Tape™ in your pack on your next hunt, and you'll wonder how you ever hunted without it.

- + Fool-proof trophy scoring system
- + No math required
- + Fast, simple and accurate

ZERO+ TRACE™

ZEROTRACE™

PureION™

Mature game are mature for a reason – they’re crafty and always use the elements to their advantage. Our hunters do the same.

With Wildgame Innovations’ newest technology, hunters can breathe easy when it comes to scent control. The ZeroTrace generator with Purelon technology is the smart choice for reducing human scent without the damaging effects to your health or your gear. Current in-field methods rely on harsh oxidation, while ZeroTrace harnesses the primal power of nature’s best hunter...the ion molecule. Small but mighty, ions seek out and obliterate nearby scent particles and airborne impurities before game can catch your drift. That means more grade-A chances for you.

Hunting is both an art and a science. And when the stakes are this high, every molecule counts. ZeroTrace makes you disappear with the push of a button, as millions of ions wash over your zone to neutralize the air between you and your target. The portable unit mounts easily above your stand or to your ground blind for continuous cover. Turn the tables on Mother Nature with ZeroTrace.

- + Ultra-quiet fan spreads healthy ion particle flow
- + Re-chargeable battery pack with USB port
- + Approx. 6 hours of battery life
- + Durable TRUBark™ texture for additional concealment
- + Lightweight with adjustable magnetic mounting unit

TREEHUGGER™

The Treehugger™ is a low-maintenance feeding solution that sets the dinner table all on its own. We used long-lasting PVC material to construct a durable gravity feeder that attaches to any tree in under five minutes. Simply loop the integrated straps around a tree trunk and secure with the heavy-duty buckle. The Treehugger will take care of the rest, naturally replenishing feed as game consumes it. And you can fill it with just about whatever feed you want: corn, attractants, protein, mineral or a combination.

Easy setup and a lightweight design make the Treehugger perfect for hard-to-reach areas that don't have a lot of space, like backwoods or swamps. Use this simple, streamlined feeder to test a potential feeding site and move it as often as you like until you find the right spot. With a hoof-licking-good food source overflowing all over the ground, deer will be sure to find it wherever you choose.

CAPACITY	CAMO

ACORN RAGE®

Deer have been known to abandon corn, wheat and even lush foot plots in the name of one of their favorite meals: acorns. Acorn Rage® feeds their obsession with 100% real crushed acorns blended with roasted soybean to create a long-lasting attractant that's as nutritious as it is palatable. Airborne Technology™ disperses 600% more scent molecules than ordinary feed grains to cover super long distances with incredible speed. Acorn Rage comes ready to use straight out of the bag and effectively attracts deer year-round.

- + Real acorns crushed and blended with roasted soybean meal
- + Pure acorn scent and flavor packed with rack-building nutrients
- + Airborne Technology™ creates long-range scent vapor trail

SUGAR BEET CRUSH™

Sugar beets are incredibly effective at attracting and drawing in deer. The problem is they grow seasonally and only in certain regions, making them hard or even impossible for hunters to find. Wildgame Innovations made the impossible possible with an ultra-concentrated attractant using real sugar beets: Sugar Beet CRUSH®. Airborne Technology™ sends 600% more scent molecules than ordinary feed grains for unparalleled attracting power. Sugar Beet CRUSH comes chock-full of protein and fat to build strong, healthy deer and will satisfy that buck's sweet tooth to bring him in from miles away.

- + Real sugar beets crushed and blended into an ultra-concentrated attractant
- + Captures one of deer's favorite treats that can be difficult to find
- + Airborne Technology™ creates long-range scent vapor trail

APPLE CRUSH™

Deer go wild for the sweet aroma and delicious taste of ripe, juicy apples, and now Wildgame Innovations is bringing the orchard to you with Apple CRUSH®. We take fresh, all-natural ripe apples then CRUSH 'em with a blend of nutrient-filled proteins and fats to grow monster trophy bucks. Airborne Technology distributes 600% more scent molecules than ordinary feed grains to attract over crazy long distances at super-sonic speeds. Unleash a whole bushel of attractant power with Apple CRUSH.

- + Fresh, all-natural apples are sliced, dried and crushed with an irresistible sweet mix of proteins and fats
- + Tasty, nutritious treat brings out even the most cautious bucks
- + Real apple power will help you crush that trophy buck you've been waiting for

ACORN RAGE FEEDER FAT™

It's no secret real acorns provide highly palatable, widespread forage that deer find irresistible. These acorns are also high in fat – four times more than corn. Acorn Rage® Feeder Fat™ can be added to corn feeders to help you bulk up deer's diets. It also gives deer additional nutrients they need to grow trophy racks. They'll want it for the delicious acorn taste, but the true benefits lie in the fat, protein, fiber, calcium and vitamins in each bite. You'll see the difference when you get your hands on that rack.

- + Concentrated pellet made with real acorns
- + 4x more fat than corn
- + Treats up to 80 pounds of corn

CHESTNUT RAGE®

Chestnuts have been a staple in deer diets forever; today's deer crave them just as much as the deer who roamed North America thousands of years ago. Chestnut Rage® uses the power of real chestnuts that are harvested, crushed and mixed with roasted soybean meal to lock-in an authentic scent and taste. Buck Commander® trusted and approved, Chestnut Rage is as nutritional as it is powerful – with more than 18% protein and 13% fat content. The addition of phosphorus will also keep your herd healthy and your bucks' racks growing.

- + Uses real chestnuts to attract deer to your property
- + Blended with essential minerals and proteins to build stronger deer
- + Acts quickly to pattern deer

PEANUT RAGE®

Peanuts can be an expensive attractant strategy, leaving many hunters without the benefits of a deer favorite. Now you can unleash irresistible peanut attraction power to send 'em into a hunger-crazed rage. Peanut Rage™ pulverizes real peanuts into a nutrient-rich blend of roasted soybeans that will not only draw deer in, but keep them coming back for more. This proprietary formula integrates rack-building nutrients – including up to 20% protein.

- + Uses real peanuts to attract deer to your property
- + Blended with essential minerals and proteins to build stronger deer
- + Acts quickly to pattern deer

PILE DRIV'R™

Pulling deer into perfect range or putting them directly in front of your trail camera takes a little something extra. Pile Driv'R is an extremely affordable high-volume attractant that will put big bucks right where you want them - in the freezer. The sweet and savory aroma attracts deer from a long range and is a great option for late-season supplement when deer herds need it most.

- + Sweet and savory aroma attracts big bucks from long distances
- + Highly palatable blend for ease of consumption
- + Easy additional food source for late season

PERSIMMON CRUSH™

Lee Lakosky loves hunting over persimmons more than anything, but they're difficult to find and often messy or inconvenient to use. Now there's Persimmon CRUSH™ – combining the natural attracting power of real persimmons with a high-protein, carbohydrate-packed proprietary base. The powder is double screened to create a finely sifted formula that absorbs and releases with long-range, in-your-face power. Airborne Technology™ adds more distance and speed by distributing 600% more scent molecules than ordinary feed grains. All that with an irresistible persimmon taste makes this one of the most incredible attractants ever.

- + Proprietary double-screening process creates fine powder that absorbs and releases more potent scent
- + Airborne Technology™ creates long-range scent vapor trail
- + Ultra-high fat content and carbohydrate blend

5 LB BAG	FG-00422	8 50695 00422 3

MEAN GREENS™

Food plots take time to grow and energy to maintain. Skip the hassle with the power of a food plot concentrated into one easy-to-use feeding solution. Mean Greens™ begins working immediately, with Airborne Technology™ sending super potent scent trails to draw in deer from all over. Our proprietary formula supplements deer diets with vitamins and nutrients in a natural-tasting powder that's easy to digest.

- + Power of a food plot ground into a nutrient-rich feed
- + Generates antler growth and improves overall herd health
- + Airborne Technology™ creates long-range scent vapor trail

SIZE	MODEL	UPC
5 LB BAG	FG-00463	8 50695 00463 6

VANISH™

Don't give away your spot with an obvious attractant; you need something discreet to draw in and hold deer in a place only you know how to find. Vanish™ entices deer to camera locations and hunting spots with the power of pitch-black persuasion. A proprietary formula years in the making, Vanish is a high-powered, long-range attractant that's as stealth as it is lethal.

The powder is a highly palatable blend of protein, fat and complex carbohydrates that deer not only crave, but need for sustained overall health. Vanish delivers enhanced levels of security to hunters worried about camera theft and other forms of human intrusion. Its charcoal-gray formulation virtually disappears when deployed – ensuring that big buck will find it, while uninvited guests won't.

- + Low-visibility blackout formulation
- + Airborne Technology™ creates long-range scent vapor trail
- + High protein and fat content

HOG HEAVEN®

Most landowners, farmers and hunters have their own first-hand accounts of the damage feral hogs can cause. Everyone wants to solve this problem, but it's a tough one to tackle. Hogs can be difficult to pattern because of their large home range, acute senses of smell and opportunistic feeding habits. That last part is where we can help: hogs are always hungry.

Hog Heaven™ uses a proprietary mixture of grains and a super-sweet fruit punch additive that will draw them in for miles. This powerful granular attractant will help you attract, pattern and trap hogs in your area as they fight over every last morsel of this heavenly treat. If you're after an attractant that hogs simply can't resist – Hog Heaven is the answer to your prayers.

- + Most effective hog draw on the market
- + Manage unruly populations of intelligent and destructive hogs
- + Premium mix of the berry flavors hogs love

SIZE	MODEL	UPC
5 LB BAG	FG-00059	8 55018 00059 3

BUCK SNORT™ APPLE

Deer won't be able to get enough of Buck Snort™. Our proprietary formula disguises minerals in a highly concentrated liquid that smells and tastes just like real apples. Simply flip the lid, squirt where you want it, and watch the deer come sniffin'. You'll have a patterned, healthy herd faster than you can say "Wildgame Innovations." Works year-round for incredible attraction power.

- + Irresistible apple aroma
- + Flip top cap for easy, mess-free application
- + Super dense mineral concentration
- + Quickly establish hoof traffic to your favorite spot
- + Incredibly long lasting
- + Starts working immediately

SIZE	MODEL	UPC
40 OZ BOTTLE	FG-00460	8 50695 00460 5

CORNFUSED™

There may not be actual corn at the end of this scent trail, but deer will think there is with the power of a whole corn bushel packed into one bottle. CornFUSED™ scent attractant is incredibly effective at initiating new food plots and feeding areas. The plastic bottle easily fits into a pack for simple transport. Simply flip the lid and begin squirting to send deer in your direction.

By keeping things simple at the start, you can test an area before hauling heavy feeding supplies to a new spot. CornFUSED will establish heavy hoof traffic quickly so you can build your feeding strategy around a deer population that's already patterning. You can also spread it around stands to draw deer in for a hunt. The highly concentrated corn scent is made without real food ingredients, making it legal in most states.

- + The power of a corn bushel in one bottle
- + Legal in most states; no food ingredients
- + Flip-top cap for easy application

SIZE	MODEL	UPC
40 OZ BOTTLE	FG-00013	8 55018 00013 5

REACTOR™

No need to choose between liquid and powder attractants when Reactor™ lets you use both for double the power. Reactor's liquid and powder formulas undergo a phase change when mixed – immediately transitioning into a potent vapor and a slow-soaking foam that eventually hardens into a crust of rack-building minerals. This triple-action attraction paired with Airborne Technology™ releases up to 600% more scent molecules than ordinary salt or grain attractants. You'll notice how potent the apple aroma is, and so will deer. But it doesn't just have potency on its side; it has longevity, too. Reactor's mineral content sticks around for up to 45 days to draw in deer from distances you never thought possible.

- + Our most aromatic and concentrated mineral ever
- + Releases up to 600% more scent molecules than ordinary salt/grain attractants
- + Crystallized minerals hold attractant power for up to 45 days

Evolved[®]

► Whether you make a living doing it or not, caring for a piece of land is a full-time job. Evolved® caters to hunters who know this to be true. We look at game and land management with a forward-thinking attitude. Because the decisions you make today will affect not just your current herd, but every herd that comes after them.

Evolved Habitats® puts science behind dozens of powerful products that effectively attract, pattern and hold wildlife. Our minerals and feeds combine premium ingredients with rigorous testing to ensure your deer receive quality nutrients to reach maximum growth and reproductive success.

Evolved Harvest® delivers high-quality, high-volume food plots that improve wildlife nutrition. Our forage variety food plots don't go bare even after intense feeding pressure; they're eaten, then regrow to be eaten again. Hand-selected seed varieties bolster food plots with high palatability, increased sugar content, extreme weather tolerance, rapid plant establishment and soil adaptability.

Together, the two sides of Evolved work toward every land owner's goal. You'll never stop working to improve your land, and neither will we.

MOLASSES

Deer, bears and hogs crave sugar, and molasses has plenty of it. This concentration of pure molasses draws in wildlife with sweet aromas and long-lasting flavor. It's perfect for year-round nutrition supplementation – especially through cold winters when sugar content is scarce. The liquid formula pours easily and begins working immediately to form an irresistible treat that will keep them coming back again and again.

- + Pure premium molasses
- + Year-round attraction power
- + Ready-to-use formula pours easily
- + Great for deer, bear and hogs

RACK-UP®
TROPHY CLASS

This super-concentrated formula contains more than double the mineral content of most other deer mineral products. Rack-Up® instantly establishes a mineral site that will build traffic quickly and keep deer coming back for weeks. Best of all, beneficial nutrients like calcium, phosphorus, magnesium, sodium and molasses help build bigger, stronger bucks.

- + Super dense mineral concentration
- + Contributes vital nutrients to improve overall herd health
- + Calcium generates bone, tooth and antler formation and improves muscle functions
- + Phosphorus aids in milk production
- + Magnesium enhances enzyme systems
- + Sodium regulates body fluids and creates digestive juices
- + Establish or maintain active mineral sites quickly and easily
- + Works year-round
- + Soaks deep into ground for long-lasting power
- + Powder formula provides maximum coverage
- + Begins working immediately upon application
- + Apply directly to ground or use as a concentrate

5 CARD DRAW®

Grow lush, nutrient-rich forage through every season with 5 Card Draw. Hot on the success of our popular 7 Card Stud® blend, Evolved is pleased to bring a five-seed forage variety that works wonders for any planting schedule: spring, summer and even fall.

Coverage: 1/4 acre; 11,000 square feet
Contents: Blend: Forage Oats, Forage Wheat, Perennial White Clover, Barkant Turnip, Chicory

- + Proprietary seed coating grows bigger roots, stronger plants
- + Sweet taste deer love
- + High in protein and minerals

10 LB BAG - 3 PER CASE		
EV073028	UPC	7 86541 00113 2

MEGAPLOT®
HUNTER SERIES

This game forage is a superb grain-based mix of triticale, forage oats, forage turnips and annual forage clovers. Plant in the spring or fall in most areas to grow palatable, high-protein forage all season.

Coverage: 1/2 acre; 22,000 square feet
Contents: Forage Oats, Triticale, Red Clover, Forage Turnip

- + Filled with vital protein and minerals
- + Wide variety of forage to attract and hold game
- + Keeps growing year-round
- + Highly palatable

20 LB BAG - 1 EACH		
EV073001	UPC	7 86541 73001 8

SHOTPLOT®

The premium forage varieties in ShotPlot® are among the most palatable, nutritious and productive varieties available in the world. We selected each of the annual forage brassicas for their ability to produce well in poor conditions.

Coverage: 2 acres; 87120 square feet / 1/2 acre; 22,000 square feet
Contents: Forage Rape, Forage Turnip

- + Produces high yields of palatable forage
- + Keeps growing even through tough conditions
- + Enhances overall deer health

2.5 LB BAG - 3 EACH		
EV070252	UPC	7 86541 70252 7

WINTER PZ®

We created the ultimate cool-season food plot blend with carefully selected winter peas, oats, triticale and clover. These varieties thrive in cool seasons and offer a sweet, succulent, nutritional food source when other natural forage may be scarce. Winter Pz® can be planted early spring, late summer and fall in most areas.

Coverage: 1/4 acre; 11,000 square feet
Contents: Forage Oats, Winter Peas, Forage, Triticale, Red Clover

- + Cool-season blend thrives in cold weather
- + Sweet, succulent food source
- + Provides nutrient-rich forage when natural foliage is scarce
- + Vital for game seeking energy and sustenance

10 LB BAG - 4 EACH		
EV071007	UPC	7 86541 71007 2

THROW & GRO™

Throw & Gro X-treme w/Dats™ is a versatile food plot blend that's perfect for those hard-to-reach areas not accessible to heavy equipment.

Coverage: 1/4 acre; 11,000 square feet
Contents: Tetraploid Annual Ryegrass, Oats, Forage Rape, Red Clover

- + No-till formula
- + Plant just about anywhere
- + Grows lush food plots quickly
- + Filled with vital protein and minerals
- + Oats add great taste and palatability
- + No heavy equipment or disking required

2 LB BAG - 6 PER CASE		
EV070233	UPC	7 86541 73033 9

THROW & GRO
X-TREME RADISH®

Throw & Gro X-treme w/Radish® provides the versatile results of the original Throw & Gro formula with the added bonus of forage radishes.

Coverage: 1/4 acre; 11,000 square feet
Contents: Tetraploid Annual Ryegrass, Red Clover, Forage Rape, Daikon Radish

- + No-till formula
- + Plant just about anywhere
- + Grows lush food plots quickly
- + Filled with vital protein and minerals
- + Forage radishes a favorite among deer
- + No heavy equipment or disking required

5 LB BAG - 3 PER CASE		
EV073005	UPC	7 86541 73005 6

PROVIDE CLOVER®

We developed this premium mixture of perennial forage clover chicory to give hunters a top-quality food plot they can depend on year-round.

Coverage: 1/2 acre; 22,000 square feet / 1/4 acre; 11,000 square feet
Contents: Red Clover, White Clover, Berseem Clover, Forage Chicory

- + Year-round, nutrient-rich food source
- + Palatable blend of clovers deer will love
- + Easy to digest

2 LB BAG - 6 PER CASE		
EV070202	UPC	7 86541 70202 2

4 LB BAG - 6 PER CASE		
EV070402	UPC	7 86541 70402 6

PROGRAZE®

ProGraze® is an incredibly specialized food plot seed developed to improve overall deer health. The formula is more digestible than other native forages, and contains some of the highest protein (up to 38%) and mineral contents available. ProGraze® can be successfully planted in the spring and fall in most areas of the United States.

Coverage: 1/2 acre; 22,000 square feet / 1/4 acre; 11,000 square feet
Contents: Forage Rape, White Clover, Forage Turnip, Red Clover, Forage Chicory

- + Enhances overall deer health
- + Easy to digest
- + Delivers up to 38% protein
- + Rich in minerals

2 LB BAG - 6 PER CASE		
EV070200	UPC	7 86541 70200 8

4 LB BAG - 6 PER CASE		
EV070400	UPC	7 86541 70400 2

7 CARD STUD®

7 Card Stud® is the most adaptive and versatile food plot available today. This incredible blend of forage variety plants covers all your early, mid and late season needs to attract and hold deer on your property. The triticale, oats, winter peas, clover, chicory, turnip and radishes provide a blend your deer simply cannot resist.

Coverage: 1/4 acre; 11,000 square feet
Contents: Forage Oats, Forage Triticale, Winter Peas, Crimson Clover, Forage Turnip, Forage Chicory, Daikon Radish

- + The most adaptive and versatile food plot on the market
- + Great for early, mid and late season
- + Filled with vital protein and minerals
- + Grows lush food plots quickly
- + Extremely adaptable to different regions and climates
- + Highly palatable
- + Attracts and holds deer on property

10 LB BAG - 3 PER CASE		
EV073027	UPC	7 86541 73027 8

PH METER

The best way to ensure your plants reach their full potential starts before a single seed goes in the ground. Determine if you have proper soil conditions with the Evolved Harvest® pH meter. In addition to alkalinity and acidity levels, the meter also measures the moisture content and sunlight present in soil.

- + Test soil pH before selecting a new food plot site
- + Measures alkalinity, acidity, moisture and sunlight content

1 METER - 6 PER CASE		
EV070018	UPC	7 86541 70018 9

AMERISTEP®

► Hunting success begins with the element of surprise. That’s what Ameristep® has been giving hunters for more than 20 years: ground blinds and accessories that cleverly conceal positions from up above and down below.

Ameristep is proud to be an innovator in the industry, continually seeking new solutions to help hunters disappear. That disappearing act is only part of the story, though. Versatile mobility in all our product designs lets you choose the location that’s right – not the location that’s convenient. Once you’re there, simplified assemblies mean you can set up quickly and capitalize on the moment. Additional key features eliminate elements like scent, noise, reflection to make sure you stay hidden.

You’ll have the element of surprise locked in, as long as you’re in an Ameristep blind.

SPRING STEEL BLINDS

FEATURES

We’ve been on a constant quest for innovation for 20 years and counting. Our pursuit for perfection will never end, but each year it will bring you some of the most premium, modern advancements available in hunting blinds.

FABRICS AND COATINGS

1 DURASHELL™ PLUS

This custom-woven, matte-finish outer shell is lightweight yet durable.

2 ZS3™ TECHNOLOGY

A micro-fiber exterior and carbon-enhanced, laminated interior create a product you can’t smell, see or hear.

3 SHADOWGUARD™

This carbon-enhanced black interior eliminates shadows and silhouettes while also blocking scents.

FRAME DESIGNS

4 SPIDER HUB®

These superior metal-stamped hubs maximize strength to outlast extreme weather for many years of use.

5 RUGGED HUB

Hub-style designs provide excellent stability and simplified setup.

6 KICK-OUT HUB

A sturdy, unique silhouette virtually disappears in the field and creates more space for hunters and gear.

OTHER

7 HUNTER CAPACITY

Varying blind styles and designs hold up to four hunters while maintaining a modest footprint.

NEW

PRO SERIES THERMAL™

- + New heavy duty insulated fabric on walls, roof and windows for ultimate warmth and comfort
- + Full-size walk-through door for easy entry and exit with weapon, chair and pack

flextone®

There are people who talk about getting things done. And then there are people who see opportunity, roll up their sleeves and do it. The Flextone brand has been developed and improved over the years by a long line of doers who are never fully satisfied with available game call options. Whether it's due to unnatural and ineffective performance, highly adaptive animals or out-of-reach price points, Flextone was created to continually put performance-driven calls into the hands (and mouths) of hunters.

Tom Wiley, a cash-strapped hospital employee, created Flextone so he could pursue his love of the outdoors with natural-sounding game calls that didn't cost an arm and a leg. Equipped with a keen understanding of anatomy and access to a cabinet full of surgical tubing, this moonlighting rebel worked tirelessly to give hunters of all economic standing effective, realistic calls.

Today, Flextone continues to re-invent the game. Using hunter insight, innovation and fearless determination, it remains the leader in game call advancements.

THUNDER CREEPER™

The Thunder Creeper™ is the most portable strutting decoy on the market today. Strutting profiles attract attention, and the Thunder Creeper's smaller scale makes him slightly less threatening so incoming turkeys are more likely to approach. Detailed molding and paint on the flexible plastic body give this gobbler an undeniably realistic look. Setup is simple thanks to an attached carbon stake and compact size that make getting into field position fast and easy. Use the supplied folding tail fan or easily add the real deal. It's a flashy invitation for a fight that a boss gobbler won't tolerate.

- + Strutting profile demands attention
- + Compact body for easy carrying
- + Ultra-realistic paint scheme and feather detail
- + Use with included folding tail fan or attach one of your own

NEW

THUNDER CHICK™ BREEDER

The Thunder Chick™ trifecta is complete with the new addition of the Thunder Chick™ Breeder. This durable, blow-molded turkey decoy perfectly mimics the body size and posture of a breeding hen. Specially designed to pair with the Thunder Jake or Thunder Creeper decoy, it's a sight no passing gobbler will leave unnoticed.

- + True-to-life size and posture of breeding hen
- + Sparks fights with all ages of gobblers
- + Blow-molded for detail and durability

----------	-----	-----------------

THUNDER CHICK™ FEEDER

When realism meets affordability – that's where the rubber meets the road with the Thunder™ Series turkey decoys. All models feature true-to-life body postures and detailed paint schemes, plus an attached fold-away stake system that won't get lost in the field or your bag.

- + Low head feeding position
- + Head, body and feathers signal contentment
- + Relaxes incoming turkeys

FLXDY314	UPC	8 15097 00977 1
----------	-----	-----------------

THUNDER CHICK™ UPRIGHT

Attract potential suitors and jealous rivals with the Thunder Chick™ hen decoys. The Thunder Chick Feeder signifies contentment with her relaxed, low-head feeding position. The Thunder Chick Upright exhibits dominance toward other hens with improved visibility for incoming birds.

- + High head signifies dominance
- + Improved visibility for incoming turkeys
- + Relaxed feather and tail position

THUNDER SHAKER GOBBLE™

Flextone's innovative Thunder™ Series features one-of-a-kind designs that help callers of all skill levels produce accurate, natural turkey sounds. All Thunder Series calls are decorated with realistic feather textures and paint schemes, so they look as good as they sound. From purrs and yelps, cuts and gobbles, close to long range – the Thunder Series does it all.

The newest call in the series, the Thunder Shaker Gobble™, makes gobbling even easier with a user-friendly hand-held design. Simply shake the bellows for instant, realistic gobbles. It's a great alternative for hunters tired of conventional models that take years to master.

- + Incredibly easy to use
- + Shake for instant, realistic gobbles
- + Durable construction

FUNKY CHICKEN™ GEN 2

Why don't turkeys pick on someone their own size? Because when they choose a weaker target they always win... or so they think.

The Funky Chicken™ is the wimpiest, skinniest tom in the woods. We've upgraded the original Funky Chicken design with a new molding pattern for even greater realism and durability. The result: an irresistible punching bag. Throw in a sturdy mounting stake and incredible paint detail and, well, just wait 'til you see what this little twerp can do. He may be small, but he brings big results.

- + Non-intimidating decoy
- + Sparks fights with all ages of gobblers
- + Small size travels easily in the field
- + High-quality carving and paint detail
- + Incredible durability and realism
- + Pre-attached synthetic beard
- + Collapsible design easily stores in vest

WTF GRUNT'R™

Don and Kandi Kiski of "Whitetail Freaks" helped design the WTF Grunt'R® with Inflection Chamber Technology to accurately reproduce the natural sounds made by excited or moving deer. After air blows over the reed, the sound waves enter a chamber you can compress, expand or bend for instant inflection. Tru-Touch® buttons regulate airflow to create ultra-realistic buck grunts, roars and snort wheezes, as well as doe and fawn sounds. These advanced, true-to-life sounds are what you need to draw hard-to-call, mature bucks out of thick cover and into bow range.

- + Grunts, roars and snort wheezes
- + Inflection chamber creates realistic tones
- + Tru-Touch® buttons for perfect doe and fawn sounds

FLXDR072	UPC	8 15097 00985 6
----------	-----	-----------------

EXTRACTOR™

This freeze-proof call offers every type of deer vocalization to draw big bucks into shooting range: from social grunts and fawn bawls, to doe bleats and even buck snort wheezes. Simply slide the X-Glide™ to your desired call. The built-in snort wheeze chamber is easy to use and creates loud, aggressive snort wheezes that will drive dominant bucks mad. Bend the corrugated rubber hose or squeeze the soft, antlerized body for changes in tone and volume to add the ultimate level of realism to your calling.

- + Freeze-resistant X-Glide™ selects buck, doe or fawn
- + Flexible body adds tone variety
- + Loud snort wheeze chamber

FLXDR063	UPC	8 15097 00423 3
----------	-----	-----------------

BUCK COLLECTOR® PLUS

The Buck Collector® Plus quickly and consistently produces all known deer vocalizations in one killer call. Tru-Touch® buttons mean you'll get the right call - and the perfect call - every time as you quickly transition between buck growls, fawn bawls and doe bleats. The call's soft, flexible exterior is easy to manipulate for natural-sounding calls that change in tone, volume and inflection. It's as accurate as it is compelling, and it's a must-have for any whitetail hunter looking for that extra edge.

- + Tru-Touch® buttons for easy operation
- + Perfect fawn and doe sounds
- + Grunt, growl, bleat, bawl and snort wheeze

FLXDR062	UPC	8 15097 009853 2
----------	-----	------------------

BATTLE BONES®

Battle Bones® do what sheds can't: recreate an aggressive fight between two mature bucks. Two full racks give you double the volume, double the distance and double the realism. Antler Mass Technology® perfectly duplicates bone marrow, while antler-like grooves deliver amazingly realistic rattling tones. And high-density polymers make sure those tones are extra loud.

- + Antler Mass Technology® creates ultra-realistic tones
- + Hex grip design provides maximum control
- + Offset handles add protection and comfort

FLXDR064	UPC	8 15097 00424 0

GREEN THUNDER™

The Green Thunder™ does it all for duck callers of any skill level. The easy-blowing reed is friendly to beginners who are just starting out. More advanced callers will find it runs effortlessly from low-end quacks to aggressive feed chatter. The molded polycarbonate casing makes this a durable and long-lasting call that can withstand the elements. Take it with you when you're hunting pot holes, marshes, timber and open water on light, windy days.

- + Easy-to-use call in single or double reed
- + Hand tuned and guide tested
- + Molded polycarbonate in Flextone® orange

WOOD DUCK

That feeling you get watching woodies land surrounded by your decoy spread – that's a feeling you'll get time and time again with the Flextone® wood duck call by your side. It brings Flextone's patented flexible body design to wood duck calling, creating unparalleled wood duck sounds that might even fool you if you close your eyes.

The secret to the soft body is its ability to twist and bend, resulting in natural inflection that enhances volume and tone. Start with some yodels and feeding chatter, then see where you can take your calling skills from there.

FLXDK011	UPC	8 15097 00025 9

ZINKTM

► Nothing could be more rewarding for us as hunters than to be able to give back and support the organizations that have made our pursuits possible. Our commitment to conservation has been a cornerstone for the makers, tuners and employees of Zink Calls since our founding. It is with our great pleasure to be the official call company Ducks Unlimited and the National Wild Turkey Federation.

Know that with every purchase of a Zink call, you too, are supporting two of the best conservation organizations in the country – with a portion of all turkey product sales donated directly to conservation efforts.

We're serious about making turkey hunting last. Not just for our grandkids or the next 200 years; for eternity, for all hunters.

GREEN HEAD ROCKER™

The Green Head Rocker™ is a smooth-running double reed reimagined from the popular PH-2. We took what was already good about the original PH-2 design, then crammed in more volume, better low-end and a duckier overall repertoire. All that, and we still managed to capture the smooth, easy-blowing characteristics of a Zink fan favorite.

- + Double reed
 - + Runs super smooth
 - + Evolution of Zink's famous PH-2
- + Extra ducky repertoire
 - + Improved low-end with more volume
 - + Z-cut tone channel eliminates reed lock

GREEN TOP ROCKER™

Single reed mayhem is upon us. Zink's Green Top Rocker™ is clearly at the top of the food chain when it comes to top-end volume and pure, nasty duck sounds. Designed to shake the trees with the flat, nasally calls of an old hen mallard, the Green Top Rocker comes down nicely on the bottom. Producing soft chatter or finishing chuckles and clucks has never been easier – or sounded better.

- + Single reed
 - + Top-end volume
 - + Nasty, nasally, ducky sounds
- + Also great for soft finishing chuckles and clucks
 - + Z-cut tone channel eliminates reed lock
 - + Hand-tuned"

POWER HEN 2 (PH-2)

The PH-2 was designed for the hunter who likes the sound of a single reed, but is tired of the “over blow squeak” of a single reed. The ph-2 delivers the pure duck sound you are looking for, but is very user friendly, great for close in calling or call shy ducks. Also comes with extra reeds, instructional dvd, leg band and hard case.

- + Single reed
 - + Top-end volume
 - + Nasty, nasally, ducky sounds
- + Also great for soft finishing chuckles and clucks
 - + Z-cut tone channel eliminates reed lock

MALLARD DRAKE WHISTLE

Trust the look of a duck to sound like a duck. The cleverly styled Mallard Drake Whistle doesn't just attract mallards – it'll bring in pintails and wigeon, too. It's constructed from polycarbonate, but molded like an acrylic call. The easy-blow system makes this a great introductory whistle for novice hunters who are just starting to explore different types of calls.

- + Detailed mallard drake carving
 - + Draw in mallards, pintails and wigeon
- + Easy-blow system
 - + Great introductory option

LONG NECK ROCKER™

The Long Neck Rocker™ (LNR) uses a short reed and Zink's famous worn-in tone channel design to deliver contest-quality sounds. Neither deep nor high, the LNR's pitch sits right in the sweet spot, making it an extremely versatile call for all Canada goose species. The overall tightness combined with loads of built-in backpressure create that sharp crack experienced callers appreciate.

- + Medium pitch for ultimate versatility
 - + Built-in backpressure
 - + Ideal overall tightness
- + Worn-in tone channel
 - + Field tested
 - + Hand-tuned

CALL OF DEATH™

Developed for ultimate power, volume and top-end speed, the Call of Death™ (COD) offers a nasty low-end that's perfect for finishing wary birds at close quarters. With its straight bore mouthpiece, slender end piece, red-hot laser engraved graphics and Zink's competition caliber worn-in tone channel, the COD looks every bit as good as it sounds – and it sounds downright deadly. There's definitely a champion in this call!

- + Power, volume and speed in one call
 - + Nasty low-end great for close-range calling
 - + Straight bore mouthpiece
- + Worn-in tone channel
 - + Field tested
 - + Hand-tuned

NAUGHTY BY NATURE™

This is the call for the new generation of goose hunters. The Naughty by Nature™ (NBN) packs a powerful punch much bigger than its size. A down-sized mouthpiece and insert paired with Zink's worn-in tone channel make the NBN ideal for reproducing the sharp clucks, triple clucks and spit notes needed to call every subspecies of Canada goose.

- + Down-sized mouthpiece and insert
 - + Great for sharp clucks
 - + Worn-in tone channel
- + Field tested
 - + Hand-tuned

MONEY MAKER™

Contest callers and hardcore hunters alike will appreciate the Money Maker™ for its rare combination of a fast reed response paired with a deep, goosey low-end. The Money Maker has handed over multiple championship wins and countless fallen honkers. Whatever the prize, this is the call that can get you there.

- + Fast reed response
 - + Deep, goosey low-end
- + Great for competition or in-field
 - + Hand-tuned

SNOW STORM™

We combined our waterfowl expertise with revered snow goose hunter Scott Butz, of Reel Wings and Bird Vision Paints, to introduce the Snow Storm™. This custom acrylic call features a revolutionary ported end piece that spreads tones over a large area to create a super intense wall of sound. Tested and refined over multiple seasons, the Snow Storm perfectly mimics the yelping bark of young snows, while also allowing the caller to duplicate the pleading low-pitched clucks and murmurs of adult birds.

- + Down-sized mouthpiece and insert
- + Great for sharp clucks
- + Worn-in tone channel
- + Field tested

THUNDER RIDGE SERIES™ POT

The Thunder Ridge Series™ Pot guarantees you'll find the same quality and consistency not only in every call, but in every note. Crafted using state-of-the art injection molding technology, the durable polycarbonate-blend pot is completely waterproof and holds steady in your hand with an easy-grip ring. The perfectly paired striker can be field-ready in an instant with the built-in conditioning pad. At 150 yards or 15 feet, this innovative call provides a fantastic range of sound with one common denominator - it drives gobblers wild!

- + Durable, waterproof polycarbonate pot
- + Hand-built and hand-tuned
- + Easy grip ring
- + Built-in striker conditioner

WICKED SERIES™ POT

The Wicked Series™ Pot is the only custom pot call on the market constructed from impregnated wood. This process blends acrylic into the Brazilian cherry pan to pack incredible sound quality inside a completely weatherproof design that won't warp or swell. Flip the call over to benefit from the built-in sweet spot - a second calling surface designed specifically for super soft, close-range calls. Also on the back, the integrated striker conditioner simplifies fine-tuning your striker in the field. The no-slip grip rounds out the features for a dependable hold with or without gloves.

- + Weatherproof design won't warp or swell
- + "Sweet spot" calling surface for soft, close-range calling
- + Hand-built and hand-tuned
- + Built-in striker conditioner

POWER HEN SERIES™ BOX

The Power Hen Series™ Box™ is a hybrid-style box call made from quality cherry and maple woods. Traditional design combines with modern technology and custom, hand-built construction to make the Power Hen Box worthy of the Zink Calls name.

This lady shines with her desirable high-pitched front end that smoothly transitions into a gnarly backside rasp. The double-sided design easily produces different tones to mimic multiple hens so you can count on pure turkey sounds with every slide of the paddle.

- + Double-sided design for different tones
- + Hand-built and hand-tuned
- + High-pitched front end
- + Backside rasp

ZNK336	UPC	8 10280 01336 8
--------	-----	-----------------

WICKED SERIES™ BOX

Born from Zink Calls and NWTF Grand National Champion custom call maker Marlin Watkins, the Wicked Series™ Box is a traditional-style box call constructed from poplar and extremely dense bloodwood. It may look like the traditional box calls you grew up with, but it performs a heck of a lot better.

A double-sided design gets the job done two times over to produce different tones and emulate multiple hens. With Marlin's trademark style to "put the turkey in the call," these versatile, natural turkey sounds are astonishing – from soft calling to loud locating, and everything in between.

- + Double-sided design for different tones
- + Hand-built and hand-tuned
- + Able to mimic multiple hens
- + Bloodwood paddle

--------	-----	-----------------

JOSH GROSSENBACHER SIGNATURE

You could say every diaphragm in the Zink line is a Josh Grossenbacher signature, since he hand-builds them all. But this one is truly a masterpiece – and his favorite. Stretched to a tight tension with heavy latex, the V-notched top reed and short-notched lower reed create a full range of turkey sounds. Whether you want loud, raspy volume or clear, quiet coaxing, the Josh Grossenbacher Signature does it all and then some.

- + V-notch cut triple reed
- + Great range from raspy to clear
- + Designed by Grand National Calling Champion Josh Grossenbacher

ZNK311	UPC	8 10280 01311 5
--------	-----	-----------------

HUNTER WALLIS SIGNATURE

Grand National Calling Champion Hunter Wallis' signature diaphragm features a triple reed with a heavy top batwing cut reed laid over two thinner reeds. A notch in the middle reed makes for easy transitions from clear to raspy calls for a great range of sounds. Whether you're taking the stage or the woods, the Hunter Wallis Signature has everything you need.

- + Batwing cut triple reed
- + Notched middle reed for extra rasp
- + Designed by Grand National Calling Champion Hunter Wallis

ZNK325	UPC	8 10280 01325 2
--------	-----	-----------------

MATT MORRETT SIGNATURE

Matt Morrett has been perfecting his turkey calling for more than 30 years, and it shows in the design of his signature call. The top latex reed features a unique snake-tongue cut. Paired with two lower prophylactic layers below, the three reeds create a full range of raspy calls.

- + Snake-tongue cut triple reed
- + Full range of raspy calling
- + Designed by Grand National Calling Champion Matt Morrett

ZNK330	UPC	8 10280 01330 6
--------	-----	-----------------

Z-YELPER™

Veterans and beginners alike love this one for its ease of use. Two .003" reeds with a simple double cut allow the Z-Yelper™ to recreate the high-to-low note of a classic yelp. This is a great place to start for anyone looking to enter the sport!

- + Dual .003"™ reeds
- + Double cut
- + Custom built by hand
- + Easy to use

ZNK328	UPC	8 10280 01328 3
--------	-----	-----------------

Z-CUTTER™

The Z-Cutter™ features three prophylactic reeds with a cut carved out of one side. If it's got a cut, you know it's made to cut. But it's also made to deliver aggressive yelps. This one is easy to use and demands attention!

- + Cutter-style triple reed
- + Aggressive cutting and yelping
- + Custom built by hand
- + Easy to use

ZNK329	UPC	8 10280 01329 0
--------	-----	-----------------

Z-COMBO™

The Z-Combo™ keeps things simple with two reeds and a V-notch on top. This design is especially perfect for soft calling – including yelps, clucks and purrs. All skill levels will find a champion in this call!

- + V-notch cut double reed
- + Soft yelps, clucks and purrs
- + Easy to use

ZNK335	UPC	8 10280 01335 1
--------	-----	-----------------

X-LADY™

Party on top; business on bottom. A heavy latex upper reed with a split-V cut stretches across two thin reeds below. The X-Lady™ creates one-of-a-kind sounds in a user-friendly design for all skill levels.

- + V-cut triple reed
- + Medium tension
- + Raspy cutts and cackles

ZNK314	UPC	8 10280 01314 6
--------	-----	-----------------

WICKED LADY™

What do you get when you invert a V-cut in a diaphragm call? One wicked call – with a capital “W.” The Wicked Lady™ notches a W-style cut in a double reed stretched to medium tension. The unique cut and twin reeds produce fantastic yelps and whines, as well as toned-down clucks and purrs.

- + W-cut double reed
- + Medium tension
- + Easy to use

ZNK313	UPC	8 10280 01313 9
--------	-----	-----------------

LUCKY LADY™

Produce a full range of turkey sounds with incredible realism. The Lucky Lady™ features a triple reed framed in thin, white tape. The V-style cut integrates notches in both the middle and upper reeds. Stretched to a tight tension, these small details will make a big difference in your calling.

- + V-notch cut triple reed
- + Tight tension
- + Notches in middle and upper reeds

ZNK312	UPC	8 10280 01312 2
--------	-----	-----------------

LOST LADY™

Make them find their way to you with the Lost Lady™. This double reed uses twin pieces of .003” latex with a ghost cut notched through the top. The ghost cut is ideal for running everything from high-pitched whistles and kee-kees to raspy yelps. Great for the spring or fall.

- + Ghost cut double reed
- + High-pitched whistles and kee-kee runs
- + Raspy yelps

ZNK321	UPC	8 10280 01321 4
--------	-----	-----------------

LIL’ GREEN MACHINE™

The small-frame design of the Lil’ Green Machine™ provides a perfect fit for callers with smaller palates, such as women and youth. The double reed split-V style runs a full tonal range from clear to raspy. You’ll hear the time and detail that went into hand-building this one every time you call.

- + Split-V cut double reed
- + Small frame great for narrow palates
- + Full range of sounds from clear to raspy

ZNK315	UPC	8 10280 01315 3
--------	-----	-----------------

PRO PAK

Call just like the pros! Matt Morrett, Hunter Wallis and Josh Grossenbacher took what they learned from the stage and the woods to hand-select the materials and designs that helped them find success. The result: three perfect triple reed diaphragms. Learn more advanced calling techniques with the included instructional DVD.

- + Matt Morrett snake-tongue cut triple reed
- + Josh Grossenbacher V-notch cut triple reed
- + Hunter Wallis batwing cut triple reed

ZNK334	UPC	8 10280 01334 4
--------	-----	-----------------

Z-PAK

The Z-Pak is a great starter pack to get every variety of turkey call in one place. From cutts and yelps to clucks and purrs – these three diaphragms cover all the basics and then some.

- + Z-Yelper double reed
- + Z-Cutter triple reed
- + Z-Combo V-notch double reed

ZNK333	UPC	8 10280 01333 7
--------	-----	-----------------

TRIPLE PAK

These ladies are sure to get long beards’ attention. With a wide variety of reeds and cuts, the Triple Pak delivers a full arsenal of turkey calls to get the job done. Along with three easy-to-use calls, the combo pack also includes an instructional DVD to help you fine-tune your skills.

- + X-Lady™ split-V cut triple reed
- + Lucky Lady™ combo cut triple reed
- + Wicked Lady™ batwing cut double reed

ZNK317	UPC	8 10280 01317 7
--------	-----	-----------------

LITTLE SISTER™

The Little Sister™ integrates two latex reeds with ideal weights and notches for optimum sound. The V-notch cut on the heavier top reed produces yelps, cuts, cackles, clucks and purrs. The lower .003” latex reed also has a notched edge for extra rasp. Together, these two reeds make the Lil’ Sister™ easy to use and control.

- + V-notch cut double reed
- + Notch in bottom reed for extra rasp
- + Easy to use

ZNK320	UPC	8 10280 01320 7
--------	-----	-----------------

WICKED SISTER™

Each of the three reeds in the Wicked Sister™ were carefully selected to achieve turkey calling perfection. The slightly thicker top latex reed with W-cut covers two slightly thinner .003” latex reeds. A small notch on the middle reed adds just the right amount of rasp. It’s got just the backbone for cutts and cackles and deep, raspy yelps.

- + W-cut triple reed
- + Notched middle reed for extra rasp
- + Easy to use

POWERFLIGHT™ MALLARD

MODES: SPINNING

The PowerFlight™ Mallard features an all-new motion wing design that spins 360 degrees at precise speeds for unbeatable realism. Use the included remote to select one of two modes: full-spin or intermittent. The PowerFlight Mallard performs through the toughest conditions – even 30 mph winds – for up to 16 hours of continuous battery life. Avian-X's trademark paint detail and intricate molding further enhance the heavy-duty wings and lifelike head positioning to perfectly mimic a landing duck.

- + Innovative motion wings spin 360 degrees at precise speeds
- + Realistic body posture resembles landing duck
- + Remote operation up to 30 yards
- + Two modes: Full Spin and Intermittent
- + Full-spin mode keeps wings spinning continuously
- + Intermittent mode powers on for 5 seconds then off for 3 seconds
- + Operates in conditions up to 30 mph
- + Made from rugged, durable materials
- + Unmatched coloration and detail
- + No-flake paint for lasting finish
- + Water-resistant housing
- + Up to 16 hours continuous battery life
- + External charging port for easy recharging
- + Lithium-Ion battery included for longer battery life
- + Can also be used with a standard 6V lead acid battery

INCLUDES

- + Motion Decoy
- + Dual Mode Remote
- + Rechargeable Lithium Ion Battery
- + Heavy-Duty Marsh Stake

POWERFLIGHT™ MALLARD PRO

MODES: SPINNING + OSCILLATING

The PowerFlight™ Mallard Pro features an all-new wing design with two motion options for unbeatable realism. Spinning mode optimizes the contrast of each wing, from the white underside to the feather detailed top, for long-distance attraction. For close-range birds, oscillating mode mimics the realistic motion of a landing duck's wings. The PowerFlight Mallard Pro performs through the toughest conditions – even 30 mph winds – for up to 16 hours of continuous battery life. Avian-X's trademark paint detail and intricate molding further enhance the heavy-duty wings and lifelike head positioning to perfectly mimic a landing duck.

- + Innovative motion wings cater to any duck hunt
- + Two modes: Spinning and Oscillating
- + Spinning mode uses color contrast to attract at long distances
- + Oscillating mode creates authentic wing motion for close-range birds
- + Realistic body posture resembles landing duck
- + Remote operation up to 30 yards
- + Operates in conditions up to 30 mph
- + Made from rugged, durable materials
- + Unmatched coloration and detail
- + No-flake paint for lasting finish
- + Water-resistant housing
- + Up to 16 hours continuous battery life
- + External charging port for easy recharging
- + Lithium-Ion battery included for longer battery life
- + Can also be used with a standard 6V lead acid battery

INCLUDES

- + Motion Decoy
- + Dual Mode Remote
- + Rechargeable Lithium Ion Battery
- + Heavy-Duty Marsh Stake

TOPFLIGHT WIGEON

Topflight wigeon decoys project the colors, postures and attitudes of a real flock of wigeon on the water. We spent countless hours watching these birds in their natural environment to better understand and select the correct postures in highly advanced, ultra-effective decoys. The bold, lifelike colors in all six decoys project at great distances to lure birds into your spread.

TOPFLIGHT GADWALL

Gadwall, or gray ducks as most call them, can be some of the South's wariest ducks. Come late season, these birds will circle your spread - gaining altitude with every pass. Level the playing field with Topflight gadwall, created with the attitude of fully plumed, late season gray ducks. These masterpieces perfectly capture the short, robust body shape of a mature gray duck with spot-on silver-gray sheen.

TOPFLIGHT WOOD DUCKS

Many hours of research, photography and carving went into capturing the true beauty and grace of wood ducks in our Topflight wood duck decoys. Lifelike postures give these birds the personality exhibited by resting woodies on the backwaters. The advanced rubberized molding material and non-chip paint add durability so the six-pack flock can hunt with you for many successful seasons. Each decoy is slightly oversized, measuring 12.5 inches from breast to tail.

BLACK DUCKS

True-to-life paint schemes and flocked bodies that won't shine or freeze make Topflight black ducks look just like the real deal. No two birds are alike in this fusion pack, with six unique postures that tell a compelling story of a natural flock. A weight-forward swim keel complements the aesthetic to make sure they not only look the part, but act it, too. Simply snap the line through the swim clip to create natural motion in a current or the slightest breeze.

A-FRAME BLIND

Don't waste time searching for cover; take it with you. With a stream-lined, mobile design, the A-Frame blind offers the next best thing to total invisibility in marshes, fence lines, waterways and open fields. The non-corrosive aluminum frame breaks up bird-flaring hard edges and shadows, further aided by a rugged 600-denier shell in Mossy Oak® Shadowgrass Blades® for superior camouflage.

Grass straps and pockets complete the A-Frame's concealment with the addition of natural vegetation. After mere minutes of setup, up to four hunters fit comfortably inside. Take advantage of the four adjustable gun clips and easy-carry webbing strap to complete the total package.

- + Eliminates hard edges and shadows
- + Sturdy, lightweight non-corrosive frame
- + Holds up to four hunters
- + Straps and pockets for adding natural vegetation
- + Collapses for easy storage with carry straps

► The top conservationists deserve the best decoys. Avian-X is proud to be the official decoy manufacturer of the nation's most reputable conservation organization, the National Wild Turkey Federation (NWTf). Since 1973, NWTf has united dedicated volunteers, professional staff members and committed partners under the common goal of conservation and preservation. It's our shared goal to foster a new generation of ethical hunters by creating memories afield. Look for the NWTf logo as a sign that you're furthering this mission with any Avian-X turkey purchase.

RUNDOWN™ SLING PACK

When it comes to turkey hunting, mobility is key. Stay light, fast and agile with the Rundown™. The unique sling design packs all essential calls and gear – keeping them out of the way when on the move, and easy to access when toms start gobbling. A series of specially-sized pockets hold everything from strikers to box calls. There's even a fleece-lined cell phone pocket. Outfitted in Mossy Oak® Obsession and designed for ultimate comfort, this is way more than just another turkey pack.

- + Highly mobile turkey pack great for running and gunning
- + Specially-sized pockets for all turkey call styles
- + EVA molded front pocket folds down into shelf
- + Breathable fabric keeps loads light and cool during hot hunts
- + Box call access point with elastic closure
- + Fleece-lined pocket for cell phone and other electronics
- + Multiple D-rings to attach additional gear
- + Easily slides from side to front for quick access
- + Comfortable, ergonomic fit
- + Adjustable padded shoulder strap

HDR™ JAKE

Introducing the Heavy-Duty Realism (HDR) line of turkey decoys. Blow-molded into reality from hand-carved designs, these decoys harness unbeatable detail and durability.

The HDR jake is sized slightly smaller than a real turkey, but just big enough that he'll make a tempting target. His quarter-strut posture and subdominant feathers signal he's content but ready to fight if an opportunity presents itself. Choose from two included removable head designs – one with a curled, aggressive posture, the other straight and submissive. Pair with any Avian-X hen for a completely customized setup, and you'll paint a picture that'll draw in every boss gobbler for miles.

- + Durable blow-molded design for many seasons of use
- + Relaxed quarter-strut body posture
- + Rubber molded leg stumps with authentic spur detail
- + Customize setups with two removable head designs
- + Includes aggressive and submissive head postures
- + Pre-attached synthetic beard
- + True-to-life paint scheme and feather detail
- + Storage for mounting stake in tail
- + Pairs well with any hen to mimic breeding pair
- + Includes mounting stake for quick setup
- + Realistic movement without unnatural spin

AVX8105 UPC 8 22710 00103 0

NEW

HDR™ HEN

Introducing the Heavy-Duty Realism (HDR) line of turkey decoys. Blow-molded into reality from hand-carved designs, these decoys harness unbeatable detail and durability.

The HDR Hen features an upright body with two interchangeable head postures for double the realism and double the customization. Use the outstretched head for more aggressive setups, or the resting head to signal submissiveness. The HDR Hen pairs perfectly with jake and gobbler decoys as well as other hen decoys to create an authentic, enticing turkey setup.

- + Durable blow-molded design for many seasons of use
- + Authentic rubber-molded leg stumps
- + Customize setups with two interchangeable head postures
- + Outstretched head for aggressive setup
- + Resting head signals submissiveness
- + True-to-life paint scheme and feather detail
- + Flocked tail section for added realism
- + Includes integrated mounting stake that stores in tail
- + Realistic movement without unnatural spin

AVX8106 UPC 0 82271 00169 6

LCD
QUARTER-STRUT JAKE

Give them something to pick on with the LCD Quarter-Strut Jake. This guy's non-aggressive pose makes him attractive to both dominant and sub-dominant gobblers, while his size – 15% smaller than a real jake – keeps him non-threatening and portable. Crafted from rugged dura-rubber, the Quarter-Strut Jake easily fits in a turkey vest, and won't crease or dent like other folding decoys. Pair with the LCD Laydown Hen to mimic a breeding pair that will drive longbeards absolutely wild.

- + Non-aggressive and non-dominant
- + Easy target for gobblers to pick on
- + Realistic movement without unnatural spin
- + Easy transport and storage

AVX8003	UPC	8 10280 08003 2
---------	-----	-----------------

LCD
STRUTTER

This is as in-your-face gobbler action gets. Even the toughest old gobbler won't be able to ignore the LCD Strutter's dominant strutting posture. From posture to paint, this level of incredible detail and superior realism is simply unmatched. The Lifelike Collapsible Decoy (LCD) design folds into a compact, lightweight size for travel and storage. Simply blow up and connect to the collapsible stake for setup. The provided tail fan is the finishing touch – or add your own for an extra dose of realism.

- + Dominant posture
- + Includes pre-attached beard
- + Synthetic fan folds to fit in vest
- + Also holds a real fan; just clip in

AVX8004	UPC	8 10280 08004 9
---------	-----	-----------------

LCD
HALF-STRUT JAKE

The LCD Half-Strut Jake tells the tragic tale of a young gobbler living dangerously outside the pecking order. His sub-dominant head and relaxed feather positioning show he's fearless in his pursuit to establish dominance. Not to be tested, wild gobblers will be all too willing to teach him a swift lesson. This decoy is especially good for the early season when turkeys are working through the pecking order. Combine with your favorite LCD hens and watch a tragedy unfold.

- + Relaxed wings and sub-dominant head
- + Realistic movement without unnatural spin
- + Great for early season
- + Easy transport and storage

AVX8012	UPC	8 10280 08012 4
---------	-----	-----------------

LCD
LOOKOUT HEN

The LCD Lookout Hen has a similar look and effect as the popular Breeder Hen, but she's got a little something extra. The Lookout's raised height aids visibility so passing gobblers can spot her even in tall grass and dense vegetation. She features the same attention to detail and authentic paint scheme you expect from Avian-X, and the Lifelike Collapsible Decoy design you need for easy setups and transport.

- + Added height for improved visibility
- + Lifelike Collapsible Decoy (LCD)
- + Easy transport and storage
- + Unmatched realism and detail

AVX8006	UPC	8 10280 08006 3
---------	-----	-----------------

LCD
FEEDER HEN

The LCD Feeder Hen draws gobblers in close to set up the perfect kill shot. Typically, a hen will notice a gobbler's advances and approach, signaling she's ready to breed. So if a longbeard's gobbles go ignored, he'll assume she didn't hear or see him – and he'll move closer to make sure she does. As he gets closer, the LCD Feeder's ultra-de-tailed paint schemes with true-to-life reflective feathers will pull him even deeper under her spell. This little lady will surprise you with what she's able to accomplish during her morning snack.

- + Relaxed, content position
- + Lifelike Collapsible Decoy (LCD)
- + Easy transport and storage
- + Unmatched realism and detail

AVX8007	UPC	8 10280 08007 0
---------	-----	-----------------

LCD
BREEDER HEN

One of our most popular turkey decoys ever, the LCD Breeder Hen plays up gobbler's top priority every spring: finding a mate. This lady is the ultimate temptation, displaying she's ready to breed. High-quality feather detail and intricate paint schemes complement this inviting pose to bring the gobblers to the hen house. Like all LCD decoys, the Breeder Hen features a collapsible dura-rubber body that won't crease or dent and stays quiet in the field. Your setup won't be complete without this one.

- + Posture signals she's ready to breed
- + Lifelike Collapsible Decoy (LCD)
- + Easy transport and storage
- + Unmatched realism and detail

AVX8008	UPC	8 10280 08008 7
---------	-----	-----------------

TROPHY TOM™

Turn your gobbler into a taxidermy-style showpiece with the Trophy Tom. The one-piece design easily holds a dried tail fan and beard surrounded by detailed carvings and ultra-realistic paint. It's a great way for turkey hunters to relive memories over and over again. (And maybe have an excuse to do a little bragging.) The Trophy Tom also includes a mounting stake and handle to double as a 2D strutting-style decoy in the field.

- + Showpiece for tail fan and beard
- + Great way to capture memories
- + Heavy-duty clip easily holds tail fan
- + Includes instructions on tail fan prep
- + Doubles as 2D decoy

AVX8021	UPC	8 10280 08021 6
---------	-----	-----------------

LCD
LAYDOWN HEN

This lady is ready and waiting! The LCD Laydown Hen's body, wings and head simulate a hen turkey's authentic breeding position. It's a compelling invitation, and one that's been the demise of many a boss gobbler. She pairs perfectly with the LCD Quarter-Strut Jake to create a scene that a boss gobbler just won't tolerate. This pose can also double-down as a highly realistic dusting hen during mid-morning setups. The Laydown Hen does it all – and then some!

- + Relaxed, comfortable position signals she's ready to breed
- + Lifelike Collapsible Decoy (LCD)
- + Easy transport and storage
- + Unmatched realism and detail

AVX8011	UPC	8 10280 08011 7
---------	-----	-----------------

LCD
REPLACEMENT STAKE

When it comes to turkey hunting, there are bound to be a few casualties along the way – and we aren't just talking about the birds. Whether forgotten in the ground or broken by a fired up gobbler, carbon stakes don't always make it home. Replacement stakes make sure you never have to go without.

- + Replaces lost or broken carbon stakes
- + Works with any turkey decoy in the Avian-X LCD Series

AVX8022	UPC	8 10280 08022 3
---------	-----	-----------------

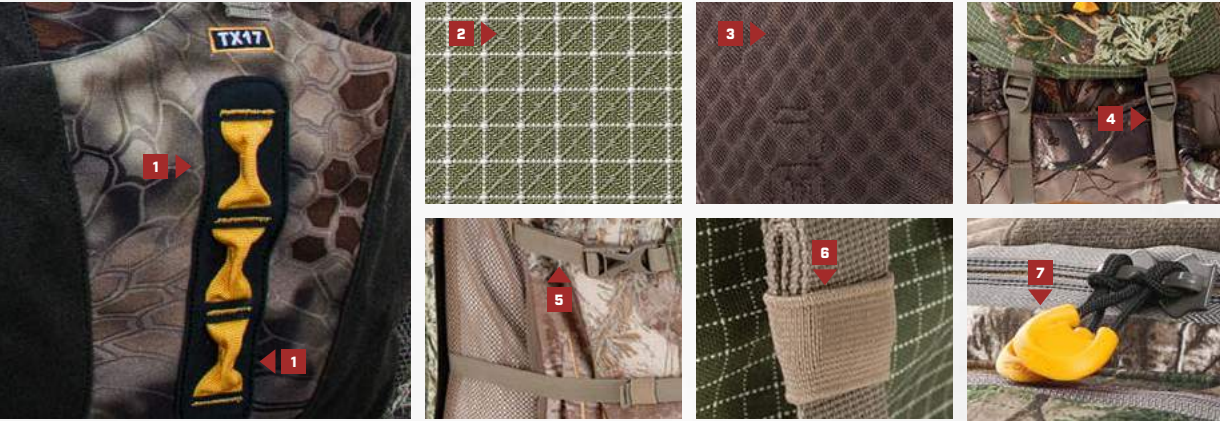

1 Tenzing’s distinctive Daisy Chain™ has become a symbol of the most durable and advanced hunting packs available. Only the most hard-nosed hunters carry blazing yellow on their backs. But they know full well they’re carrying so much more than a pack with looped attachment points; it’s all in the details.

Details like Robic™ rip-stop strength panels. Providing unbeatable durability that’s 50% stronger than traditional nylon fabric, this premium fabric adds failure-proof durability to outlast the heaviest hauls, the harshest conditions and the toughest hunts.

Born in the Idaho backcountry, Tenzing gear is designed to remove every barrier from the hunt to ensure absolutely nothing slows your pursuit. So push forward, hunters. Because this is your season to be legendary.

FEATURES

2 ROBIC™ RIP-STOP STRENGTH PANELS

Robic™ rip-stop fabric is up to 50% stronger with 2.5x the tear strength of traditional nylon fabrics. You’ll find this add-on in high-stress and high-abrasion areas in our most premium packs to ensure a lifetime of failure-proof use.

3 PREMIUM AIR MESH

New padded air mesh has been added to the suspension, back panel and waist belt of select packs for enhanced breathability, reduced weight and added comfort. This premium upgrade leaves packs feeling so good, you won’t want to take them off.

4 COMPRESSION

Whether you’re tightening a haul or attaching additional gear, numerous compression straps tie it all down to efficiently carry heavy loads.

5 EXPANSION

Expandable compartments keep loads balanced and evenly distributed so hunters can bring back the reward of a successful trip. Because we know the goal of hunting is to come back heavier than you left.

6 FUNCTIONAL DETAILS

Painstakingly detailed planning went into every single element of every single pack. Like the elastic cuff on each strap that stretches over excess strap length.

7 SILENT ACCESS

Every pocket and closure has been carefully designed to give hunters quick, quiet access. Yellow-coded zippers with no-rattle pulls identify all main compartment entry points.

ALL WEATHER™ SERIES

All Weather™ cases defend your firearms from damage and the elements. We've enhanced some of our best-selling cases with an upgraded look and improved functionality in the AW2™ line. They're still your old favorites – just better. With rugged, industrial-strength construction and a continuous Dri-Loc® seal, AW2 cases create a watertight and dust-proof shield that protects your gear even in the most extreme conditions. Heavy-duty, dual-stage lockable latches and a built-in pressure release valve also help the cases withstand the continuous bumping and jarring of airline travel.

ALL WEATHER™ GUN CASES

- + Pressure release valve equalizes pressure caused by altitude or temperature changes
 - + Dual-stage lockable latches
