**PRODUCT CATALOG
2020/2021**

“ I want to compliment you not only on the performance of my 9mm but the personal service that was surprisingly expedient, cordial and professional when I contacted you about a barrel issue after some 5,000 rounds thru my Just Right. I have not been treated so well by any customer service *anywhere* that I can remember. Thank you! The carbine is an absolute thrill to shoot and I use it with very good success up to 100 yards so far. Thanks again!!! ”

– David B, South Carolina

What our customers are saying.

“ Thank you for making this awesome product in the US...I am really thrilled with the way my new rifle shoots and cycles. One of the things that most impressed me about the rifle was the balance of the gun. And then obviously, the cost of ammo. It's really nice to be able to shoot an AR {style firearm} at the same cost as shooting my 9mm. ”

– Chad J.

“ I let people at the range shoot it... and they are impressed. ”

Christopher S.

JRC STORY

4

The perfect complement to your handgun! **100% American made** Just Right pistol caliber carbines are affordable to shoot and convert easily from right handed to left handed – no gunsmith required! Featuring a mil-spec Picatinny rail and threaded barrel, the JR Carbine will accept almost any AR accessory. And our patented modular design allows you to convert your JRC from one caliber to another in just a few minutes with just a few parts.

Just Right Carbines began in 2009 in Upstate New York with the goal of engineering a simpler, accurate, more reliable and flexible carbine using common pistol calibers and popular magazines. Since those humble beginnings, JRC now has more than 45,000 firearms in the field and an ever-growing group of devoted followers.

Each Just Right Carbine is built to the highest standards and includes a Limited Lifetime Warranty. Should your JRC need attention, we invite you to contact us and experience our first class customer service. We treat every firearm as if it was our personal weapon – we aren't happy until you are.

PRICE DROP

Now \$50-\$75 below 2019

THE TOTAL PACKAGE

Now you don't have to choose between the Takedown and M-LOK® Rail models. Get the best of both with the Total Package. Install the M-LOK® forend and add sights for target practice or home defense. Then switch over to the Takedown forend when you need a more portable or discreet option.

The Total Package includes a JRC Takedown Model Carbine, a 13" M-LOK® Rail, Custom JRC Takedown Slingpack in Black and a JRC Combination Wrench. Starting at \$769.

PISTOL TO CARBINE CONVERSION KIT

JRC takes flexibility up a notch. Now you can convert your JRC 9mm pistol to a carbine with one of our Pistol to Carbine Conversion Kits. Your kit will contain all the parts and tools needed including: choice of either Takedown Tube or 13" M-LOK® Forend, Adjustable Stock, Buffer Tube, Castle Nut, Lock Plate, 17" Threaded Barrel with Cap, JRC Combination Wrench and an Allen Wrench. Starting at \$189.

“

I love the fact that I can use a mag from a Glock 17 to my JR Carbine. The ease of disassembly I can strip it in less than 2 min. The JR is fun to shoot and being a lefty the fact you can switch ejection ports without buying extra parts. Great gun well worth it. I use it for target as well as home defense.

- Jesse

”

“

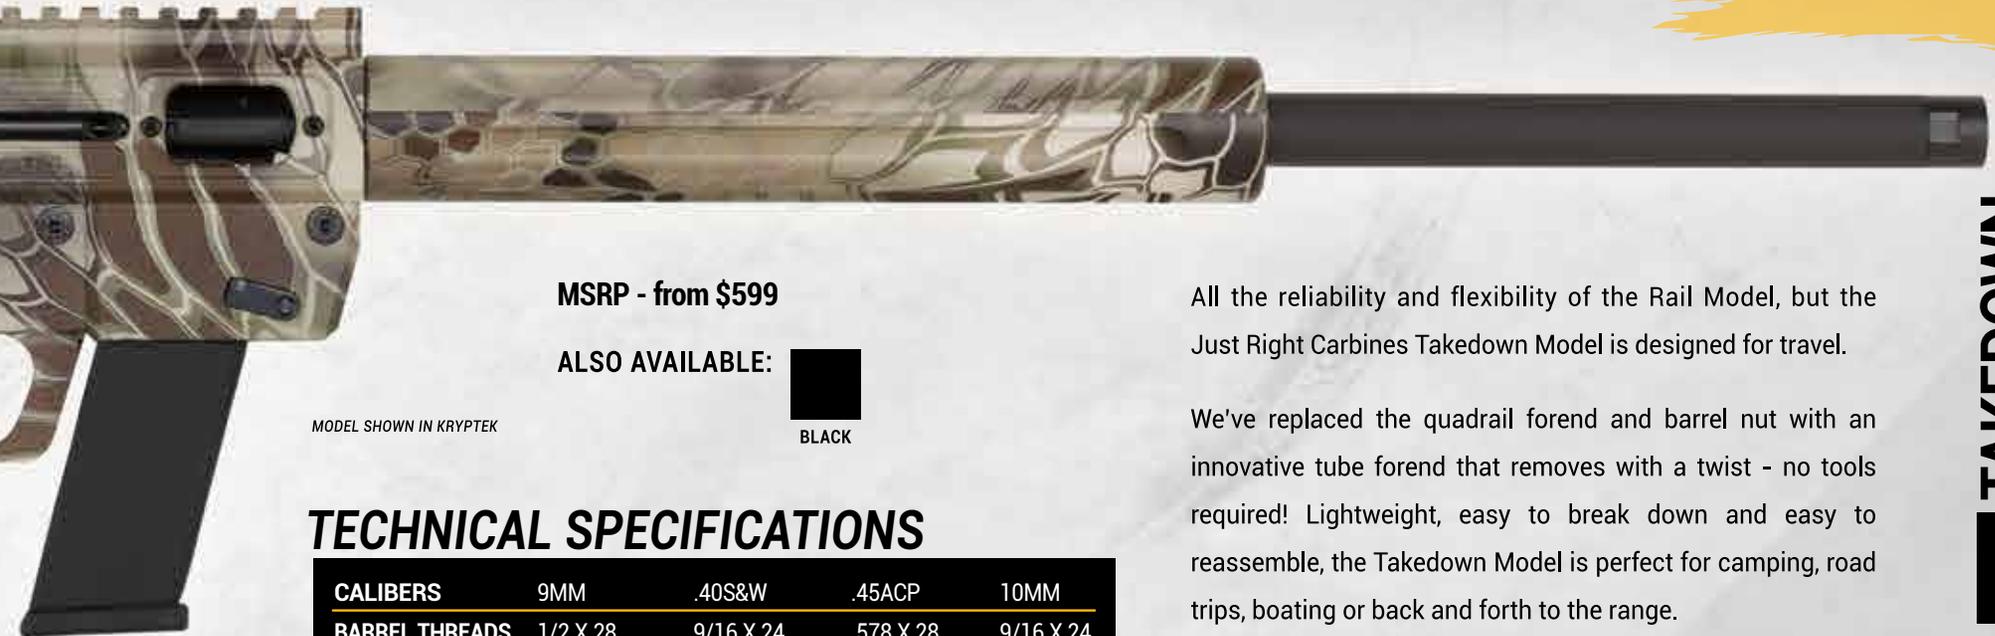

Over the moon happy with my takedown. It is the BEST! Thank you.

- Chris D.

All the reliability and flexibility of the Rail Model, but the Just Right Carbiners Takedown Model is designed for travel.

We've replaced the quadrail forend and barrel nut with an innovative tube forend that removes with a twist - no tools required! Lightweight, easy to break down and easy to reassemble, the Takedown Model is perfect for camping, road trips, boating or back and forth to the range.

Why not get it all? Ask for the Takedown Combo Pack that includes both your choice of Takedown rifle and the Slingpack (page 15) designed specifically to carry and protect your Takedown Jr Carbine, extra magazines and all the gear you need.

“ We bought 3 of these carbines to carry on duty in our patrol vehicles. We all love the way we can carry our M&P handgun magazines and more with the carbine and have all the same ammunition. We can qualify with ease on the state qualification course and have been very happy with the performance and reliability of this tool. I would recommend this carbine to anyone for plinking, home protection, or law enforcement duty use. ”

- Chief Gregory E. Smith. McComb Police Department McComb, Ohio

YOUR BASIC WORKHORSE

MODEL SHOWN IN BLACK.

MSRP - from \$649

Designed to be reliable, flexible and affordable, your Just Right Carbines Rail Model will serve you faithfully whether you're at the range, protecting yourself and loved ones, hunting hogs or shooting critters.

With a Picatinny rail machined into the top of the receiver and a slim 13" M-LOK® handguard, you'll have plenty of real estate to customize your JRC with standard AR accessories like sights, grips, lasers or lights.

Low recoil and a comfortable, familiar feel make the Just Right Carbine the perfect firearm for everyone. Even beginning and less experienced shooters are pinging the steel right away.
