**Superior  
Blade  
TECHNOLOGY**  
for any  
Ice Condition

***“I work in extreme high country  
- lakes above 10,600 feet elevation where the ice  
is 50” thick, the wind is brutal, and nothing  
can breath. Everybody is depending on me  
so I need a drill  
that won’t bind up.  
That’s why I depend on Jiffy.”***

**Nate Zelinsky - Professional Angler & Guide  
Conifer, Colorado**

## **E6 Lightning**

- **High Torque Brushless Electric Motor**
- **Reverse Drill Operation**
- **Night Light**

# The NEW Jiffy ice Scout

Triangle Sight  
Indicates Direction  
of Blade Edge.

Use the Blade Edge  
to Grip the Underside  
of the Ice Layer

## The Quick & Easy Way to Gauge Ice Conditions and Remove the Guesswork

- 2-1/2" Ice Drill Designed to Quickly, Safely and Effectively Measure the Depth of Ice
- Color-Coded Scale Visually Indicates the Thickness of the Ice in Inches
- Check Early and Season-Long Ice Conditions for Your Safety
- 35" Long, Lightweight and Conveniently Fits Most Gear Bags (Like Torch - Page 10)
- Meets Most State DNR Guidelines for Safe Ice (Check your state for variance)
- Punches the Perfect Size Holes to Fit Transducers, Cameras, Poles and Markers for Directing Ice Traffic
- Perfect Emergency Tool for Any Ice Rescue

2-1/2" Cutting  
Blade Bores  
Through Ice Fast

3/8" Hex Bit  
Works with Your  
Cordless Drill

Jiffy  
Wants You to be  
**100% Safe**  
Because Ice Never Is!

Color-Coded Scale  
Indicates the Ice  
Thickness in Inches

(Scale is upside-down  
to read from above  
the ice)
