

QUIET KAT

ALL TERRAIN | ALL ELECTRIC

PRODUCT CATALOG 2021

Bikes are all-terrain, built for all electric off-road travel. These rugged electric mountain bikes are designed for outdoor recreation enthusiasts who desire low-impact access for hunting, fishing, camping and exploring.

Quietkat enhances the outdoor recreation lifestyle by creating portable, reliable and efficient e-bikes. With a variety of models and accessories to choose from, Quietkat will gear you for your next big adventure.

Quietkat electric mountain bikes are environmentally friendly, powered by Lithium-ion batteries for green and quiet operation through any landscape. With a full range of accessories including extra batteries, pannier and handlebar bags, cargo trailers and spot lights, Quietkat makes it easy to carry your gear in and your game out.

MOTOR

500 WATT MOTOR

Equivalent to 3/4 horsepower, 500 Watts is twice the power of traditional electric bikes.

750 WATT MOTOR

Equivalent to 1 horsepower, 750 Watt bikes are not considered motorized vehicles by federal law in the U.S.A.

1000 WATT MOTOR

Equivalent to 1.4 horsepower.

1500 WATT MOTOR

Equivalent to 2 horsepower, this limited-edition motor is available in the Apex only.

HUB DRIVE MOTOR

Integrated rear hub-drive motors provide directly to the rear wheels.

MID DRIVE MOTOR

Higher performance and torque, mid-drive motors rotate the front chainring and take advantage of the gears in the rear to deliver power to the rear wheel.

ICON REFERENCE

BRAKES

MECHANICAL DISC BRAKES

Great stopping power paired with a 203mm rotor.

HYDRAULIC DISC BRAKES

The ultimate stopping power paired with a 203mm rotor.

SUSPENSION

COIL SUSPENSION

Coil spring and hydraulic dampers provide better traction and a comfortable ride.

AIR SUSPENSION

Adjustable air-spring and hydraulic dampers provide a progressive suspension feel for maximum traction and capability.

FIRE-LINK SUSPENSION

QuietKat's Fire-Link suspension is a true four-bar linkage providing the ultimate traction and capability on full-suspension models.

GEARING

SINGLE SPEED GEARING

Simple single-speed drivetrain.

WIDE-RANGE GEARING

The wide-range cassette allows the bike to conquer a variety of terrain including steep ascents.

FRAME

AVAILABLE FRAME SIZES

Each model comes in a variety of frame sizes including small, medium and large.

PLUS SIZE TIRE

Perfect traction for dry and slick pavement, as well as off-road capability.

FAT TIRE

Ride on a variety of off road terrain including sand, snow, mud and rocks.

ACCESSORIES

PANNIER BASKET

- The **QuietKat Pannier Basket** is the perfect accessory to pack in and out medium/large items for your next adventure.

PANNIER BAGS

- The **QuietKat Pannier Bags** easily connect to the Pannier Rack and are a great accessory for hauling your gear with you on your eBike. Made from waterproof PU material, the bags feature a roll up top to keep your gear clean and dry in any condition.

QUIETKAT BATTERY CHARGERS

- Standard 2a, Fast-Charging 5a, 12V DC, Car Charger.

HARPSDEN DAYPACK

The **QuietKat Daypack** is a high-function, comfortable and compact backpack for your eBike. Featuring a classic dome shape with a clever internal organizational panel.

HAMILTON DRYPACK

The **QuietKat Drypack** is a larger waterproof backpack featuring a roll-up top to keep everything dry and protected from the elements. Featuring a clever internal organizational panel.

EXTRA BATTERIES

- Extend the range of your eBike with a spare QuietKat battery. QuietKat batteries are available in a variety of sizes based on the bike model.

FENDER SET

- Keep yourself clean and dry with the **QuietKat fender set**. For 2021, the rear fender attaches to the pannier rack for maximum coverage.

FLEX FENDER

- The **QuietKat Flex Fender** is a low-profile fender that attaches to the fork of your eBike. The Flex Fenders are ideal for our full-suspension line of eBikes and will also work on our hardtails.

STG TAILGATE PAD

- Carry your eBike easily in your pickup-truck and protect your tailgate properly.

EXPLORER 1000 LIGHT

- The **Explorer 1000 light** features a 600 lumens white light and 300 lumens red light. Includes a USB port for charging other electronic devices.

EXPLORER 2000 LIGHT

- The **Explorer 2000 light** features 1200 lumens white light and 600 lumens red light. Includes a USB port for charging other electronic devices.

SMART TAIL LIGHT

- The **QuietKat Smart Tail Light** senses your speed and automatically gets brighter as you decelerate, acting as a brake light. This small USB rechargeable light straps to the rear rack or seat post of the bicycle.

E-BIKE PHONE MOUNT

The **Phone Mount** is CNC machined for maximum quality. Safely and securely attach the phone holder to your handlebars and orient your device for easy viewing while riding.

SINGLE WHEEL TRAILER

- The **Single Wheel Trailer** is only as wide as the eBike itself, making it easy to maneuver in tight areas. Includes integrated rack, fender, kickstand and suspension. (Requires BOB Axle for use with full-suspension models).

1-UP BIKE RACK

- The **1-up Bike Rack** is the simplest and safest way to carry your QuietKat eBike (or any traditional bicycle) on your vehicle using your 2" hitch receiver.

2-WHEEL TRAILER

- The **2-Wheel Trailer** is a versatile accessory for getting your gear in and your game back out.

QUICK KONNECT SYSTEM

- The **Quick Konnect Rack System by Aero** is a patented system to easily mount and remove the Quick Konnect Bags from the bike. Ideal for full-suspension models.

TANNUS ARMOUR TIRE INSERT

- The **Tannus Armour Tire Insert** is the ultimate in tire protection against thorns and other hazards. Tannus Armour gives you increased grip and vibration dampening for a smoother, more comfortable ride.

QUICK KONNECT BAGS

- The **Quick Konnect Bags** are compatible with the Quick Konnect Rack. 11 Liters of waterproof and sturdy protective storage for the toughest off-road terrain.

QUICK KONNECT SPIDER RACK

- The **Quick Konnect Spider Rack** is designed to carry a variety of items including dry bags, sleeping bags, tents and jackets.

QUICK KONNECT PUCK

- The **Quick Konnect Puck** allows you to attach the Quick Konnect Bags.

● GORE CARGO COOLER 50L

A high quality, well-insulated cooler is a must-have accessory for any outdoor adventure. Designed to fit snugly in the QuietKat Single Wheel Trailer to easily haul food or anything you want to keep in an enclosed compartment.

RHINO GRIP XL

● The popular **Rhino Grip XL** is the ultimate way to carry your bow, tools, shovels, and more. Holds up to 15lbs.

WATER BOTTLE HOLDER

● Carry multiple different sizes of water bottles on your QuietKat eBike safely and securely. Attaches to the handlebars for easy access.

GATOR GRIPP HD RACK

● **Gator-Gripp HD Rack** is the easiest way to quickly attach and carry a variety of items such as bows/guns, shovels and tools, fishing rods, skis/snowboards, and more!

COMFORT SADDLE

● The **Comfort Saddle** features smart shock-absorbing zones and a high-peak pressure reduction system. The most comfortable seat on the market!

SOFT BIKE COVERS

● The **QuietKat Soft Bike Covers** are a great accessory to keep your bike clean and dry. Packs away small to easily carry along with you into the field.

SUSPENSION SEATPOST

● The unique and patented parallelogram design allows for smooth small bump compliance with a total of 50mm travel to make for a nice and comfortable ride.

DROPPER SEATPOST

● The **Dropper Seatpost** allows the rider to adjust the saddle height remotely making it easy to get on and off the bike and set the ideal ride height for the saddle.

PORTABLE BIKE STAND

- Working on your QuietKat eBike is much easier when the bike is off the ground and on a stand. Specifically designed to hold your bike at a level that makes it much easier to access each component.

POCKET MULTI-TOOL

- Featuring a chain rivet extractor and all the essentials, the **QuietKat Pocket Multi-Tool** is a must have for any eBike rider.

- The **Advanced Tool Kit** features a full set of professional-grade tools for performing advanced maintenance, upgrades and repairs.

HOME TOOL KIT

- Featuring 22 eBike specific tools to perform basic maintenance, upgrades and repairs.

CONNEX PRODUCTS

- The Connex Ultra Strong eBike chain features the perfect protection against wear and corrosion: high-grade nickel-coated outer plates and power pin, and outstanding gear changing properties thanks to the new plate geometry.

BOB TRAILER AXLE

- The **BOB Trailer Axle** for the RidgeRunner and Jeep eBike is required to attach the Single Wheel Trailer.

FOLDING BIKE CASE

- The **Folding Bike Case** is a super lightweight, durable and protective way to transport your Voyager folding eBike.

SLIME PRODUCTS

- **Slime Products** provide protection for tires and tubes. Check out our website to view the full line of Slime Products available.

MUC-OFF PRODUCTS

- We offer a variety of Muc-Off Products to clean, lubricate and protect your eBike.

SQUEAL OUT ROTOR PASTE

- Works to eliminate the squeal, humming and chattering that occurs from dirty, glazed or contaminated rotors and disc brake pads on your eBike.

HANDLEBAR BAG

- The perfect bag for carrying small to medium sized items. Connects easily to the front of your handlebars.
