

A man and a woman are running on a pebbly beach under a clear blue sky. The woman is on the left, wearing a white cap, sunglasses, a light-colored t-shirt, and black pants. The man is on the right, wearing a black cap, sunglasses, a dark t-shirt, and olive shorts. Both are wearing backpacks and running shoes. Their reflections are visible in a pool of water in the foreground.

S/LAB PULSAR SG

The fast-paced trail shoe that's ready for take-off

Designed for Kilian Jornet to break some of the most iconic course records, the PULSAR uses cutting-edge technology from Salomon's legendary S/LAB. When he asked for a shoe to run fast on trails, our product development team took up the challenge: an ultra-light, precise and dynamic shoe weighing just 170g. With a soft sock-fit, reinforced breathable Matryx® mesh and new strategic cushioning, you'll feel like you're going to take off.

What does women-specific really mean? For us, it's shoe that is fully adapted to the morphology of your feet: a softer cuff, cradling anatomical design and lower density ADV-C Chassis for greater stability. In this mid-cut GORE-TEX version of the X-ULTRA 4, all this is backed up by waterproof protection and a grippy outsole that powers through uphill and descents, so you can explore every angle of your freedom.
