Over 50 years ago, a boot arrived in Alaska, as rugged and real as the people who live and work there. Like Alaska's people, those boots did their job no matter what the conditions. Now an Alaskan icon, the Legacy Boot is 100% waterproof, flexible, and durable—made to keep you dry, stable, and always working comfortably. Featuring a non-marking, slip-resistant Chevron outsole, they're as reliable and tough as it gets. In fact, they're part of what it means to be an Alaskan.

The Legacy Boot works, and in the eyes of Alaskans, that's a beautiful thing. Dubbed the "Alaskan sneaker"—it has been performance tested and proven across the toughest stretches of water, from Misty Fjords to Kodiak, from the Bering Sea to Harrison Bay. XTRATUF boots and footwear have become the badge of ultimate preparedness for the individuals of Alaska – the people who arrive as lone wolves and become part of a pack. The XTRATUF boots they wear prove a reliable partner through thick and thin, keeping multiple generations safe, dry and moving forward one sure step at a time.

XTRATUF® TECH

	100% WATERPROOF	Boots and footwear that are built to be 100% waterproof
	WATER RESISTANT	State of the art durable water resistant (DWR) treatment
	XPRESSCOOL™	Anti-microbial evaporative cooling liner that helps regulate foot temperature to keep you comfortable in both cool and warm environments
	BREATHABLE MESH	A highly durable sandwich mesh which allows the foot to breathe
	OIL RESISTANT	RDR® rubber will outwear standard rubber boots in solvents, caustics, hydrocarbons, oils, fats & acids
	ACID CHEMICAL RESISTANT	Triple dipped, latex neoprene creates a seamless exterior / tested against organic and inorganic acids and chemicals
	SLIP-RESISTANT	Our SRA rated slip-resistant outsoles are made from an exclusive rubber compound that grips the floor surface creating sure footing
	SALTWATER RESISTANT	A saline solution used to treat materials so that they are easy to clean, maintain softness, repel salts, and dries quickly
	SRC	SRC is the highest rating for slip resistance under the EN ISO 20345-2011 standard and requires passing both the SRA and SRB tests
	GLACIER TREK™ PRO	Proprietary outsole compound providing secure footing on wet, icy surfaces while also being SRC rated
	COMPOSITE TOE	Boots are tested to meet ASTM F2413-18 M/I/C
	STEEL TOE	Boots are tested to meet ASTM F2413-18 M/I/C
	CANADIAN STANDARDS ASSOCIATION	Boots are tested to meet CSA Z195-14
	TUFGRP	Next level traction on flat surfaces and uneven terrain / SRC rated to deliver next-level non-marking grip
	TUFDRIY	Our signature waterproof breathable membrane
	TUFLIFT	A synthetic insulation made of hydrophobic fibers for water resistance and warmth
	TEMPERATURE RATINGS	Suggested ratings to determine the right boots for any weather situation

PRODUCT TENETS

**100% DRY
100% READY
TO KEEP GOING
100% WATERPROOF**

Thanks to neoprene latex rubber - vulcanized to further seal and strengthen.

**THE GRIP YOU
NEED, AND
THEN SOME
RATED
SLIP-RESISTANCE**

Our outsoles pass the highest lab tested rating, from soapy ceramic floors to glycerol-coated steel.

**DECKS
NEED ENOUGH
CLEANING**

NON-MARKING
Our Chevron outsole leaves no mark on any surface.

**PROTECTS FROM
ENGINE OIL TO
FISH GUTS
OIL & CHEMICAL
RESISTANT**

Our patented RDR® technology resists many organic and inorganic oils, solvents, acids and chemicals.

**PLIABLE
COMFORT THAT
LETS YOU MOVE
TIPPLE-DIPPED
RUBBER**

Our unique process provides flexible, seamless, durable, all-day comfort.

COMMERCIAL GRADE

Built AlaskaTuf to perform in the harshest of conditions and stand up to the rigors of commercial fishing while providing agility, protection and comfort. Commercial Grade products from XTRATUF feature independently rated slip-resistant outsoles, materials that stand up to oil, acid, diesel and other hazardous elements and boot options with protective toe guards and reinforcements in high stress areas.

THE LEGACY COLLECTION

All boots within the Legacy collection are 100% waterproof. Each boot is made with our signature triple dipping technique, which creates a seamless barrier that is highly resistant to many organic and inorganic acids, chemicals and contaminants. Our latex neoprene is ozone resistant, and is softer, lighter, and far more pliable than ordinary rubber. Cushioned insoles with arch support help fight fatigue and stress on the legs and back. All XTRATUF® Legacy boots come with a non-marking, slip-resistant Chevron outsole that provides unparalleled traction on any surface in the most extreme conditions. Insulated styles come with built-in Polymeric Foam insulation. The insulation package will keep your feet warm even when it is -10°F.

WHAT GOES INTO OUR BOOTS

Triple-Dipped Rubber

XTRATUF dipped neoprene footwear is triple-dipped to create a seamless coating of rubber that is highly resistant to many organic and inorganic chemicals. Vulcanizing further seals and strengthens this superior watertight material

Neoprene Latex Rubber

Neoprene latex rubber is softer, lighter and far more pliable than ordinary rubber, making neoprene boots more comfortable and flexible

Hand-Layered Construction

Hand-layered construction allows flex and strength at critical stress points

Fabric Lining

Toe and Heel Guards

High Rebound PU Comfort Insole

Slip-Resistant Non-Marking Outsole Tread

ACID & CHEMICAL RESISTANT

SRA NON-MARKING, SLIP-RESISTANT
CHEVRON OUTSOLE

TRIPLE-DIPPED NEOPRENE

LEGACY NXT

For over 60 years XTRATUF® has been equipping commercial fishermen with Alaska proven footwear and boots. As fishing has evolved over the years so have the fishermen's needs, therefore we continue to innovate and solve for how our boots can help our users stay safe, feel confident, and remain comfortable. Our iconic Legacy boot has been around since the late 50's and our users are now wearing them in more environments and for more reasons than ever before. These new demands warrant innovation and so we integrated modern technologies and design features into the classic and well proven style. The Legacy NXT features a brand new, form fitting last with expanded room in the calf and ankle, designed to fit our modern-day commercial fisherman. We have also added a dual density midsole for added underfoot cushioning for all day comfort. The NXT is 100% waterproof and is made with our signature triple dipping technique, which creates a seamless and flexible barrier that is highly resistant to many organic and inorganic acids, chemicals, and contaminants. Staying true to our Legacy DNA, the NXT comes with a non-marking, slip-resistant Chevron outsole that provides unparalleled traction on any surface in the most extreme conditions.

LEGACY ALTITUDE

For over 60 years XTRATUF® has been equipping commercial fishermen with Alaska proven footwear and boots. As fishing has evolved over the years so have the fishermen's needs, therefore we continue to innovate and solve for how our boots can help our users stay safe, feel confident, and remain comfortable. Our iconic Legacy boot has been around since the late 50's and our users are now wearing them in more environments and for more reasons than ever before. These new demands warrant innovation and so we integrated modern technologies and design features into the classic and well proven style. The Legacy Altitude is an all-terrain version of our classic Legacy boot. Built on a new outsole with multi-traction lugs designed for all terrain adventures while still maintaining SRA slip resistant when you find yourself back on wet and slippery decks. The outsole lugs are specifically designed to flex and shed debris as you move. 100% waterproof and constructed with our signature triple dipping technique, which creates a seamless and flexible barrier that is highly resistant to many organic and inorganic acids, chemicals, and contaminants. The Altitude also features additional shin, ankle, and heel reinforcement to provide enhanced protection and durability.

XTRATUF X SALMON SISTERS

This collection's prints are original designs by two Alaskan fishermen, born and inspired by the wilderness of Alaska and the sustainable fisheries of the Pacific Northwest. Salmon Sisters products are designed in Alaska, inspired by nautical tradition, and made for a community of fishermen, adventurers, and ocean-enthusiasts. XTRATUF x Salmon Sisters footwear is designed to look good and get dirty because they're just too comfortable to take off. The Salmon Sisters work with organizations that support conservation of wild spaces and wild seafood.

LEGACY DECK BOOT

The Legacy Deck Boot offers the Alaska proven functionality of our best-selling Legacy Boot but with a lower upper height, creating a whole new class of boot. The Legacy Deck Boot features the same commercial grade performance and safety features of the classic Legacy Boot, but with functional pull tabs and a twin elastic gore for easy on/off when you're on the go. This iteration of our beloved classic style is the perfect all-purpose and wet/cold weather boot.

This rugged boot from XTRATUF is built for life in Alaska and designed to keep you protected, dry and comfortable no matter where your adventures may lead.

LEGACY LTE

This rugged boot from XTRATUF® is built for life in Alaska and designed to keep you protected, dry and comfortable no matter where your adventures may lead. The Legacy LTE is inspired by the numerous hand-sewn creations we've come upon throughout Alaska, it includes everything you love about our classic Legacy, in a lighter-weight, slimmer profile. The Legacy LTE features TUFDRY, our signature waterproof breathable membrane, along with a waterproof suede upper making this the ideal all-purpose winter and wet-weather boot. The Legacy LTE offers all day comfort via a dual density open cell foam insert. The updated styling is a fresh take yet offers the same commercial grade performance as the classic Legacy Boot due to its slip-resistant non-marking Chevron outsole.

LEGACY LEATHER

A close-up photograph of a person's legs and hands. They are wearing dark grey pants, black socks, and brown leather Chelsea boots with white soles. The boots have a small 'XTRATUF' label on the side. They are also wearing bright orange rubber gloves. The person is standing on a rusty metal surface, possibly a boat deck or a workbench, and their hands are resting on a metal railing. The background is slightly blurred, showing more of the metal structure.

Ready for any season, weather or occasion. The Legacy Leather Chelsea is a versatile boot that delivers Alaska proven XTRATUF® performance for those moments off-the-water; mending nets, maintaining engines or general daily wear. This leather version of the beloved Legacy Boot is crafted of saltwater resistant leather that will wear to a fine patina. Built for coastal adventures on and off the boat this lightweight silhouette features the same XTRATUF® non-marking, slip resistant Chevron outsole as their rubber counterparts. Built to be 100% waterproof, this collection of work boots provides wearers with class leading traction, comfort, and protection.

SUPERIOR TRACTION

SRC Slip-resistant, omni-directional lugs designed with leading edges to provide the ultimate traction.

Glacier Trek™ PRO
Lugs provide sure-footing on wet ice.

Non-marking rubber outsole won't mark-up surfaces.

ELITE COLLECTION

The Elite Collection is designed to provide the protection and durability of a Legacy boot with unmatched comfort for long days at sea or long hours on the dock. Using the Proprietary RDR™ oil/chemical resistant compound, this boot is resistant to many organic and inorganic acids, oils, chemicals and contaminants. Built with a Spandura® covered 5MM neoprene bootie; this allows the boot to be comfort rated to -20°F. XTRATUF® Elite boots are built on either our classic non-marking, slip-resistant Chevron outsole that provides sure-gripping traction or the Glacier Trek™ Pro outsole which provides traction on soapy tile, glycerin on steel and wet ice for truly Elite traction.

COMMERCIAL GRADE 23

WHEELHOUSE

The Wheelhouse is the commercial grade version of the Ankle Deck Boot. We know standing on your feet 12+ hours a day at sea can cause feet to swell, and the wider fit of this boot is built for that reality. The upper is reinforced in high wear areas such as the toe and heel for maximum durability. The boot features an EVA/PU blend insole for all day comfort, and an SRC rated outsole for industry leading oil and slip-resistance.

EXPLORER GRADE

Built for performance and versatility, XTRATUF Explorer Grade products enable watermen everywhere to go farther and do more with professional-grade slip resistant boots and footwear. Designed with the product tenets of traction, agility, all-day comfort and protection coupled with Alaskan inspired lifestyle aesthetics.

ADB ICE

As a resident of the 49th state, you learn to endure some of the harshest winters on this planet. Through extensive field work, the team at XTRATUF identified a gap in the marketplace when it came to traction on wet and icy surfaces.

The ADB ICE was designed to work on wet ice while simultaneously being able to transition to other wet surfaces. This new boot features Glacier Trek Pro, our proprietary ice gripping compound paired with an SRC rated slip-resistant rubber. The ADB ICE has a lightweight rubber upper that is 100% waterproof and includes a faux shearling lining for quick drying comfort and warmth.

ADB SPORT

A close-up photograph of a person's legs and feet wearing Xtratuf ADB Sport boots. The person is standing on the deck of a boat. In the background, a Yamaha 115 outboard motor is visible on the left, and the sun is setting over a body of water with mountains in the distance. The boots are dark grey with white accents and a white sole. The text "ADB SPORT" is overlaid in large white letters at the top left.

XTRATUF® has been making commercial fishing boots for over 60 years. As fishing has evolved so has fishermen's needs, so we continue to innovate and solve for how our boots and footwear can help them feel safe, confident, and comfortable. This season the all new ADB Sport brings you everything you would expect from your XTRATUF® boots but in a sportfishing specific silhouette that is up to 30% lighter than other 6" boots in this category. This ADB Sport is built from a new high-performance foam PRO LITE which is ultra-durable and slip resistant, all while being a one-piece outsole. This boot delivers the comfort and agility of a sneaker with long cushion life and high energy return, all while offering the same traction benefits of a full rubber boot.

ADB ECO

Our first Eco-friendly Ankle Deck Boot. The ADB ECO builds on our heritage and what we do best with the addition of Yulex® natural rubber, the World's first plant-based replacement for our standard neoprene. XTRATUF Deck Boots have been crafted specifically for sport and recreational fisherman. Anglers are athletes and they need proper footwear to help them perform at their best. We used our lightweight silhouettes, with the same XTRATUF non-marketing, slip resistant Chevron outsole. The ECO is 100% waterproof built with Yulex® natural rubber derived from the sap of the Hevea Tree. This boot is equally as durable, flexible, and comfortable as the original ADB.

LEATHER ADB

No matter what the season or occasion fishermen require XTRATUF performance while mending nets, maintaining engines or just enjoying life off-the-water. The Leather ADB series is a 100% waterproof collection of leather work boots that provide traction, comfort and protection.

The leather version of the beloved Ankle Deck Boot is crafted of saltwater resistant leather that will wear to a fine patina over time. This boot is treated with a saline solution making the material easy to clean, maintain softness, repel salts and dries quickly. Built for coastal adventures on and off the boat these lightweight silhouettes sport the same XTRATUF non-marking, slip resistant Chevron outsole as their rubber counterparts.

KIATA

The Kiata is the proud result of years of prototyping a high-performance sneaker in the ultimate testing grounds of Alaska. The goal was to develop a footwear solution for those who live an active life to have a true “do it all” sneaker. Constructed from an innovative 100% waterproof 3D knit upper crafted from a single yarn to provide a seamless design which flows over the curves of your foot with effortless ease. This construction technique eliminates any excess waste as each upper is built with the exact amount of yarn required to make each pair. XTRATUF then paired this lightweight sock-like upper with a high rebound cushioned midsole and perforated comfort insole for breathability, support and stability. The outsole features a revolutionary patent pending design and specially formulated rubber compound we call TUFgrp that provides next level traction on flat hard surface and uneven terrain. TUFgrp is independently verified SRC rated to deliver next-level non-marking grip.

AUNA

A close-up, low-angle shot of a person's feet wearing dark-colored Auna sandals. The person is standing on the metal railing of a boat. The background shows the ocean and a sunset sky with warm, golden light reflecting on the water. The person's legs are hairy, and there are tattoos on their ankles. A thick rope is visible in the foreground, tied to the railing.

Our designers started from the ground up with this all new take on what a sandal could do and be for our community. The Auna sandal is the result of years of testing and refinement. The Auna incorporates a high rebound PU footbed coupled with an abrasion resistant forefoot strap. This sandal is built to be supportive and comfortable for long days on the water or land. It features our innovative TUFgrp outsole, a revolutionary patent pending design constructed from a specially formulated rubber compound. TUFgrp provides next level traction on flat and hard surfaces as well as wet and uneven terrain. TUFgrp is independently verified SRC rated to deliver next-level non-marking grip.

SHARKBYTE ECO

Our beloved Sharkbyte gets a “green” refresh with an upper material made from ECONYL®. ECONYL® regenerated nylon is made entirely from nylon waste that would otherwise pollute the Earth such as fishing nets and others. The Sharkbyte deck shoe is lightweight and designed to be versatile enough to wear on and off the boat. It features a rear pull tab for easy on, and a reinforced leather panel at the heel for easy off. They not only look and feel great, but also keep you safe and sure-footed, thanks to our signature non-marking, slip-resistant chevron outsole as featured on our iconic Legacy Boots.

PERFORMANCE CASUAL

HOMER II

The Homer is water resistant slip-on that feels like a slipper. It features a soft wool upper with a full faux-shearling lining keeping you warm and cozy, while the molded EVA insole provides added underfoot comfort. The classic XTRATUF® non-marking Chevron outsole delivers great slip resistance for life on or off the boat deck. The Homer is made for Alaskan commercial fishermen, who prefer to step into a lightweight, slip-on shoe during down time, during meals, in wheelhouse or waiting for tender pick-ups.
