

Starting with the tone board from the Original Cutdown, the Brute OG features beefier construction under the cork tab for more back pressure and better call control. A tweak to the bore system makes the Brute OG more user-friendly, and a heavy-duty O-ring holds the insert securely in place. The Brute OG offers plenty of calling versatility, delivering high-pitch barks as well as subtle quacks to finish highly pressured ducks. One of our most popular calls, the Brute OG will quickly become a favorite on your lanyard.
