

Electronic Callers

PROWLER

The FOXPRO Prowler is an excellent call for beginner predator hunters on a budget. Its durable, compact design offers maximum portability. It comes standard with 175+ sounds that cover a variety of species, distress sounds, and vocalizations and can store up to 300 sounds. The upgraded remote has a larger LCD screen than previous entry-level units, making screen navigation simple and easy to read. The Prowler weighs only 1.45 lbs with batteries, so you'll barely notice carrying it in the field. Connect an external speaker to the jack on the side of the unit for even more volume.

The Prowler remote is easy to operate and navigate through sound categories, so you can quickly change sounds while hunting. It has an elastomeric keypad making buttons easy to press, two user buttons, a mute button, volume up and down buttons, and more. The user buttons can be set to a preselected sound or an auxiliary function. The Prowler has an auxiliary jack making it compatible with the FoxJack 5, X-Decoy, and other approved devices (sold separately), so you can turn it into an all-inclusive and portable predator-calling machine. All these features in one amazing, compact, and high-quality unit make the Prowler an incredible value. The FOXPRO Prowler is backed by a 3-year limited warranty, unmatched customer support, and is proudly made in the USA!

Feature Highlights

- Comes with 175+ sounds and can hold and access up to 300 sounds
- Elastomeric remote keypad
- High-efficiency horn speaker
- External speaker jack
- Auxiliary jack
- Operates on 4 AA batteries
- USB port to reprogram sounds

HELLCAT

The FOXPRO Hellcat is an all-in-one decoy and digital game call that's small and portable, making it an excellent choice for beginner hunters on a budget. It comes standard with 175+ high-quality FOXPRO sounds that cover a variety of species, distress sounds, and vocalizations and can store up to 300 sounds. The upgraded remote has a larger LCD screen than previous entry-level units, making screen navigation simple and easy to read. With our popular bluebird topper, the decoy adds realism to your stand, giving visual confirmation to weary predators. The Hellcat weighs only 2.2 lbs with batteries, so you'll barely notice carrying it in the field.

The Hellcat remote is easy to operate and navigate through sound categories, allowing you to quickly change sounds while hunting. It has an elastomeric keypad making buttons easy to press, two user buttons, a mute button, volume up and down buttons, and more. The user buttons can be set to a preselected sound or an auxiliary function. The Hellcat has an auxiliary jack to add additional approved devices (sold separately). The FOXPRO Hellcat is backed by a 3-year limited warranty, unmatched customer support, and is proudly made in the USA!

Feature Highlights

- Built-in decoy with bluebird topper
- Comes with 175+ sounds and can hold and access up to 300 sounds

- High-efficiency horn speaker
- Elastomeric remote keypad
- Auxiliary jack
- Operates on 4 AA batteries
- USB port to reprogram sounds

HELLCAT PRO

The FOXPRO Hellcat Pro is an all-in-one decoy and digital game call that's small and portable while delivering big volume. One of the industry's most popular remotes is included, the TX-1000, making it a great choice for both beginner and more advanced hunters. It comes standard with 200+ sounds that cover a variety of species, distress sounds, and vocalizations and can store up to 1000 sounds. With our popular bluebird topper, the decoy adds realism to your stand, giving visual confirmation to weary predators. It has an auxiliary jack to add additional approved devices (sold separately). The Hellcat Pro comes with a lithium battery and charger kit in the box!

The TX-1000 features a full-color graphic LCD screen, which displays your sound list or sound categories. It also has auto-volume, wireless upload to the remote, a battery level indicator, timer or time clock, FOXCast, and FOXBang technology. The Hellcat Pro is backed by a 5-year limited warranty, FOXPRO's unmatched customer support, and is proudly made in the USA.

Feature Highlights

- Built-in decoy with bluebird topper
- FOXBang Automatically maps your caller to a predetermined setting after discharging your firearm. (See instruction manual for FOXBANG options.)
- FOXCast Virtually hands-free calling with FOXCAST sequence files.
- Comes with 200+ sounds and can hold and access up to 1000 sounds
- TX-1000 remote control
- Auxiliary jack
- Lithium batter and charger kit included
- USB port to reprogram sounds

X48

The FOXPRO X48 is the first of its kind being able to play two sounds at once in true 24-bit audio! It's a powerful and compact unit that features a positional Xtreme High Definition (XHD) speaker. The XHD speaker is a horn speaker with an added tweeter for improved frequency response and allows for extreme volume capabilities and realistic sound clarity.

The X48's handle folds out into a positional stand to provide elevation over various terrains that you might encounter. It's compatible with the X-Decoy (sold separately) so you can have an all-inclusive and portable predator-calling machine. The Bluetooth feature allows you to play audio files right from your phone. There is one external speaker jack if you desire even more volume, and an auxiliary jack to connect an approved device (sold separately). The X48 comes with 250+ sounds with the ability to store and access up to 1000 sounds. The X48 comes complete with a lithium battery and charger kit in the box! Conveniently recharge the X48 without removing the batteries via the charge jack.

The new TX-2000 remote control features a large full-color graphic LCD screen with customizable screen options and now features subcategories for ease of navigating through sounds. A built-in weight scale allows you to weigh predators right in the field! And an improved temperature and barometric pressure gauge offers much more accurate readings. Other features include a moon phase indicator, battery level indicator for both the X48 and the TX-2000, and timer or time clock. Two preset buttons allow you to assign your favorite sounds at predetermined volume levels, and two user buttons are customizable to quickly access many other features.

For the first time ever, FOXFusion (playing 2 sounds at once) can now work with 24-bit sounds, FOXBang has been improved to offer additional lower sensitivity settings to help with accidental bumps, and FOXPitch has been improved to offer a greater range of pitch changes. FOXMotion mimics moving prey by fading sound from the X48 to an external speaker (sold separately). Let the Pro's do the calling for you with the included FOXCast sequences, or simply customize your own. And record real-time accurate information with FOXData to help you determine your most successful sounds, times, dates, barometric pressures, temperatures, and more to make you more efficient than ever before.

The FOXPRO X48 is backed by a 5-year warranty, FOXPRO's unmatched customer support, and is Proudly Made in the USA.

Feature Highlights

- FOXFusion (playing 2 sounds at once) can now work with 24-bit sounds
- FOXBang Automatically maps your caller to a predetermined setting after discharging your firearm
- FOXCast Virtually hands-free calling with FOXCAST sequence files.
- FOXPitch Lets you manipulate the "pitch" of any sound in an effort to trigger a response.
- FOXMotion Mimics moving prey by fading sound from the X48 to an external speaker (sold separately).
- FOXDATA Activate FOXDATA and it records real time information (temp, barometer, moon phase, stand duration, shot time) from each stand. Over time you will be able to predict animal activity/hunting success based on hard data.
- Lithium batter and charger kit included
- TX-2000 remote control (with built in weight scale)
- Comes with 250+ sounds and can hold and access up to 1000 sounds

X360

FOXPRO is pleased to announce a new flagship digital game call that will once again revolutionize the market with industry-leading innovative features. The FOXPRO X360 brings the most **ultra**-realistic sound and user experiences to the hunt like never before. Utilizing 3 XHD Speakers in a 7-speaker system, the X360 can produce an Advanced 360 24-bit sound with a dramatically improved frequency response range that triggers even the most call-shy predators. **Over 20 kHz worth of sound!**

The new Advanced 360 FOXMotion feature **moves** your selected sound to different random speakers in a 360-degree directional range while increasing and decreasing volumes. This creates a realism and chaotic urgency that can fool even the wariest of predators, and that no other call on the market can replicate. And with 5 selectable settings to increase or decrease the urgency of the sound, you can create unique scenarios and sounds on stand for calling nirvana! Start the stand with a low urgency of 360 sound, and gradually increase the urgency to create a must-come-and-see scenario, or just start out with the most chaotic urgency. It's your choice.

The FOXPRO X360 comes with 350+ sounds and can store up to 2000 sounds. It features two built-in decoys that can create a frenzied attack like never before. Independently control the speed of each decoy via the TX-2000 remote control. The built-in tripod system elevates the call for better sound distribution and conveniently folds down for portability. The 7-speaker system consists of 3 horn speakers, 3 tweeters, and a bass speaker, all working together to produce over 20 kHz of sound, nearly double the frequency range of prior models. The Bluetooth feature allows you to play audio files right from your phone. And music will come to life through the speaker system when turned to music mode! A super high capacity 10,000 mAh lithium battery, car charger, and wall charger are included.

The new TX-2000 remote control features a large full-color graphic LCD screen with customizable screen options and now features subcategories for ease of navigating through sounds. A built-in weight scale allows you to weigh predators right in the field! And an improved temperature and barometric pressure gauge offers much more accurate readings. Other features include a moon phase indicator, battery level indicator for both the X360 and the TX-2000, and timer or time clock. Two preset buttons allow you to assign your favorite sounds at predetermined volume levels, and two user buttons are customizable to quickly access many other features.

For the first time ever, FOXFusion (playing 2 sounds at once) can now work with 24-bit sounds, FOXBang has been improved to offer additional lower sensitivity settings to help with accidental bumps, and FOXPitch has been improved to offer a greater range of pitch changes. Let the Pro's do the calling for you with the included FOXCast sequences, or simply customize your own. And record real-time accurate information with FOXData to help you determine your most successful sounds, times, dates, barometric pressures, temperatures, and more to make you more efficient than ever before.

The FOXPRO X360 is backed by a 5-year warranty, FOXPRO's unmatched customer support, and is Proudly Made in the USA.

HI-JACK

The FOXPRO Hi-Jack is a completely re-engineered unit made for big volume in a small package. This lightweight powerhouse, which includes a decoy, also comes with the most sought-after

remote control on the market, the TX-1000. It comes standard with 100 high-quality FOXPRO sounds, plus the FOXPRO FREE SOUND LIBRARY (100+ sounds), and has the ability to hold up to 1000 sounds. Enhance the realism by attaching the included FoxJack 5 decoy and Fuzzy Wuzzy topper to the back of the Hi-Jack. The Hi-Jack comes complete with a lithium battery and charger kit in the box!

The TX-1000 features a full color graphic LCD screen, which displays your sound list or sound categories. It also has auto-volume, wireless upload to the remote, a battery level indicator, timer or time clock, and FOXBANG technology. The Hi-Jack is backed by a 5 year limited warranty, FOXPRO's unmatched customer support, and is proudly made in the USA.

- Comes with 100 sounds, plus FOXPRO Free Sound Library (100+ sounds), 1000 sound capacity
- FoxJack 5 decoy with Fuzzy Wuzzy Topper (included)
- Color remote display
- Elastomeric remote keypad
- 2 external speaker jacks
- Auxiliary jack
- USB port to reprogram sounds
- 2 user buttons

HAMMERJACK 2

The FOXPRO HammerJack 2 is portable, lightweight, and easy to operate. It comes standard with 100 high-quality FOXPRO sounds, plus the FOXPRO FREE SOUND LIBRARY (100+ sounds), and has the ability to hold up to 400 sounds. The HammerJack 2 features dual-amplified speakers to deliver incredible volume. The front horn speaker handles your coyote vocalizations and common distress sounds with ease. The rear cone speaker handles the low frequency sounds such as bear growls, owl sounds, and even mountain lion sounds. When combined, they deliver a crisp, clear, high-quality, and realistic sound. If you want even more volume, the HammerJack 2 allows you to connect two external speakers for incredible volume capabilities. It has a charge jack and auxiliary jack, and includes the FoxJack 4 with the FOXPRO Fuzzy Wuzzy topper.

The FOXPRO HammerJack 2 features an enhanced remote with an elastomeric keypad for effortless use, even with gloves. It also has category files for easy navigation through sounds. The HammerJack 2 also includes FOXBANG technology and FOXCAST. FOXCAST allows you to play a pre-set custom sequence (25 max.) to include your favorite sounds, volume levels, and even pauses. There are also up to 25 assignable "Favorites" in the "Favorites Category". The remote has a power on/off switch, volume up/down buttons. Scroll up/down, a mute, 2 assignable user buttons, and much more. All of these features in one amazing, compact, high-quality unit makes the HammerJack 2 an incredible value. It's packed with great features and innovations from FOXPRO.

The HammerJack 2 is backed by a 3 year limited warranty, FOXPRO's unmatched customer support, and is proudly made in the USA!

- Comes with 100 sounds, plus FOXPRO Free Sound Library (100+ sounds), 400 sound capacity

- FoxJack 4 decoy with Fuzzy Wuzzy Topper (included)
- Category sound files
- Dual-amplified speaker system
- 2 external speaker jacks
- Auxiliary jack
- 2 user buttons
- USB port to reprogram sounds

XWAVE

The FOXPRO XWAVE features 2 positional Xtreme High Definition (XHD) speakers. Both XHD speakers are a horn speaker with an added tweeter for improved frequency response. The XHD speaker system allows for extreme volume capabilities and realistic sound clarity. The FOXPRO XWAVE also features Bluetooth® compatibility, so the user can connect wirelessly via their Bluetooth® device and play animal sounds from their own library or even play music during a camp setting or recreational activity. There are 2 external speaker jacks if you desire even more volume, an auxiliary jack to connect an approved device such as a Jack Predator Decoy, and a charge jack. The XWAVE comes with 100 high-quality FOXPRO sounds, with the ability to store and access up to 1000 sounds. You can operate the XWAVE manually or with the TX-1000 remote control. The XWAVE comes complete with a lithium battery and charger kit in the box!

The TX-1000 features a full color graphic LCD screen, which displays your sound list or sound categories. It also has a barometer indicator, moon phase indicator, temperature indicator, battery level indicator, timer or time clock, FOXBANG technology and much more. FOXMotion allows you to fade the sound from the left speakers to the right speakers to help “sell” the reality of your call sounds. FOXFusion allows you to mix and match any two sounds at the same time during your calling sequence. FOXCast allows you to play a pre-set custom sequence to include your favorite sounds, volume levels, and even pauses. FOXPitch allows you to manipulate the “pitch” of the sound in an effort to trigger a response. FOXData allows you to record real time information from each and every stand so you can access the data for future reference. The XWAVE is backed by a 5 year limited warranty and FOXPRO's unmatched customer support and is proudly made in the USA.

X2S

The FOXPRO X2S is a powerful and compact unit that features a positional Xtreme High Definition (XHD) speaker. The XHD speaker is a horn speaker with an added tweeter for improved frequency response. The XHD speaker system allows for extreme volume capabilities and realistic sound clarity. The X2S handle folds out into a positional stand to provide elevation over various terrains that you might encounter. The FOXPRO X2S also features Bluetooth® compatibility, so the user can connect wirelessly via their Bluetooth® device and play animal sounds from their own library or even play music during a camp setting or recreational activity. There is 1 external speaker jack if you desire even more volume, an auxiliary jack to connect an approved device such as a Jack Predator Decoy, and a charge jack. The X2S comes with 100 high-quality FOXPRO sounds, with the ability to store and access up to 1000 sounds. The X2S comes complete with a lithium battery and charger kit in the box!

The TX-1000 features a full color graphic LCD screen, which displays your sound list or sound categories. It also has a barometer indicator, moon phase indicator, temperature indicator, battery level indicator, timer or time clock, FOXBANG technology and much more. FOXMotion allows you to fade the sound from the left speakers to the right speakers to help “sell” the reality of your call sounds. FOXFusion allows you to mix and match any two sounds at the same time during your calling sequence. FOXCast allows you to play a pre-set custom sequence to include your favorite sounds, volume levels, and even pauses. FOXData allows you to record real time information from each and every stand so you can access the data for future reference. The X2S is backed by a 5 year limited warranty and FOXPRO's unmatched customer support and is proudly made in the USA.

X24

The FOXPRO X24 is a powerful and compact unit that features a positional Xtreme High Definition (XHD) speaker. The XHD speaker is a horn speaker with an added tweeter for improved frequency response. The XHD speaker system allows for extreme volume capabilities and realistic sound clarity. The X24's handle folds out into a positional stand to provide elevation over various terrains that you might encounter. There is 1 external speaker jack if you desire even more volume, an auxiliary jack to connect an approved device such as a Jack Predator Decoy, and a charge jack. The X24 comes with 100 high-quality FOXPRO sounds, with the ability to store and access up to 1000 sounds. The X24 comes complete with a lithium battery and charger kit in the box!

The TX-1000 features a full color graphic LCD screen, which displays your sound list or sound categories. It also has a barometer indicator, moon phase indicator, temperature indicator, battery level indicator, timer or time clock, FOXBANG technology and much more. FOXMotion allows you to fade the sound from the left speakers to the right speakers to help “sell” the reality of your call sounds. FOXCast allows you to play a pre-set custom sequence to include your favorite sounds, volume levels, and even pauses. FOXData allows you to record real time information from each and every stand so you can access the data for future reference. The X24 is backed by a 5 year limited warranty and FOXPRO's unmatched customer support and is proudly made in the USA.

X1

The FOXPRO X1 is a powerful and compact unit that features a positional Xtreme High Definition (XHD) speaker. The XHD speaker is a horn speaker with an added tweeter for improved frequency response. The XHD speaker system allows for extreme volume capabilities and realistic sound clarity. The X1's handle folds out into a positional stand to provide elevation over various terrains that you might encounter. There is 1 external speaker jack if you desire even more volume, an auxiliary jack to connect an approved device such as a Jack Predator Decoy, and a charge jack. The X1 comes with 100 high-quality FOXPRO sounds, with the ability to store and access up to 300 sounds. The X1 comes complete with a lithium battery and charger kit in the box!

The FOXPRO X1 features an enhanced remote with an elastomeric keypad for effortless use, even with gloves. It also has category files for easy navigation through sounds. The remote has a power on/off switch, volume up/down buttons. Scroll up/down, a mute, and much more. The X1 is backed by a 5 year limited warranty and FOXPRO's unmatched customer support and is proudly made in the USA.

PATRIOT

The FOXPRO Patriot is the perfect option for the up-and-coming predator hunter. It comes standard with 35 high-quality FOXPRO sounds, an additional 100 free sounds, and has the ability to hold up to 300 sounds. The Patriot offers maximum portability with its lightweight, rugged ABS housing. The unit comes with a single high-efficiency horn speaker that delivers a crystal-clear, high-quality sound with great volume. You can connect an external speaker to the jack on the side of the call for even more volume. The Patriot also has an auxiliary jack for use with an approved device such as the FoxJack 5 decoy. The FOXPRO Patriot features an enhanced remote with an elastomeric keypad for effortless use, even with gloves. It also has category files for easy navigation through sounds. The remote has a power on/off switch, volume up/down buttons. Scroll up/down, a mute, and much more.

The Patriot is backed by a 3 year limited warranty, FOXPRO's unmatched customer support, and is proudly made in the USA!

- Comes with 35 sounds, and 100 FREE sounds (can hold and access up to 300 sounds)
- High-efficiency horn speaker
- External speaker jack
- Auxiliary jack
- Operates on 4 AA batteries
- USB port to reprogram sounds

INFERNO

The FOXPRO Inferno gives you a lot of “bang for your buck” with a compact design, 75 high-quality FOXPRO sounds, an upgraded remote, and FOXBANG technology. The Inferno weighs in at only 1.5lbs with batteries. This unit offers maximum portability, with extreme volume and a high-quality sound. Connect an external speaker to the jack on the side of the unit for even more volume. FOXPRO’s Inferno remote is easy to operate and navigate through sound categories. The Inferno remote has two preset buttons, a mute button, volume up and down buttons, and much more. All of these features in one amazing, compact, and high-quality unit makes the Inferno an incredible value. It’s packed with great features and innovations from FOXPRO. The Inferno is backed by a 3 year limited warranty, FOXPRO's unmatched customer support, and is proudly made in the USA!

SHOCKWAVE

The FOXPRO Shockwave has a four-speaker system with two horn speakers and two tweeters for unrivaled sound quality and volume capability. There are 2 external speaker jacks if you desire even more volume, an auxiliary jack to connect an approved device such as a Jack Predator Decoy, and a charge jack. The Shockwave comes with 100 high-quality FOXPRO sounds, with the ability to store and access up to 1000 sounds. You can operate the Shockwave manually or with the TX-1000 remote control.

The TX-1000 features a full color graphic LCD screen, which displays your sound list or sound categories. It also has a barometer indicator, moon phase indicator, temperature indicator, battery level indicator, timer or time clock, FOXBANG technology and much more. FOXPRO's Shockwave redefines what an electronic game call can do with several NEW FOXPRO innovations. FOXMotion allows you to fade the sound from the left speakers to the right speakers to help “sell” the reality of

your call sounds. FOXFusion allows you to mix and match any two sounds at the same time during your calling sequence. FOXPitch allows you to manipulate the “pitch” of the sound in an effort to trigger a response. FOXData allows you to record real time information from each and every stand so you can access the data for future reference. The Shockwave is backed by a 5 year limited warranty and FOXPRO's unmatched customer support and is proudly made in the USA.

SNOW PRO

Bring those circling snow geese and crows within gun range, with the compact and powerful SNOW PRO from FOXPRO. This caller comes standard with 75 high quality FOXPRO sounds and can store and access up to 300 sounds. The SNOW PRO comes with 37 of the most proven snow goose sounds, 29 predator sounds, and 9 crow sounds. The SNOW PRO is powered by an 11.1 lithium battery pack (battery and charger included). The SNOW PRO comes with two 10 watt external speakers and allows you to connect up to four external speakers. The SNOW PRO is USB reprogrammable and offers the ability to add an external battery source for extended run times. The SNOW PRO remote offers long range control and comes standard with an elastomeric keypad to make operation easier when wearing gloves.

The Snow Pro is backed by a 3 year limited warranty and FOXPRO's unmatched customer support and is proudly made in the USA.

SUPER SNOW CROW PRO-W

Bring those circling snow geese and crows within gun range, with the extreme volume capabilities of the SUPER SNOW CROW PRO-W from FOXPRO. This caller comes standard with 100 high quality FOXPRO sounds and can store and access up to 1000 sounds. The SSCP-W (Super Snow Crow Pro-W) is powered by two 12 volt gel cell batteries. The SSCP-W comes with two 30 watt external speakers and allows you to connect up to four external speakers, which have heavy duty connector plugs to hold up in the worst conditions.

The SSCP-W comes standard with the TX-1000 remote control. The TX-1000 features a full color graphic LCD screen which displays your sound list or sound categories, has a barometer indicator, moon phase indicator, temperature indicator, battery level indicator, timer or time clock, FOXBANG technology and much more. FOXMotion allows you to fade the sound from the left speakers to the right speakers to help “sell” the reality of your call sounds. FOXFusion allows you to mix and match any two sounds at the same time during your calling sequence. FOXPitch allows you to manipulate the “pitch” of the sound in an effort to trigger a response. FOXData allows you to record real time information from each and every hunt so you can access the data for future reference. The Super Snow Crow Pro-W is backed by a 5 year limited warranty and FOXPRO's unmatched customer support and is proudly made in the USA.

Predator Decoys

X-DECOY

The X-Decoy from FOXPRO turns your X-Series game call into an all-inclusive and portable predator-calling machine. Attach the decoy to the top of your X-Series call (must use as a stand-alone if using with XWAVE) and connect the decoy to the call by using the supplied Aux cable or wireless IR port connection (IR only available in later X-Series call models). The X-Decoy may also be used along with any other FOXPRO call (that has an aux jack) as a separate stand-alone decoy. Simply screw the

included stake into the bottom of the decoy body and connect the decoy to your FOXPRO unit via the included Aux cord and Aux Jacks. The X-Decoy gives predators the visual confirmation they're looking for and listening for! It comes standard with a removable stake, Fuzzy Wuzzy topper, XHD speaker mounting hinge, and included allen wrench for assembly, stowed in the battery compartment. This decoy has a whisper quiet motor and Jacked Up Chaotic Motion for great action and realism. The X-Decoy has a 3 position switch that features 2 speed selectable motion (Off, High Speed, and Slow Speed) and is powered by 4AA batteries (not included). The X-Decoy is backed by a 1 year limited warranty and FOXPRO's unmatched customer support and is proudly made in the USA.

FOXJACK 5

Now you can turn your current FOXPRO digital game call into an all-inclusive and portable predator-calling machine. Simply replace your existing battery door with the FoxJack 5, connect the battery and 3.5mm mono patch cable from the decoy to your FOXPRO digital game call and you're ready to go.

The FoxJack 5 delivers an unpredictable motion with a whisper quiet motor. The FoxJack 5 gives predators the visual confirmation they're looking for and it can be controlled remotely with your FOXPRO remote digital game call. The FoxJack 5 is compatible with the PATRIOT, INFERNO, SPITFIRE and WILDFIRE.

FOXJACK 3

The FoxJack 3 electronic decoy turns your current FOXPRO Shockwave digital game call into an all-inclusive and portable predator-calling machine. Simply replace the existing battery door with the FoxJack 3, connect the power connector from the decoy to the Shockwave digital game call and you're ready to go.

The FoxJack 3 comes with a bird topper (which resembles a woodpecker) with a whisper quiet motor. Use the FoxJack 3 to add realism to give predators the visual confirmation that they are looking for. The FoxJack 3 can be controlled remotely with your FOXPRO Shockwave digital game call (FOXPRO Shockwave sold separately). The auxiliary button on your FOXPRO Shockwave remote control starts and stops the action of the FoxJack 3.

FOXPRO Battery Kits

8 Cell NiMH Battery/Charger Kit

Save money and improve performance with FOXPRO's "AA" 8 cell NiMH rechargeable battery kit. No more hassle of constantly purchasing alkaline batteries! Connect the charger directly to the unit and

be prepared in the field with your NEW 8 Cell NiMH Battery/Charger Kit! Check owner's manual for compatibility.

KIT INCLUDES: AC Charger, (8) "AA" NiMH Rechargeable Low Self Discharge Batteries.

10 Cell NiMH Battery/Charger Kit

Save money and improve performance with FOXPRO's "AA" 10 cell NiMH rechargeable battery kit. No more hassle of constantly purchasing alkaline batteries! Connect the charger directly to the unit and be prepared in the field with your 10 Cell NiMH Battery/Charger Kit!

Compatible only with the FOXPRO SHOCKWAVE, and HELLFIRE.

KIT INCLUDES: AC Charger, (10) "AA" NiMH Rechargeable Low Self-Discharge Batteries.

Lithium Battery Pack/Charger Kit

Save money and double battery run time and life with FOXPRO's lithium rechargeable battery pack. No more hassle of constantly purchasing alkaline batteries! Be prepared in the field with your Lithium Battery Pack/Charger Kit!

Compatible only with the FOXPRO SHOCKWAVE, KRAKATOA II, HELLFIRE AND CS-24C.

KIT INCLUDES: AC Charger, (1) Lithium Battery Pack (Battery pack must be removed from caller to charge).

Super High Capacity Lithium Battery / Car Charger Kit

Be prepared in the field with your Super High Capacity Lithium Battery / Car Charger Kit! This 11.1v 10,000mAh Lithium battery will give you maximum run time in the field and is able to be charged "on-the-go" in your vehicle when installed in your compatible FOXPRO unit and plugged into your vehicle's 12v outlet.

Compatible only with the FOXPRO X1, X24, X2S

KIT INCLUDES: 12v Car Charger, (1) Super High Capacity Lithium Battery Pack

- 10,000mAh Rechargeable lithium battery pack
- 12v Car Charger with 2.1mm barrel connector

High Capacity Lithium Battery / Car Charger Kit

Be prepared in the field with your High Capacity Lithium Battery / Car Charger Kit! This 11.1v 6,700mAh Lithium battery will give you outstanding run time in the field and is able to be charged "on-the-go" in your vehicle when installed in your compatible FOXPRO unit and plugged into your vehicle's 12v outlet.

Compatible only with the FOXPRO X1, X24, X2S, XWAVE

KIT INCLUDES: 12v Car Charger, (1) High Capacity Lithium Battery Pack

- 6,700mAh Rechargeable lithium battery pack
- 12v Car Charger with 2.1mm barrel connector

Extended Capacity Lithium Battery / Car Charger Kit

Be prepared in the field with your Extended Capacity Lithium Battery / Car Charger Kit! This 11.1v 3,350mAh Lithium battery will give you extended run time in the field and is able to be charged "on-the-go" in your vehicle when installed in your compatible FOXPRO unit and plugged into your vehicle's 12v outlet.

Compatible only with the FOXPRO Hi-Jack

KIT INCLUDES: 12v Car Charger, (1) Extended Capacity Lithium Battery Pack

- 3,350mAh Rechargeable lithium battery pack

- 12v Car Charger with 2.1mm barrel connector

Car Charger

Charge "On-The-Go" with your 11.1v Car Charger! Plug this into your vehicle's 12v outlet and charge your compatible Lithium battery (when installed in a compatible FOXPRO unit.)

Compatible only with the FOXPRO Hi-Jack, X1, X24, X2S, XWAVE

- 12v Car Charger with 2.1mm barrel connector

EXTERNAL SPEAKERS

SP-60 External Speaker

SP-70SCW External Speaker

This is an external speaker specifically for the Super Snow Crow Pro only.

FOXPRO SCOUT PACK

The FOXPRO Scout Pack holds and protects your portable FOXPRO Game Call (except all Prairie Blaster and Krakatoa models). The FOXPRO Scout Pack can transform from a traditional carry bag into a vest pack that will make your hunt more comfortable when on-the-go. This pack features a remote holder compatible with all FOXPRO remotes and also features fold-down side pockets with mesh screen that allow you to operate your XWAVE while it is still inside of the bag. Designed specifically for the XWAVE, but will also house other smaller FOXPRO callers as well as your hunting accessories. The Scout Pack features moly webbing on the exterior of the bag so you can further accessorize by adding your own moly attachments. D-rings on the bottom of the bag will allow you to add a seat for extra comfort in the field making the FOXPRO Scout Pack a necessary addition for today's Predator Hunter.

Coyote Brow Carry Bag

Specially designed to for the X1, X2s, and X24 (all with mounted X-Decoy). It will also fit all other FOXPRO game calls (except all Prairie Blaster™ models, Shockwave, XWAVE, and all Krakatoa™ models).
