

HALFGEN SYSTEM

Grow Your Own

Retrofit your backcountry repertoire with the world's first modular, expandable basecamp cooking system. Use it as a standalone stove, or couple it to other JetLink compatible stoves via the JetLink Port. A beastly 10,000 BTUs makes boiling water a jif, and incomparable simmer control gives you the flexibility to boil fast or simmer slow.

HALFGEN
(HalfGen System)

BEST FOR

Expanding your basecamp cooking possibilities.
