

JETGAUGE

Every Ounce Counts

Making running out of fuel is a thing of the past. Engineered to accurately measure the fuel level of any Jetboil canister, the JetGauge helps you know before you go and ensure you've used every last drop of fuel.

| % | Boils* |
|-----|--------|
| 100 | = 24 |
| 75 | = 18 |
| 50 | = 12 |
| 2 | = 6 |

*1 boil = 2 Cups Water (500mg)

*Maximum boils based on stove and conditions

SPECIFICATIONS

| | |
