

Field Tuff FTF-21F3PT 3PT Furrower with 2 Shovels

Product description: Field Tuff's new FTF-21F3PT 3PT Furrower with 2 Shovels features a 3-point hitch that enables you to use this furrower with category 1 tractors. It is ideal for use with up to 40 horse power tractors. The working depth of this furrower is 6-8-inches, to provide a deep root-base. The interchangeable blades are 3/16-inch thick for durability. The wide blade has a cutting width of 11-inches. The Furrower also includes a 2-inch, hardened, ripper-tooth blade for an extremely versatile furrower. Field Tuff's 3PT Furrower is constructed of a heavy-duty, 2-inch tube frame for long-lasting durability. This piece of equipment is designed to loosen hard, packed soil and is perfect for making rows in your garden or food plot and is great for digging potatoes. The Field Tuff 3PT Furrower also allows you to dig trenches for wire or shallow water lines, making this a very useful and multifaceted tool. 1-year limited manufacturer's parts warranty.
