

Field Tuff FTF-0632CPATV 72” Cultipacker

Field Tuff’s FTF-0632CPATV 72” Cultipacker is an essential tool needed in the production of crops, whether it be for your food plot or your garden. This cultipacker covers a 6 ft. wide area to efficiently break up soil clumps and firm your soil to prepare your seedbed for planting or seeding. The pin hitch allows you to pull the cultipacker behind your ATV, UTV, or utility tractor. Constructed of 32 individual cast iron packer wheels measuring 9.5” each, for optimal packing and long-lasting durability. Field Tuff’s cultipacker features knobs to crush and pulverize soil clods and to create moisture retaining dimples for the health of your soil and seed. The steel packer wheel shaft measures 1 ¾” in diameter to provide long-lasting wear resistance, ensuring that your cultipacker will continue working at its greatest potential. The 13” pneumatic tires give you easy maneuverability with your cultipacker while the unique, flip-over design allows you to pull the cultipacker with little effort. Field Tuff’s Cultipacker removes air pockets, creates a smooth, firm seedbed, and prevents deep seed planting to help prepare your optimal food plot. The optional FTF-HCP3PT 3-Point Hitch Kit, sold separately, allows you to mount to your Category 1 tractor.

- Covers a 6 ft. area to efficiently break soil clumps and firm your soil for planting or seeding
