7500 MAH

CAPACITY

SOLAR PANEL

4 charge indicator LEDs
12 V/1.5 A output voltage
IP66 Waterproof

MOUNTING ARM

Flexible panel orientation
360° rotation
90° tilt
Heavy-duty mounting arm
Compact & quick to install

COMPACT LITHIUM BATTERY SOLAR PANEL

The SPLB-10 is a compact solar panel that harnesses the power of the sun to deliver longer power and better value than traditional batteries.

The perfect solution for those out-of-the-way spots you don't want to disturb, the SPLB-10's compact design encompasses a solar panel and battery in one, providing enhanced concealment in the field and making it easier to set-up and maintain than a traditional 12V solar panel. It comes with a heavy-duty mounting arm that grips tightly, swivels and rotates 360° and tilts to 90° so you can optimize your camera placement in every situation.

The SPLB-10 is compatible with all SPYPOINT cameras and, like all solar panels, performs best in full sun and when the panel is kept clear of dirt and debris.

ACCESSORIES

INCLUDED :

1.5 mm output cable for SPYPOINT cameras
Mounting arm
Installation strap
2 output cables (USB-C to USB-C and USB-A to USB-C)
Quick start guide

ABOUT US
