Multi-network LTE with true Dual SIM technology

THE BEST VALUE IN CELLULAR CAMERAS WITH A SOLAR SOLUTION

The SPYPOINT FLEX-M makes switching to cellular easier than ever before by providing **incredible quality at an unbeatable price** and the SPLB-10 Compact Solar Panel harnesses the power of the sun to deliver **longer power and better value** than traditional batteries. Bundled together, you have the **best value in a solar option**.

The FLEX-M delivers true **Dual SIM technology** that ensures **cross-carrier coverage** on all major cellular networks and **continuous connectivity** to the best coverage in the area, **mobile activation** and **on-camera buttons** that allow you to format the required microSD card (not included) and take a test photo, four capture modes including **Photo, Video, Time-Lapse, and Time-Lapse+**, a responsive trigger that optimizes the camera's settings for the exact conditions at the time of the photo to deliver the best quality image, and **Constant Capture technology** that allows the FLEX-M to **send and capture simultaneously**, so you won't miss a minute of action in the field.

The SPLB-10's compact design encompasses a solar panel and battery in one, providing enhanced concealment in the field and making it easier to set-up and maintain than a traditional 12V solar panel. Like all solar panels, it performs best in full sun and when the panel is kept clear of dirt and debris.

ACCESSORIES

INCLUDED :

SPLB-10 Lithium battery solar panel, 1.5 mm output cable for SPYPOINT cameras, USB-C to USB-C output cable, USB-A to USB-C output cable, mounting bracket and installation strap.

REQUIRED (sold separately) :

microSD Card (Up to 512 GB)
8 AA batteries **or** A LIT-22 Rechargeable Lithium Battery Pack

THE SPYPOINT APP

The SPYPOINT app provides easy camera activation, customizable maps, weather information, and BUCK TRACKER technology that uses AI image recognition software to scan your images with species filters. Manage your settings and update your firmware remotely through the app anywhere, at any time. With SPYPOINT, you have the entire hunt in the palm of your hand.

SPECIFICATIONS

5W/7500 mAh

SPYPOINT is a worldwide leader of innovative mobile scouting solutions. Our cutting-edge cameras and advanced digital scouting tools offer industry-leading quality at exceptional value and benefits such as flexible photo transmission plans from free to unlimited and the SPYPOINT INSIDER'S CLUB. At SPYPOINT, we don't just make trail cameras. We make tools. We make a solution: the mobile scouting solution.
