

R5 BINOCULARS

- Phase 3 coatings on the prism align the light path as it travels through and reduces fringing and improves resolution.
- Dielectric coatings on the prism retain light transmission through the prism with enhanced surface reflectivity.
- HD Optical System for maximum light transmission, contrast, and resolution.
- Maximum light transmission with anti-reflective coatings on all glass surfaces.
- Keep your glass clear with Bushnell's exclusive EXO Barrier™ lens coating that repels water, oil, dust, and debris.
- IPX7 waterproof sealed chassis ready for any Weather condition.
- Durable, shockproof, ergonomic construction with rubber overmold.
- High Quality Vault Lite Chest Harness included.

SKU	DESCRIPTION	SIZE (H x W)	WEIGHT (oz/g)	FIELD OF VIEW @1000yds	EYE RELIEF
