

Muddy DV8 13-Inch Non-Insulated Boots – TBD

Short copy: The most passionate outdoorsmen among us know that, in any journey, the first step is always the most important. That’s why Muddy developed this NEW DV8 lineup of neoprene rubber boots—to deliver 100% waterproof, warmth-retaining protection that easily withstands prolonged exposure to cold, wet conditions of the most extreme kind. Rugged, flexible and comfort-rated from 0 to 70 degrees Fahrenheit, our DV8 13-Inch Non-Insulated Boots boast a combination 5mm neoprene and hand-crafted vulcanized rubber construction that naturally traps and retains body heat in addition to resisting odors and aging. And if you get too warm, simply roll the 13-inch calf pipes down and tuck your pant legs inside for a little ventilation. Pair those hardworking features with dual-density EVA midsoles and shock-absorbing polyurethane footbeds, and your feet are sure to stay cool dry, cushioned and supported while you rack up the miles. Integrated into the footbeds are sturdy, 4-inch nylon shanks, which deliver added structure and support. Proprietary Muddy outsoles provide 4x4 traction to keep you sure-footed in any conditions.

Long copy: The most passionate outdoorsmen among us know that, in any journey, the first step is always the most important. They’re also aware of the fact that the best opportunities to venture afield, whether to hunt, fish or explore, often require braving the weather when it’s far from being at its best. That’s exactly why Muddy developed this NEW DV8 lineup of neoprene rubber boots—to deliver 100% waterproof, warmth-retaining protection that easily withstands prolonged exposure to cold, wet conditions of the most extreme kind.

Rugged, flexible and comfort-rated from 0 to 70 degrees Fahrenheit, our DV8 13-Inch Non-Insulated Boots are just what every outdoorsman needs to ensure each outing starts off on the right foot. Their combination 5mm neoprene and hand-crafted vulcanized rubber construction controls odor, resists aging and naturally traps and retains body heat, ensuring feet stay warm enough to take on any outdoor challenge you can dream up. And if you get too warm while you’re at it, don’t worry. Just roll the 13-inch calf pipes down and tuck your pant legs inside for a little ventilation, thanks to breathable mesh linings that make quick work of letting moisture escape. Pair those hardworking features with dual-density EVA midsoles and shock-absorbing polyurethane footbeds that fight fatigue, and your feet are sure to stay cool and dry, as well as cushioned and supported, even while you continue to rack up the miles. Plus, integrated into the footbeds are sturdy, 4-inch nylon shanks, which deliver added structure and support where and when busy feet need it most. Step after step, proprietary Muddy outsoles provide 4x4 traction to keep you sure-footed in any weather conditions, whether on firm or soggy ground. So, if you’re looking to start your next outdoor adventure with the best foot forward, make sure it’s protected by footwear that’s been designed from the ground up by the only brand named for what they’re built to see you through: wet, messy, muddy conditions. Whether early season or late, once you’ve slipped into Muddy’s DV8 boots, all that’s left to do is show the wild what you’re made of.
