

**A/T™ ELITE GTX MID**

Designed to meet the rigorous demands of law enforcement, military and first responders, the A/T Elite Mid GTX boot is more than capable of overcoming any obstacle that gets in your way. A GORE-TEX® waterproof lining keeps things dry in even the wettest conditions, while high abrasion mesh panels and 3D TPU welds make for a durable, yet lightweight upper. All-day comfort and durability come courtesy of a Dual Density PU midsole with energy return and shock mitigation, an A.T.L.A.S. 2.0 insole and integrated support plate. When the rubber meets the road (or the

GORE-TEX® ECHO FOAM™ FORCE FOAM™ 

sidewalk or trail), our proprietary 5.11® x Vibram® high traction outsole is a proven choice. The A/T Elite Mid GTX boot offers the ultimate comfort, protection and performance you can count on.

- +High abrasion polyester mesh fabric with 45% recycled content and DWR finish
- +GORE-TEX® C-Ø ePE waterproof breathable lining
- +High abrasion mesh upper with welded TPU features
