This outsole meets the ASTM standard of performance requirements when evaluating slip resistance in protective footwear.

TEMPESENS TECHNOLOGY

Reacts to your body temperature and sweat level to keep you cool, dry and comfortable. When you're hot this innovative Swiss technology cools you down by vaporizing moisture and removing body heat.

ENERG TECHNOLOGY

Strategically placed high-rebound EVA brings high-end athletic shoe technology to more practical applications, delivering a recharging burst of energy with every step.

ULTRADRY™

This construction combines a moisture management lining with waterproof components for dry, long-lasting comfort and performance.
