PERFECT TORQUE. NOTHING MORE. NOTHING LESS.

Ensure precision in every turn with the Vortex Pro Torque Wrench. Offering adjustable torque settings from 10 to 90 in-lbs, it's designed to eliminate both over and under tightening when mounting riflescopes and red dots, adjusting bolts, and rifle action screws. Its ergonomic design and locking bit holder enhance control and accuracy. A wide array of bits included and backed by the Vortex® VIP® Warranty, this kit is an indispensable asset for any discerning shooter.
