

Stealth Cam ECO Mounts – STC-ECMNT

Short copy: Our ECO Mount features a ¼" tripod design that accepts a variety of cameras and solar packs and even pivots 180° in every direction—horizontally and vertically—to accommodate any location and angle necessary for capturing the best photos and videos, or the sun's rays. The rugged steel tube construction has an integrated hand screw lever to ensure ease of use.

Long copy: Whether you run cameras individually or pair them with solar power packs, our ECO Mount makes it quick and simple to get all your devices up and operational. The ¼" tripod mount accepts a variety of cameras and solar packs and even pivots 180° in every direction—horizontally and vertically—to accommodate any location and angle necessary for capturing the best photos and videos, or the sun's rays. The rugged steel tube construction even features an integrated hand screw lever design to simplify setup, adjustments and moves to new hunting grounds.

- Quick, simple and convenient way to mount your trail cams and solar power packs virtually anywhere
- ¼" tripod mount is compatible with a variety of cameras and solar packs
- Unique pivoting design allows for 180° of vertical and horizontal adjustments
- Durable steel construction stands up to repeated exposure to the elements
- Hand screw lever enhances ease of use and application
