

Wildgame Innovations Terra XT 2.0 Cellular Trail Camera – WGI-TERACC2

Short copy: The Terra XT 2.0 Cellular Trail Camera captures 24MP photos and 720P videos, then delivers both On Demand via compatibility with the HuntSmart™ app. It also offers automatic, dual network coverage across Verizon and AT&T providers, while allowing hunters access to a variety of other industry-exclusive features in the app. The camera boasts a far-reaching 80-foot detection and flash range that pair with the 0.5-second trigger speed, burst mode and timelapse capabilities to provide nearly instant, 24/7 updates, whenever the camera is triggered.

Long copy: As trail camera technology evolves, so should the setups you run season after season. That's why the team at Wildgame Innovations has taken their Terra Cell camera a step further with the introduction of the Terra XT 2.0 Cellular Trail Camera—a device capable of capturing 24MP photos and 720P video, then delivering both On Demand as users see fit, via compatibility with the HuntSmart™ app. On Demand capabilities allow hunters to prompt the Terra XT 2.0 camera to capture photos or videos and then view them within minutes on their mobile devices, making the camera ideal for managing properties from virtually anywhere, day or night.

Adding to this camera's appeal is its automatic, dual network coverage across Verizon and AT&T providers, as well as its seamless integration with the HuntSmart app*. [HuntSmart](#), the brand's tried and true, highly dependable scouting app, allows for the tagging, filtering, sorting and organizing of images across all of your active cameras, before setting up a network to share them with friends and family. The app also allows hunters access to industry-exclusive features, such as:

- On Demand capabilities by prompting specific cameras to capture photos or videos in real-time, with just the push of a button.
- A long list of other one-of-a-kind functionalities, like camera locator technology, weather data, image recognition, advanced filtering capabilities, and more.
- A variety of subscription plan options, all utilizing the app's game-changing scouting features with all active WGI game cameras.

In addition, the camera boasts a far-reaching 80-foot detection range that pairs with the 0.5-second trigger speed, burst mode and timelapse capabilities to provide nearly instant, 24/7 updates whenever the camera is triggered. The Terra XT 2.0 also features a ¼" threaded mount, 12V DC auxiliary jack and optional t-post mounting bracket (included) to ensure you make the most of every setup, in almost no time flat.

- Integrated with HuntSmart app functionality, including use of the On Demand feature
- Captures and delivers 24MP photos and high-quality 720P video
- Shares clear day and nighttime imagery and video, 24/7
- Two pre-installed SIM cards connect to either AT&T or Verizon network signals
- Automatic Network Coverage selects the strongest network
